

ALGERIA - APPENDIX-A

Item No	Deficiencies				Corrective Action			
	ICAO Reference Document & GPIs	Description	Date first reported	Remarks/ Impact of non-implementation	Action by States	Action taken/planned by State (including timelines/target dates)	Identified implementation impediment and action thereon	Status
AERONAUTICAL INFORMATION MANAGEMENT (AIM)								
1.	[Annex 15 Para 3.7.1]	Non implementation of WGS-84		Unable to implement basic PBN requirements	WGS-84 Implemented			
2.	[Annex 15 Para 4.1- 4.2]	Non-standard format of AIP		Difficulty to locate essential safety information relevant to conditions of services	AIP Standard Format available electronic format available			
3.	[Annex 15 Para 5]	Lack of regular and effective updating of AIP		Lack of updated information can lead to safety of air navigation being compromised	Amendment Publication on AIRAC dates			
4.	[Annex 15, Para 3.1.1.2, 3.1.4, 3.1.6, 3.2.1 & 4.1]	AIP containing conflicting/misleading information within the different sections		Can cause confusion as to the accuracy and reliability of information that can be utilised by users	Cross checking of Published data effected			
5.	[Annex 15, Para 5]	Lack of implementation of AIRAC system		Publication of critical aeronautical information will not follow standard procedure and can impact on safety of air navigation	Full AIRAC implemented			
6.	[Annex 15, Para 5]	Lack of timely issuance of notams		Non- availability of critical aeronautical information via notams	Full NOTAM Provision			

7.	Annex 4, [Para 3.2, 7.2, 13.2 & 16.2] [Annex 15, Para 4.2.3]	Non production of aeronautical charts appropriate to the State		Lack of critical information essential for safety of air navigation	Aeronautical Chart available			
8.	[Annex 4]	Non use of standard units of measurement		Can impact on safety of air navigation	Full compliance with standard units			
9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	<i>QMS Certified</i>			
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised	Full AIS system implemented			
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS	Automated system available			
12.	[Annex 15, Para 8.1]	Non provision of pre-flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation	Full PIB is available			
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS	AIS aerodrome unit operational at all International Airports			
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS				

ANGOLA

Item No	Deficiencies				Corrective Action			
	ICAO Reference Document & GPIs	Description	Date first reported	Remarks/ Impact of non-implementation	Action by States	Action taken/planned by State (including timelines/target dates)	Identified implementation impediment and action thereon	Status
AERONAUTICAL INFORMATION MANAGEMENT (AIM)								
1.	[Annex 15 Para 3.7.1]	Non implementation of WGS-84		Unable to implement basic PBN requirements	WGS-84 Implemented			
2.	[Annex 15 Para 4.1- 4.2]	Non standard format of AIP		Difficulty to locate essential safety information relevant to conditions of services	AIP Standard Format available electronic format available			
3.	[Annex 15 Para 5]	Lack of regular and effective updating of AIP		Lack of updated information can lead to safety of air navigation being compromised	Amendment Publication on AIRAC dates			
4.	[Annex 15, Para 3.1.1.2, 3.1.4, 3.1.6, 3.2.1 & 4.1]	AIP containing conflicting/misleading information within the different sections		Can cause confusion as to the accuracy and reliability of information that can be utilised by users	Cross checking of Published data effected			
5.	[Annex 15, Para 5]	Lack of implementation of AIRAC system		Publication of critical aeronautical information will not follow standard procedure and can impact on safety of air navigation	Full AIRAC implemented			
6.	[Annex 15, Para 5]	Lack of timely issuance of notams		Non- availability of critical aeronautical information via notams	Full NOTAM Provision			

7.	Annex 4, [Para 3.2, 7.2, 13.2 & 16.2] [Annex 15, Para 4.2.3]	Non production of aeronautical charts appropriate to the State		Lack of critical information essential for safety of air navigation	Aeronautical Chart available			
8.	[Annex 4]	Non use of standard units of measurement		Can impact on safety of air navigation	Full compliance with standard units			
9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	<i>Need to introduce a properly organized quality system in conformity with ISO 9000 series of quality assurance standards.</i>			
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised	Full AIS system implemented			
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS	Automated system available			
12.	[Annex 15, Para 8.1]	Non provision of pre-flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation	Full PIB is available			
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS	AIS aerodrome unit operational at all International Airports			
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS				

BENIN

Item No	Deficiencies				Corrective Action			
	ICAO Reference Document & GPIs	Description	Date first reported	Remarks/ Impact of non-implementation	Action by States	Action taken/planned by State (including timelines/target dates)	Identified implementation impediment and action thereon	Status
AERONAUTICAL INFORMATION MANAGEMENT (AIM)								
1.	[Annex 15 Para 3.7.1]	Non implementation of WGS-84		Unable to implement basic PBN requirements	WGS-84 network implemented	WGS-84 Network Updating and extension in progress		
2.	[Annex 15 Para 4.1- 4.2]	Non standard format of AIP		Difficulty to locate essential safety information relevant to conditions of services	AIP standard format available			
3.	[Annex 15 Para 5]	Lack of regular and effective updating of AIP		Lack of updated information can lead to safety of air navigation being compromised	Amendment publication each AIRAC date			
4.	[Annex 15, Para 3.1.1.2, 3.1.4, 3.1.6, 3.2.1 & 4.1]	AIP containing conflicting/misleading information within the different sections		Can cause confusion as to the accuracy and reliability of information that can be utilised by users	Permanent cross checking of published data and immediate correction done			
5.	[Annex 15, Para 5]	Lack of implementation of AIRAC system		Publication of critical aeronautical information will not follow standard procedure and can impact on safety of air navigation	Full AIRAC implemented			
6.	[Annex 15, Para 5]	Lack of timely issuance of notams		Non- availability of critical aeronautical information via notams	Full NOTAM provision			

7.	Annex 4, [Para 3.2, 7.2, 13.2 & 16.2] [Annex 15, Para 4.2.3]	Non production of aeronautical charts appropriate to the State		Lack of critical information essential for safety of air navigation	Aeronautical chart available			
8.	[Annex 4]	Non use of standard units of measurement		Can impact on safety of air navigation	Full compliance with standard units			
9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	QMS in progress	Process defined ISO certification first quarter 2013		
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised	Full AIS system implemented			
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS	New automation system in implementation.	Full operation in July 2012		
12.	[Annex 15, Para 8.1]	Non provision of pre-flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation		Full PIB availability with the new dynamic data base which be in operation in July 2012		
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS	AIS aerodrome unit operational at all international airport			
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS		New qualification training program adopted and implemented for all AIM personnel		

BOTSWANA

Item No	Deficiencies				Corrective Action			
	ICAO Reference Document & GPIs	Description	Date first reported	Remarks/ Impact of non-implementation	Action by States	Action taken/planned by State (including timelines/target dates)	Identified implementation impediment and action thereon	Status
AERONAUTICAL INFORMATION MANAGEMENT (AIM)								
1.	[Annex 15 Para 3.7.1]	Non implementation of WGS-84		Unable to implement basic PBN requirements	WGS-84 network implemented			
2.	[Annex 15 Para 4.1- 4.2]	Non standard format of AIP		Difficulty to locate essential safety information relevant to conditions of services	AIP standard format available			
3.	[Annex 15 Para 5]	Lack of regular and effective updating of AIP		Lack of updated information can lead to safety of air navigation being compromised	Amendment publication each AIRAC date			
4.	[Annex 15, Para 3.1.1.2, 3.1.4, 3.1.6, 3.2.1 & 4.1]	AIP containing conflicting/misleading information within the different sections		Can cause confusion as to the accuracy and reliability of information that can be utilised by users	Permanent cross checking of published data and immediate correction done			
5.	[Annex 15, Para 5]	Lack of implementation of AIRAC system		Publication of critical aeronautical information will not follow standard procedure and can impact on safety of air navigation	Full AIRAC implemented			
6.	[Annex 15, Para 5]	Lack of timely issuance of notams		Non- availability of critical aeronautical information via notams	Full NOTAM provision			

7.	Annex 4, [Para 3.2, 7.2, 13.2 & 16.2] [Annex 15, Para 4.2.3]	Non production of aeronautical charts appropriate to the State		Lack of critical information essential for safety of air navigation	Aeronautical chart available			
8.	[Annex 4]	Non use of standard units of measurement		Can impact on safety of air navigation	Full compliance with standard units			
9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	<i>Need to introduce a properly organized quality system in conformity with ISO 9000 series of quality assurance standards.</i>			
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised	Full AIS system implemented			
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS	New automation system in implementation.			
12.	[Annex 15, Para 8.1]	Non provision of pre-flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation				
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS	AIS aerodrome unit operational at all international airport			
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS				

BURKINA FASO

Item No	Deficiencies				Corrective Action

9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	QMS in progress	Process defined ISO certification first quarter 2013		
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised	Full AIS system implemented			
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS	New automation system in implementation.	Full operation in July 2012		
12.	[Annex 15, Para 8.1]	Non provision of pre-flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation		Full PIB availability with the new dynamic data base which be in operation in July 2012		
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS	AIS aerodrome unit operational at all international airport			
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS		New qualification training program adopted and implemented for all AIM personnel

2.	[Annex 15 Para 4.1- 4.2]	Non standard format of AIP		Difficulty to locate essential safety information relevant to conditions of services				
3.	[Annex 15 Para 5]	Lack of regular and effective updating of AIP		Lack of updated information can lead to safety of air navigation being compromised				
4.	[Annex 15, Para 3.1.1.2, 3.1.4, 3.1.6, 3.2.1 & 4.1]	AIP containing conflicting/misleading information within the different sections		Can cause confusion as to the accuracy and reliability of information that can be utilised by users				
5.	[Annex 15, Para 5]	Lack of implementation of AIRAC system		Publication of critical aeronautical information will not follow standard procedure and can impact on safety of air navigation				
6.	[Annex 15, Para 5]	Lack of timely issuance of notams		Non- availability of critical aeronautical information via notams				

7.	Annex 4, [Para 3.2, 7.2, 13.2 & 16.2] [Annex 15, Para 4.2.3]	Non production of aeronautical charts appropriate to the State		Lack of critical information essential for safety of air navigation				
8.	[Annex 4]	Non use of standard units of measurement		Can impact on safety of air navigation				
9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	<i>Need to introduce a properly organized quality system in conformity with ISO 9000 series of quality assurance standards.</i>			
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised				
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS				
12.	[Annex 15, Para 8.1]	Non provision of pre- flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation				
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS				
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS				

SENEGAL

11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS	New automation system in implementation.	Full operation in July 2012		
12.	[Annex 15, Para 8.1]	Non provision of pre-flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation		Full PIB availability with the new dynamic data base which be in operation in July 2012		
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS	AIS aerodrome unit operational at all international airport			
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS		New qualification training program adopted and implemented for all AIM personnel		

TUNISIA

Item No	Deficiencies				Corrective Action			
	ICAO Reference Document & GPIs	Description	Date first reported	Remarks/ Impact of non-implementation	Action by States	Action taken/planned by State (including timelines/target dates)	Identified implementation impediment and action thereon	Status
AERONAUTICAL INFORMATION MANAGEMENT (AIM)								
1.	[Annex 15 Para 3.7.1]	Non implementation of WGS-84		Unable to implement basic PBN requirements				
2.	[Annex 15 Para 4.1- 4.2]	Non standard format of AIP		Difficulty to locate essential safety information relevant to conditions of services				
3.	[Annex 15 Para 5]	Lack of regular and effective updating of AIP		Lack of updated information can lead to safety of air navigation being compromised				
4.	[Annex 15, Para 3.1.1.2, 3.1.4, 3.1.6, 3.2.1 & 4.1]	AIP containing conflicting/misleading information within the different sections		Can cause confusion as to the accuracy and reliability of information that can be utilised by users				
5.	[Annex 15, Para 5]	Lack of implementation of AIRAC system		Publication of critical aeronautical information will not follow standard procedure and can impact on safety of air navigation				
6.	[Annex 15, Para 5]	Lack of timely issuance of notams		Non- availability of critical aeronautical information via notams				

7.	Annex 4, [Para 3.2, 7.2, 13.2 & 16.2] [Annex 15, Para 4.2.3]	Non production of aeronautical charts appropriate to the State		Lack of critical information essential for safety of air navigation				
8.	[Annex 4]	Non use of standard units of measurement		Can impact on safety of air navigation				
9.	[Annex 15, Para 3.2]	Non implementation of AIS Quality Management System (QMS)		Cannot guarantee quality and accuracy of aeronautical data being published in the AIP	<i>QMS Certified</i>			
10.	[Doc 8126, Para 3.2.2 & 3.3]	Lack of effective AIS system		Processes and procedures relating to AIS will not be reliable and standardised				
11.	[Annex 15, Para 3.6.5]	Lack of AIS automation		Increases the chance of human errors during processing of aeronautical information and reduces efficiency of AIS				
12.	[Annex 15, Para 8.1]	Non provision of pre- flight information service at international airports		Lack of pre-flight information can affect flight planning by users and safety of air navigation				
13.	[Annex 15, Para 8.1]	Lack of AIS Aerodrome Units at International Airports		Cannot guarantee provisions of AIS				
14.	[Annex 15, Para 3.2]	Lack of adequate training of AIS personnel		Inadequate human resources to sustain the provision of AIS
