

WELCOME TO YAOUNDE-NSIMALEN RUNWAY SAFETY TEAM AIRSIDE DRIVING LICENSE IMPLEMENTATION PROCESS

MAZARIN HERVE MINTSA

CONTENTS

- I. OBJECTIVES
- II. OVERVIEW AND REGULATION
- III. AIRSIDE DRIVING PERMIT DELIVERY SYSTEM
- IV. IMPROVEMENT

OBJECTIVES

Ensuring safe
airside vehicle
operations to
prevent runway
incursion

Understanding the
rules and
regulations of airside
driving

Familiarization with
the airport
environment and
associated hazards

Implementation of
adequate measures
in case of incidents,
accidents and
offences

13 incident related to airside driving between 2018 - 2020

- Runway incursion (03)
- Jet Blast (03)
- Engine Collision with aircraft (02)
- Car crash (05)

OVERVIEW AND REGULATION

Décret N°2018/5250/PM du 26 Juin 2018 – Règles de police d'aérodrome et des installations aéronautiques au Cameroun

Article 28:

« Sont autorisés à accéder et à circuler Côté Piste pour nécessité de service, les véhicules disposant d'une autorisation d'accès délivrée par l'Autorité Aéronautique et d'une autorisation de circuler, délivrée par le Gestionnaire d'aéroport.»

Article 31:

« Sans préjudice de la réglementation en vigueur applicable en matière de circulation routière, la conduite Côté Piste est subordonnée à la détention d'un permis de conduire Côté Piste délivré par le Gestionnaire d'Aéroport, selon les conditions fixées par l'Autorité Aéronautique.»

Article 33:

«Sans préjudice des dispositions législatives et réglementaires applicables en matière de circulation routière, tout conducteur d'un véhicule doit se conformer à la signalisation spécifique de l'aérodrome établie par le Gestionnaire d'aéroport, ainsi qu'aux instructions formulées par les services de la circulation aérienne et le Gestionnaire d'aéroport.

AIRSIDE DRIVING PERMIT DELIVERY SYSTEM

ADPs at NSI – Training since the end 2020

+ RTF Training
(mandatory!) for
ADP M and P

- Training and tests are required to obtain an ADP

- This training is covering the:

- Initial Theory Training**

- Theory test** is required to complete this training

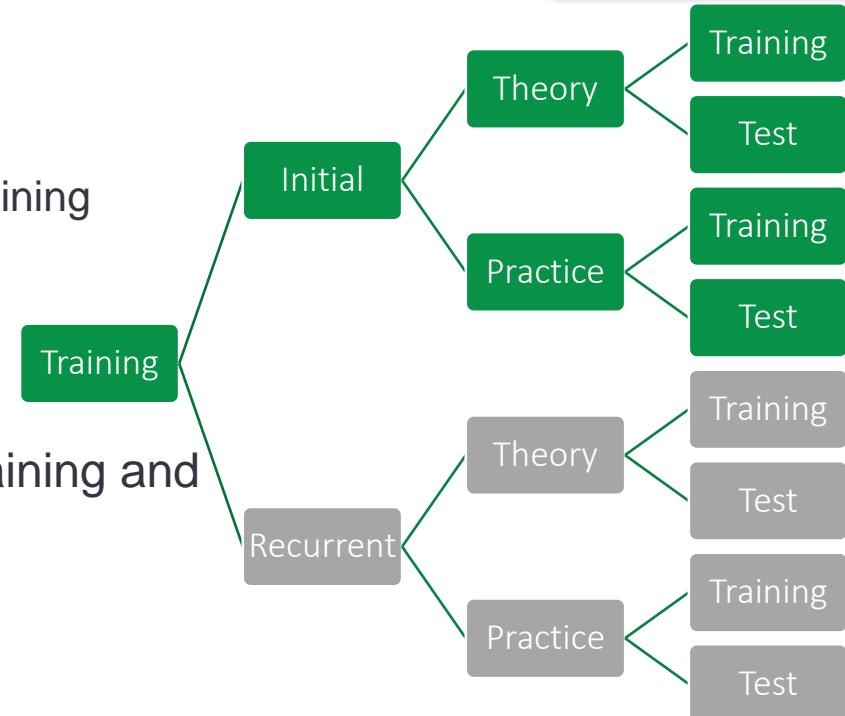

- Practical** training and test after successful completion of theory test

- Once you have obtained an ADP, you can revalidate it through **Recurrent** training and tests

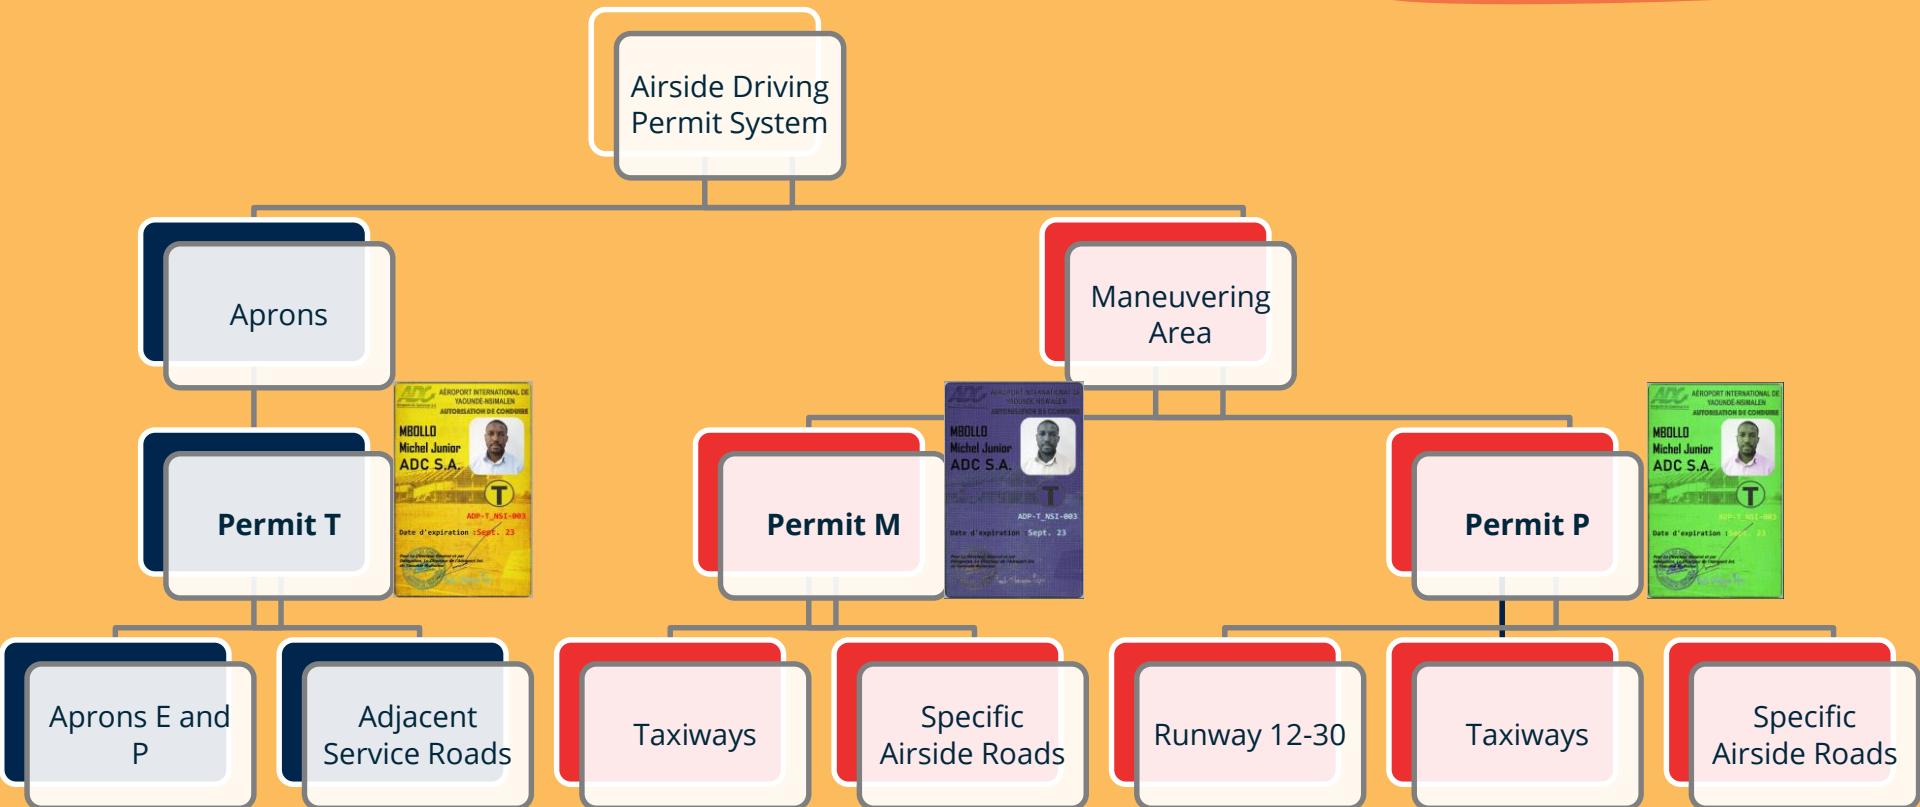

- Maximum validity of ADP

- 3 years (36 months)

- ADP validity will not exceed that of the national driving license

3 different types of ADP (T, M and P)

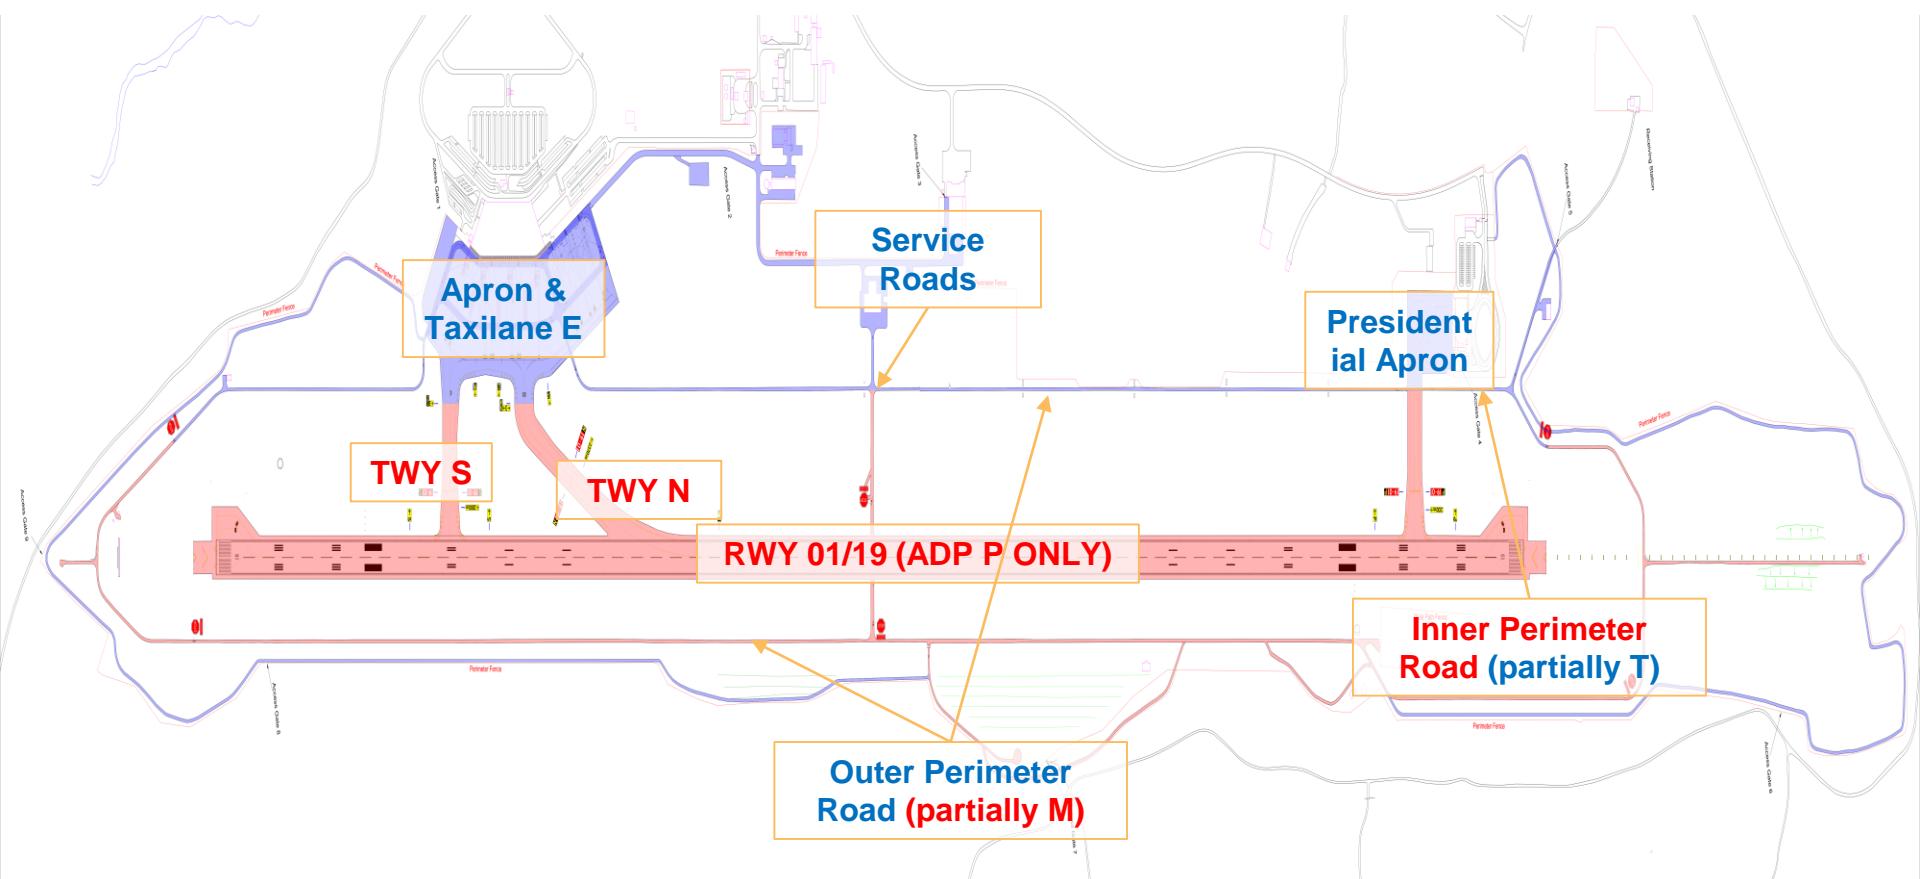

ADPs at NSI – Zones

ADP M = Excluding RWY 01/19

ADP P = Including RWY 01/19

Driving zones ADP T (blue) and ADP M and P (red)

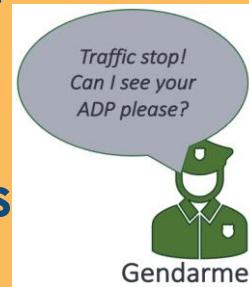

DELIVERY AFTER SATISFYING A THEOREICAL AND PRACTICAL TRAINING

CONTENTS OF THEOREICAL TRAINING

1. Airside Driving Permit (ADP)
2. Aerodrome Topography
3. Personal Responsibility
4. Vehicle Safety Standards
5. Airside Traffic Rules + RTF
6. Hazards & Safety-Related Issues
7. Penalties for Non-Compliance
8. Security Procedures
9. Emergency Procedures

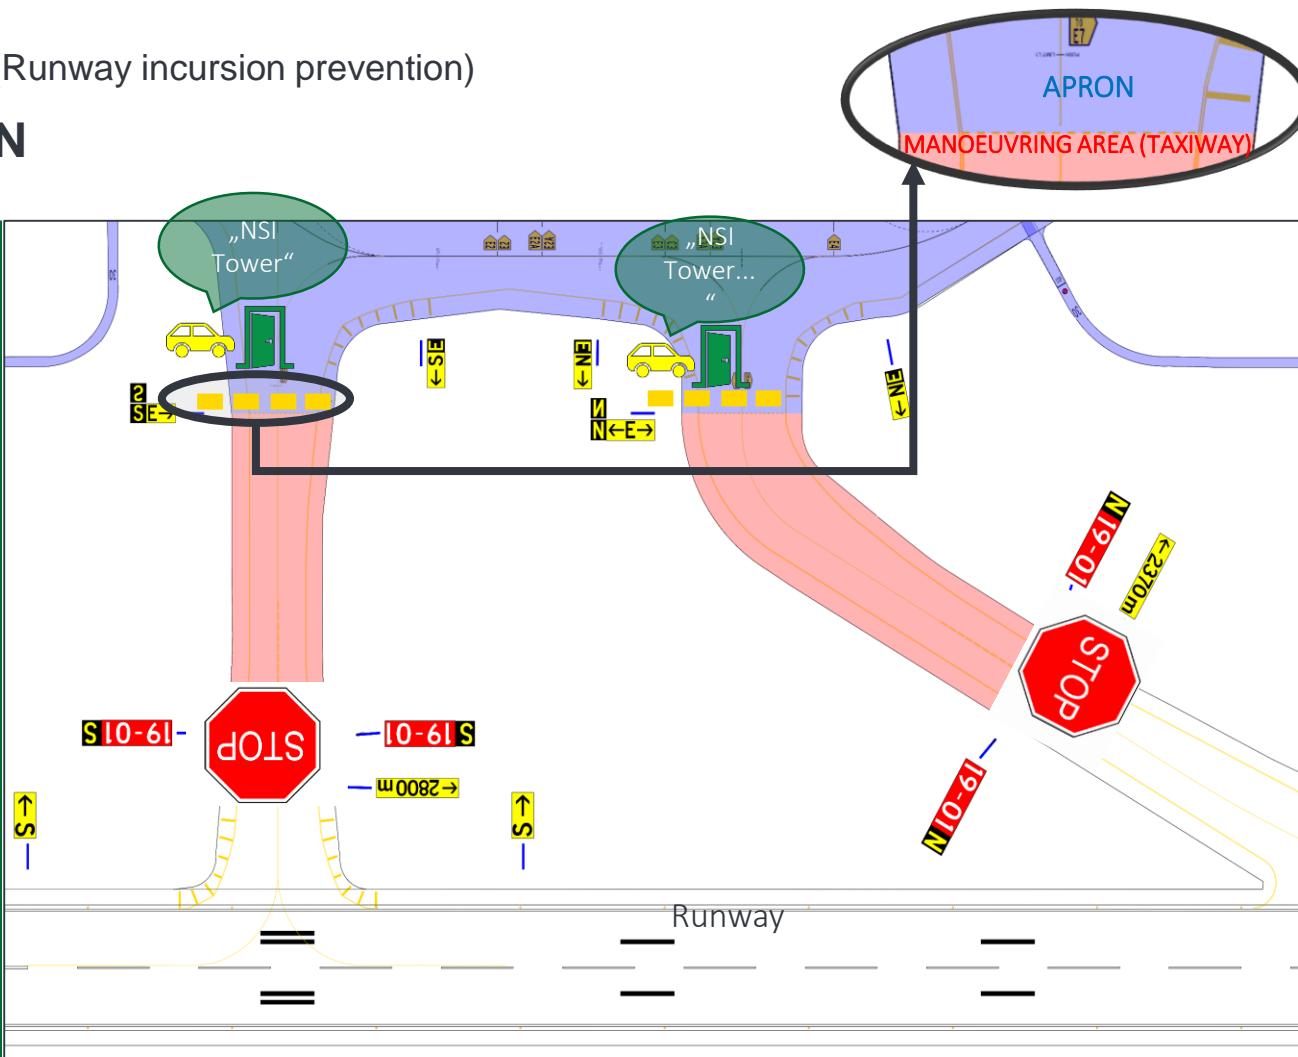

Gendarmerie

Driving on the Manoeuvring Area (Runway incursion prevention)

Access to TWY S, TWY N

1. Stop at Intermediate Holding Position marking on TWY S, TWY N)!
2. Contact NSI TWR on 119.1
 - a) WHOM YOU ARE CALLING
 - b) WHO YOU ARE
 - c) WHERE YOU ARE
 - d) WHERE YOU WISH TO GO
 - e) WHY YOU NEED TO GO
 - f) READBACK
3. Enter TWY if authorized
 - a) Do not access any other area that you are not cleared to enter!
 - b) Do not access the RWY or any other TWY without further clearance!

IMPROVEMENT

WHAT SHOULD WE IMPROVE ?

- ❖ Controlled of ADP by Gendarmerie : we need more implication by them
- ❖ Concern all the stakeholders : some of them aren't aware about ADP training

THANKS
