UNITING AVIATION

MICHIEL VREEDENBURGH

Chief, Aviation Safety Implementation Planning and Support
Air Navigation Bureau, International Civil Aviation Organization

Michiel Vreedenburg is the Chief, Aviation Safety Implementation Planning and Support, Air Navigation Bureau at ICAO Headquarters in Montreal since 2013. Michiel has nearly 30 years of international professional experience in aviation. Michiel has held a number of managerial positions at ICAO in the 16 years' serving the Organization, including Deputy Regional Director in the North American, Central American and Caribbean Office in Mexico City; previously also as Aerodromes Regional Officer and Aviation Security Regional Officer in the same office; and as Project Coordinator of a Technical Cooperation Project in Bangkok.

Michiel began his career in aviation and airport planning and development management working for 13 years in the private sector for large global infrastructure development engineering and management consulting firms, ascending from project engineer and manager to company Director. Michiel is a Netherlands citizen, civil engineer, specialised in airports, and has lived and worked in many countries in the Americas, Asia, Europe, Africa and Middle East.

In addition to his current role as Chief Implementation, he is also assigned the additional responsibilities of Global Programme Coordinator for the ICAO Runway Safety Programme (RSP), the Collaborative Arrangement for the Prevention and Management of Public Health Events in Civil Aviation (CAPSCA), and the Next Generation of Aviation Professionals (NGAP).
