If the interrogator is only capable of using Mode S II codes, a search is undertaken for II codes that do overlap with matching SI codes.

If the interrogator is capable of using II/SI codes, a search is undertaken for SI codes that do not overlap with a Mode S II-only interrogator operating on the matching II code.

Main functions on the window SSR Table (cont'd)

Regular and new functions – Export submissions

File Edit View Insert Format Records Scripts Tools Window Help

The screenshot shows the SSR Table application interface. The 'Export submissions' button is highlighted with a red box and a hand cursor. A dialog box is open, displaying the following text:

<110> Open excel file

An Excel file will be created containing your submissions which you can attach later to an email message to the Regional Office.

Click "Open" to look at and save the Excel file
Click "Cancel" to cancel.

Notes:

1. The Excel file is saved in the folder C:/Frequency Finder/Save Submissions of your computer.
2. From this folder you can attach the Excel file to your email to the Regional Office.

The dialog box has 'Cancel' and 'Open' buttons at the bottom. A red box highlights the 'Open' button, with a blue arrow pointing down to the next screenshot.

The screenshot shows the SSR Table application interface with the 'Export submissions' button highlighted. In the background, an Excel file named 'SSR AFI ZZA 02-05-2022 70338 PM.xlsx' is open, displaying a table with columns A, B, C, and D. The table contains data for Sector1, Sector2, and Sector3.

	A	B	C	D
1	Sector1	Sector2	Sector3	Sector4
2	200	200	200	200
3				
4				
5				
6				

The Excel file is saved in the folder C:/Frequency Finder/Save Submissions of your computer. The application interface also shows the 'Export submissions' button and a 'SaveSubmissions' folder in the background.
