ESAF INNOVATION WEBINAR

2023

A glimpse into/build up to the ICAO Innovation Regional Workshop

ICAO

- Raise awareness with the community at large
- Promote potential benefits

States

- Develop a better understanding of regulatory challenges
- Learn how to create a culture promoting innovating

Private sector

- Traditional and non-traditional stakeholders, including start-ups
- Understand the regulator's role

Considerations

- Bridging the gap between Regulators and Innovators to the **benefit of the ICAO Member States**
- **Recognition** of perception
- Alignment with **UN initiatives**
- Includes case studies and examples from all **ICAO Strategic Objectives**
- **Target audience:** aviation and innovation ecosystem

Value

- Provides an appreciation of the **innovation ecosystem** and how it interacts with the **aviation ecosystem**
- Provides insights from **States** and **industry initiatives** across **all regions**:
 - **Regulatory solutions** that help integrate innovations into the existing aviation ecosystem
 - How States have **adapted their internal processes** to better respond to a fast-evolving ecosystem

Target audience

Anyone interested in innovation and forward-looking air transportation as a sector of global importance, including:

- Staff of State regulatory bodies (CAAs) involved in innovation initiatives;
- Representatives from regional organizations;
- Conventional aviation industry stakeholders implementing innovative concepts;
- Non-traditional stakeholders proposing innovative products or solutions.

Four modules – Contents

Module I

Background information
and
Development of
innovation
ecosystems

Module II

Examples of
regulatory
challenges
and
States approach
with a two-fold
perspective

Module III

States initiatives to
create and
maintain a culture
of innovation

Organizational
changes and new
methods of work

Module IV

Case Study

Format

- Around **1.5 hours** per module.
- **Engaging activities** to foster interactions: ice-breakers and experience sharing, brainstorming, group discussions, etc.
- **Exercises in small groups** to apply the concepts illustrated in each modules.

Timeline

2022

2023

Integration of contributions from ICAO

Launch
ESAF Delivery: 28-29 March 2023

Integration of external inputs from organizations and companies involved in innovation

Delivery of online workshops in all ICAO regions
