

# Mauritius

**Data** – outsource a survey (LIDAR survey) from a South African company to collect data for the whole island and for Rodrigues. Also, a complete airspace restructuring scheduled for Mar 2020 where we can have all ATM related data from the consultant.

**Competency** - started to train our staff. Two staff came to Nairobi for training during period February to April. Two more will attend training in February next year. One training for cartography is planned for next month in Kenya.

**Process Manual** – Almost completed. Need to implement the processes. QM will be updated to include the AIS
