

Thomas Mustach Curriculum Vitae (CV)

Attended Gonzaga University (1983 to 1988) and I received a Bachelor of Science in Electrical Engineering (BSEE). After I graduated I got a job with Boeing (1988 to 2002) as a Project Engineer on Communication Systems for all Boeing models (737, 747, 757, 767, 777). In 2002 I left Boeing to work at the FAA. I was hired into the FAA by Steve Vantrees. Yes, the same person whom is identified as my backup to give this workshop so please tell him how much you learned at this workshop or I may find Steve replacing me in the future (haha). I've been in the same branch of Aircraft Certification since I've come to the FAA. Within the FAA I have been involved in many projects, allowing me work with many aircraft manufacturers, equipment manufacturers, Comm Service Providers (e.g. Collins IMS and SITA), Operators, and Civil Aviation Authorities (CAAs) around the world. In 2011 I became a US Advisor in ICAO OPDLWG. I remain a US Advisor in OPDLWG and in 2019 I became a US Advisor in DCIWG.

Please my contact information below if you have questions or wish to query me. Thanks
