MIDDLE EAST OFFICE**

**REPORT OF THE TWELFTH MEETING OF  
MIDANPIRG RVSM TASK FORCE  
(MID RVSM TF/12)**

***(Cairo, 29 –31 May 2006)***

The views expressed in this Report should be taken as those of the RVSM Task Force and not the Organization. This Report will, however, be submitted to the MIDANPIRG and any formal action taken will be published in due course as a Supplement to the Report.

Approved by the Meeting  
And published by authority of the Secretary General

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of ICAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontier or boundaries.

## **PART I - HISTORY OF THE MEETING**

### **1. PLACE AND DURATION**

1.1 The Twelfth Meeting of MIDANPIRG Reduced Vertical Separation Minimum Task Force (RVSM TF/12), was held at the Conference Room of the ICAO Middle East Regional Office, Cairo from 29 to 31 May 2006.

### **2. OPENING**

2.1 The meeting was opened by Mr. Mohamed R. M. Khonji, Regional Director ICAO Middle East Office, who welcomed all participants to Cairo and wished them a successful and fruitful meeting. He briefly recalled the RVSM implementation process in the MID Region and briefly indicated the outcome of the MID RMA/1 and MID RMA Board/1 meetings highlighting the good cooperation of States and the fruitful discussions observed during these meetings, which led to the establishment of the MID RMA in Bahrain effective 24 November 2005.

2.2 Mr. Khonji recalled that, taking into consideration the MID RMA duties and responsibilities, the MID RMA Board/2 meeting agreed that the MID RMA is responsible for the development of the RVSM post-implementation safety analysis which should be ready before 24 November 2006 with a view to be presented to MIDANPIRG/10 meeting planned for early 2007. He noted with concern the difficulties the MID RMA is encountering for the collection of data and emphasized that unless States make all effort to provide the required data, the RVSM post-implementation safety analysis could not be developed and the MID RMA could not carry out its functions as specified in its Terms of Reference, duties and responsibilities.

2.3 Mr. Khonji pointed out that one of the imported issues which are on the agenda of the meeting is the implementation of RVSM within Baghdad and Kabul FIRs. In this regard, he extended special welcome and thanks to the Afghani delegation who are attending an ICAO meeting in Cairo for the first time.

2.4 Finally, Mr. Khonji thanked EUROCONTROL for their sustained support and assistance that have greatly contributed in the materialization of the MID RMA project. He thanked also IATA, IFALPA, IFATCA and FAA for their presence and wished the meeting every success in its deliberations.

### **3. ATTENDANCE**

3.1 The meeting was attended by a total of 40 participants from 10 States (Afghanistan, Bahrain, Egypt, Iraq, Jordan, Kuwait, Oman, Saudi Arabia, Syria and the United States (FAA) and 4 Organizations (EUROCONTROL, IATA, IFALPA and IFATCA). The list of participants is at **Appendix A** to the report.

### **4. OFFICERS AND SECRETARIAT**

1.1 The meeting was chaired by Mr. Sabri Said Al-Busaidy from Oman. Mr. Mohamed Smaoui, Regional Officer Aeronautical Information and Charts/Meteorology (RO/AIS/MET) from the ICAO Middle East Regional Office, was the Secretary of the meeting. The Regional Director also participated actively in the discussions.

### **5. LANGUAGE**

5.1 The discussions were conducted in English. Documentation was issued in English.

MID RVSM TF/12  
History of the Meeting

---

## 6. AGENDA

- 6.1 The following Agenda was adopted:
- Agenda Item 1: Adoption of the provisional agenda.
  - Agenda Item 2: Status of MIDANPIRG Conclusions/Decisions concerning implementation of RVSM in the MID Region.
  - Agenda Item 3: RVSM post-implementation in the MID Region
    - Progress report on MID RMA Project;
    - Safety and monitoring aspects.
  - Agenda Item 4: ATC operations aspects
    - MID ATS Route network;
    - Proper handling of flight plans.
  - Agenda Item 5: Implementation of RVSM within Baghdad and Kabul FIRs.
  - Agenda Item 6: Any other business.

## 2 CONCLUSIONS AND DECISIONS – DEFINITION

- 2.1 The MIDANPIRG records its actions in the form of Conclusions and Decisions with the following significance:
- 2.2 **Conclusions** deal with matters that, according to the Group's terms of reference, merit directly the attention of States, or on which further action will be initiated by the Secretary in accordance with established procedures; and
- 2.3 **Decisions** relate solely to matters dealing with the internal working arrangements of the Group and its Sub-Groups.

## 3 LIST OF CONCLUSIONS AND DECISIONS

DRAFT CONCLUSION12/1: PROVISION OF DATA FOR THE DEVELOPMENT OF THE RVSM POST- IMPLEMENTATION SAFETY ANALYSIS

DRAFT CONCLUSION 12/2: SPECIAL BAGHDAD FIR COORDINATION MEETING

DRAFT CONCLUSION12/3: SURVEY RELATIVE TO THE IMPROPER HANDLING OF FPLS AND ASSOCIATED ATS MESSAGES

DRAFT CONCLUSION 12/4: FLEXIBLE HANDLING OF TRAFFIC INTENDING TO USE THE RVSM AIRSPACE

DRAFT DECISION 12/5: REVISED TERMS OF REFERENCE OF THE RVSM TASK FORCE

---

MID RVSM TF/12  
Report on Agenda Item 1

---

**PART II: REPORT ON AGENDA ITEMS**

**REPORT ON AGENDA ITEM 1: ADOPTION OF THE PROVISIONAL AGENDA**

1.1 The meeting reviewed and adopted the Provisional Agenda as at Para 6 of the History of the Meeting.

-----

MID RVSM TF/12  
Report on Agenda Item 2

---

**REPORT ON AGENDA ITEM 2: STATUS OF MIDANPIRG CONCLUSIONS/DECISIONS CONCERNING IMPLEMENTATION OF RVSM IN THE MID REGION**

2.1 Under this agenda item, the meeting recalled that MIDANPIRG/9 Meeting was presented with the list of outstanding Conclusions and Decisions emanating from MIDANPIRG 5, 6, 7 and 8 meetings and noted the follow-up actions taken pursuant to those Conclusions and Decisions.

2.2 The meeting noted the follow up actions taken by the Secretariat and States on current MIDANPIRG Conclusions and Decisions relevant to the implementation of RVSM in the MID Region attached at **Appendix 2A** to the report on Agenda Item 2.

-----

MID RVSM TF/12  
Report on Agenda Item 3

---

**REPORT ON AGENDA ITEM 3: RVSM Post - IMPLEMENTATION IN THE MID REGION**

3.1 Under this agenda item the meeting was presented with an overview of the coordination process that has taken place between the ICAO MID Regional Office, ICAO HQs and MID States with regard to the MID RMA Project.

3.2 The meeting noted with appreciation that further to the cease of the activities of the Middle East Central Monitoring Agency (MECMA), effective 30 June 2004, and as a follow-up to MIDANPIRG/9 Conclusion 9/13, the Middle East Regional Monitoring Agency (MID RMA) has been established in Bahrain and is operational since 24 November 2005. The meeting was informed that the MID RMA premises have been shifted to the new Control tower building at Bahrain Int'l airport.

3.3 The meeting was apprised of the outcome of the MID RMA/1, MID RMA Board/1 and MID RMA Board/2 meetings. In this regard, the meeting recalled that ten (10) MID States, namely: Bahrain, Egypt, Iran, Jordan, Kuwait, Lebanon, Oman, Saudi Arabia, Syria and Yemen committed themselves to participate in the MID RMA project by signing the Memorandum Of Agreement (MOA) on the establishment, operation and management of the MID RMA and its funding by the participating States.

3.4 The meeting appreciated the initiative of the MID RMA Board to invite UAE to join the MID RMA project and to exempt them from the payment of contributions for the first ten (10) years of operation of the MID RMA as stated in the MID RMA Board/2 Draft Conclusion 2/4 which reads as follows:

**DRAFT CONCLUSION 2/4: MEMBERSHIP OF THE MID RMA**

*That,*

- a) *Bahrain, Egypt, Iran, Jordan, Kuwait, Lebanon, Oman, Saudi Arabia, Syria and Yemen committed themselves to participate in the MID RMA project; and*
- b) *taking into consideration the tremendous efforts deployed by UAE in the preparation for the successful and safe implementation of RVSM in the MID Region, UAE is:*
  - i. *invited to join the MID RMA Project; and*
  - ii. *is to be exempted from the payment of contributions for the first ten (10) years of operation of the MID RMA.*

3.5 The meeting was informed of the follow-up action taken by the ICAO MID Regional office with regards to the above Conclusion and noted with concern that UAE has not yet reacted favourably to this proposal.

3.6 It was noted with appreciation that the MID RMA Project Action Plan, as updated by the MID RMA Board/2 meeting, is progressing as planned and the timelines are met. However, concern was raised regarding the progress made for the development of the RVSM post-implementation safety analysis.

3.7 The meeting recognized that the responsibilities of an RMA continue even after RVSM implementation. The overall intent of RMA activities after implementation is to support continued and safe use of RVSM. The meeting recognized that various methodologies have been used for the development of the RVSM post-implementation safety analysis and that they are

**MID RVSM TF/12**  
**Report on Agenda Item 3**

---

specific to each region and recalled that the MID RMA Board/2 meeting has recognized that the methodology currently used by EUROCONTROL is best suited for the MID-Region. In this regard, The meeting noted with appreciation the offer made by EUROCONTROL to train, at no expense, the MID RMA staff in Brussels with a view to acquire the necessary expertise for the development of the RVSM post-implementation safety analysis.

3.8 The meeting noted that the MID RMA Board/2 meeting had developed Draft Conclusion 2/5, which reads as follows:

**DRAFT CONCLUSION 2/5: SAFETY ASSESSMENT ACTIVITY**

*That,*

- a) *in accordance with its Duties and Responsibilities, the MID RMA is responsible for the development of the RVSM post-implementation safety analysis for the MID Region;*
- b) *support contractor/consultant might be required for the development of the RVSM post-implementation safety analysis and selection of the appropriate methodology; and*
- c) *the RVSM post-implementation safety analysis is to be ready before 24 November 2006 with a view to be presented to MIDANPIRG/10 meeting;*
- d) *the MID RMA determine the exact type and format of data required and inform States accordingly; and*
- e) *States provide the required data on a regular basis.*

3.9 The meeting noted that as a follow-up action, the MID RMA sent letters, emails, faxes and reminders to States asking for data related to the updated RVSM approvals and traffic data between FL290 and FL410 (inclusive) for the month of April 2006. It was highlighted that MS Excel sheets defining exactly the type and format of required data have been sent to States. In this regard the meeting recognized that States have to provide exactly the same type of data they provided for the development of the RVSM pre-implementation safety assessment. Accordingly, the meeting urged States to provide the required data to the MID RMA on a regular basis as agreed by MIDANPIRG/9 under Conclusion 9/23:

**CONCLUSION 9/23: DATA FOR SUSTAINED SAFETY ASSURANCE OF RNP AND RVSM WITHIN THE MID REGION**

*That, considering the on-going requirement for safety assurance related to RVSM and RNP operations within the Middle East Region,*

- a) *all States report data and incidents necessary for performing collision risk calculations required for sustained safe RVSM operations to the MID RMA\*. The data will include, but not necessarily be limited to:*
  - i) *assigned altitude deviations of 300 ft or more (monthly);*
  - ii) *total number of IFR movements (monthly);*
  - iii) *average time per movement spent in the level band FL290 - FL410;*
  - iv) *ATC/ATC coordination failures (monthly); and*
  - v) *traffic data (as requested by the MID RMA)\*;*

**MID RVSM TF/12**  
**Report on Agenda Item 3**

---

- b) monitoring States report navigational errors and traffic data in accordance with the Letter of Agreement concerning monitoring associated with RNP;*
- c) air operators maintain procedures for reporting of turbulence;*
- d) States report data on approval of operators and aircraft for RVSM operations (monthly); and*
- e) the MID RMA\* ensures that further processing and evaluation of this data within its Terms of Reference and identifies or develops methodologies for assessing risk associated with operational procedures prevailing within the MID Region.*

*\* MID RMA to be established*

*Note: Until the MID RMA is established, States forward to the ICAO MID Regional Office any relevant information likely to have a negative impact on the safe operations of RNP and RVSM in the region.*

3.10 Concern was raised regarding the unsatisfactory level of replies. With the exception of one or two States, the majority of States have either not provided the required data or provided incomplete data. The meeting noted with appreciation that the available data is posted on the MID RMA website at: [www.midrma.com](http://www.midrma.com) which is now operational and urged States to visit this website and provide their comments/feedback to the MID RMA with a view to enhance the website. The meeting noted the content of the MID RMA database pertaining to States' RVSM approvals at **Appendix 3A** to the report on Agenda Item 3 and urged the MID RMA to ensure that the requests for provision of data are extended to MID States' RVSM Programme Managers and their Alternates. In this regard, the meeting was of view that the RVSM Programme Managers shall act as focal points and carry out the necessary internal coordination with a view to speed up the process and provide the MID RMA with the requested data. Bearing in mind that more than three (3) years have elapsed since the designation of the RVSM Programme Managers by States changes have occurred and accordingly an update of the list at **Appendix 3B** to the report on Agenda Item 3 is required. It was clarified in this respect that the RVSM Programme Managers who have been carrying out specific technical tasks pertaining to RVSM implementation are not necessarily the same as the MID RMA Board Members who are responsible for the overall supervision of the management of the MID RMA and its funding. However, the meeting urged States to ensure that good communication and cooperation between the RVSM Programme Managers and the MID RMA Board Members is established and observed.

3.11 The meeting was informed that RVSM post-implementation safety analysis encompasses both horizontal and vertical analysis. For the horizontal analysis, radar data within the Bahrain FIR for the northern part of Bahrain (BAH) will be used. A data sample has been already forwarded to EUROCONTROL for evaluation. Additional radar data analysis activities have been planned. For the vertical assessment the traffic data for the month of April 2006 is a mandatory pre-requisite. Some States mentioned that the main cause for the delay in the provision of traffic data is due to the manual processing of this data.

3.12 The meeting emphasized that unless States make all effort to provide the required data, the RVSM post-implementation safety analysis could not be developed and the MID RMA could not carry out its functions as specified in its Terms of Reference (TOR), duties and responsibilities.

MID RVSM TF/12  
Report on Agenda Item 3

---

3.13 In order to achieve the objectives and enable the MID RMA to discharge its responsibilities, the meeting urged States to provide the required data to the MID RMA prior to 30 June 2006.

3.14 Based on the above the meeting developed the following draft Conclusion:

***DRAFT CONCLUSION 12/1: PROVISION OF DATA FOR THE DEVELOPMENT OF THE RVSM POST- IMPLEMENTATION SAFETY ANALYSIS***

*That, in accordance with MIDANPIRG/9 Conclusion 9/23 and with a view to have the RVSM post-implementation safety analysis ready before 24 November 2006:*

- a) States provide the required data to the MID RMA prior to 30 June 2006;*
- b) the MID RMA ensures that the requests for provision of data are extended to MID States' RVSM Programme Managers and their Alternates in order to carry out the necessary internal coordination and speed up the process of collection of data; and*
- c) States ensure that good communication and cooperation between the RVSM Programme Managers and the MID RMA Board Members is established and observed.*

3.15 The meeting agreed that as a follow-up to this Draft Conclusion the ICAO MID Regional Office is to send an official letter to States to emphasize the need for the provision of the required data prior to 30 June 2006 and to ask for the update of the contact details of the RVSM Programme Managers and their Alternates.

MID RVSM TF/12  
Report on Agenda Item 4

---

**REPORT ON AGENDA ITEM 4: ATC OPERATIONS ASPECTS****MID ATS Route network**

4.1 The meeting recalled that MIDANPIRG/9 noted that, due to urgent operational requirements, in particular, the implementation/post implementation of RVSM, States had to take proactive measures for the realignment, implementation and review of some strategic ATS routes in the MID Region with a view to ensure continued adherence to the operational concept forming the basis for MID RVSM implementation and that the established target level of safety (TLS) is not infringed.

4.2 The meeting noted that a major review of the ATS route network has also been carried out within Baghdad FIR. This enabled the creation of a parallel unidirectional trunk route within Baghdad FIR for the channelling of long-haul flights to/from Asia and Europe.

4.3 In view of the above, a proposal for amendment of the MID Basic Air Navigation Plan - Serial No. MID 05/01 ATS dated 17 February 2005, has been initiated by the Secretariat including all the changes which have already been carried out by States and other operational requirements identified within the framework of the Seventh meeting of the ATM/SAR/AIS Sub-Group. The proposal for amendment was approved by the President of the Council on 5 June 2005.

4.4 After the approval of the Amendment proposal MID 05/01-ATS, it was noted with concern that some of the route designators which are included in both the APAC and MID Basic ANPs are not compliant with Annex 11 provisions i.e. G/UG787E, G/UG787W and UP318N. Accordingly, coordination was carried out between both the ICAO MID Regional Offices in Cairo and Bangkok resulting in Oman, Pakistan and India actioning the alleviation of this deficiency and, the designators G/UG787E, G/UG787W were replaced by G/UG216 and A/UA454 respectively. This was reflected in Oman NOTAMs A0130/06 and A0131/06 effective 11 May 2006. Pakistan has also issued NOTAM A0740/05 to replace the ATS route designator UP318N by UP518. The meeting noted that these changes would be reflected in the next proposal for amendment of the MID Basic ANP.

4.5 The ATS route network for the MID Region, as indicated in the MID Basic ANP has been revised to reflect the requirements of the Region. In this regard, initiatives/actions have been taken by States in consultation with the users and ICAO with a view to improve safety and efficiency of air navigation in the Region.

4.6 The meeting noted that the route designator L/UL317 was assigned for a new route between Sulaymaniyah and Tehran and that some existing ATS routes/route segments in the interface area between Egypt and Greece have been re-designated with the objective to adapt the route designators in accordance with the major traffic flows and to rationalize flight planning by the aircraft operators. The route A791 between Egypt and Saudi Arabia has been changed from unidirectional to a bidirectional route. Other ATS route segments have been implemented/re-designated between Kabul and Lahore FIRs, in particular G796 from KABUL to LAJAK via JALALABAD was extended to HANGU.

4.7 The meeting was apprised of the outcome of the ATS route coordination meeting held in Damascus, 1-2 February 2006 with a view to implement/activate a number of ATS Routes between Iraq, Syria and Turkey and to strengthen the coordination procedures in the field of ATM between the mentioned States. For harmonization purpose and with a view to simplify flight planning and chart presentation, the meeting agreed to change the designator of the route segments ELEXI-DEIR ZZOR-ALEPPO-NISAP from UB402 to UM861, which is used for the continuation of this route in Ankara FIR. The lower ATS route B402 was proposed for deletion from the MID Basic ANP since this route is used for domestic flights only within Damascus FIR with the Designator W4.

MID RVSM TF/12  
Report on Agenda Item 4

---

4.8 Based on the above, the meeting agreed to include these requirements in the MID Basic ANP as reflected at **Appendix 4A** to the report on Agenda Item 4 bearing in mind that the final amendment to the MID route network is to be carried out within the framework of the ATM/SAR/AIS Sub-Group. The Secretariat will ensure that the additional route requirements are included in the MID Basic ANP in accordance with established procedures. However, it was emphasized that any modification to the ATS route network has to be brought to the attention of the MID RMA since this could have an impact on the safety assessment. Moreover, any modification to the ATS route network necessitating the amendment of the MID Basic ANP has to be carried out in accordance with established procedures.

4.9 The meeting then recalled that during the ATS route coordination meeting held in Damascus, 1-2 February 2006, the letter of agreement (LOA) between Baghdad and Damascus ACCs has been signed and it was agreed to reactivate the route UP975 (Eastbound) effective 11 May 2006. In this regard, the problem of VHF coverage in the North East area of Damascus FIR and North West area of Baghdad FIR as well as the non-availability of reliable ATS direct speech communications between Damascus and Baghdad ACCs were raised. The Syrian and Iraqi delegations ensured that by 11 May 2006, all the existing communication problems/deficiencies would be alleviated. The meeting noted that this deadline was not met due to the non-availability of reliable communications means mainly from the Iraqi side. The meeting further noted that Iraq had signed the LOA with Turkey in May 2006.

4.10 The meeting was apprised of some of the difficulties that Iraq is facing. This included both the maintenance of VSAT stations and the stand up of the Baghdad ACC. Sustained efforts are being made to expedite the communications matter and it was highlighted that five (5) VSAT stations have been installed since 2003. The problem of maintenance of the VSAT installed in Kuwait was highlighted. It was clarified that according to the protocol signed between Iraq and Kuwait, the maintenance of the VSAT is the responsibility of Iraq. Problems are continuously encountered with maintenance schedules and Iraqi personnel gaining access to Kuwait. Kuwait stated that it is committed to assist the Iraqi maintenance team and offered to help facilitate their entry to Kuwait and access to the VSAT station. The meeting noted also that communication problems between Baghdad and Amman ACCs are jeopardizing the safety of air navigation. Moreover, a number of flights which are crossing three (3) main routes with Amman FIR are not complying with the flight levels assigned to them as agreed between the two ACCs. In this regard, the meeting was informed that Jordan had received by email from Iraq an updated draft LOA and that comments were forwarded back to Iraq. The LOA between Jordan and Iraq is not yet signed. The meeting was of view that these issues should be addressed by bilateral meetings between both Jordan and Iraq.

4.11 IATA offered to assist Iraq and the adjacent States in the improvement of the ground-ground communications by installing the required VSAT stations providing that the cost be recovered through an agreed funding mechanism.

4.12 Accordingly, the meeting urged Iraq to establish reliable ATS direct speech communication with Damascus ACC and other neighbouring States/ACCs and invited States to coordinate among themselves matters related to mutual interest.

4.13 The meeting recalled that the First Special Coordination meeting - Baghdad FIR was held in Amman from 12 to 13 January 2004 and the Second Special Coordination meeting was held in Kuwait from 13 to 14 April 2004. The meeting was of view that another coordination meeting should be organized under the aegis of ICAO, as soon as possible, with a view to address the above-mentioned issues and other pressing matters. Accordingly, the meeting developed the following Draft Conclusion:

***DRAFT CONCLUSION 12/2: SPECIAL BAGHDAD FIR COORDINATION MEETING***

*That, with a view to address coordination issues between Iraq and its adjacent States, a Special Baghdad FIR Coordination Meeting be organized under the aegis of ICAO with the attendance of Iraq, Iran, Jordan, Kuwait, Saudi Arabia, Syria, Turkey, IATA, IFALPA, FAA, the Combined Forces Air Component Commander (CFACC) and the MID RMA.*

MID RVSM TF/12  
Report on Agenda Item 4

---

4.14 The meeting recalled that MIDANPIRG/9 noted the concern of the airspace users regarding delays in the processing/transmission of flight plans (FPLs) and highlighted that there is an urgent need to ensure that flight plans are properly filed and transmitted over the AFTN. The meeting recognized that most of the time the problem is due to human factors i.e. the AFTN addressees are not properly typed or are typed with errors at the level of manual processing systems, resulting in rejection of the flight plan by automated switching systems.

4.15 The meeting noted also that one of the causes is pertaining to the incapability of a number of Flight Data Processing Systems (FDPS) to accept/process more than 7 to 8 characters in item 10 of the flight plan. This leads to truncate letter "W" related to RVSM status. Accordingly, the concerned flights are treated as non-RVSM approved flights and aircraft are instructed to descent below RVSM flight levels.

4.16 The meeting recalled and reiterated all MIDANPIRG Conclusions relative to the problem of proper handling/processing of FPLs. It noted that as a follow-up to MIDANPIRG/9 Conclusion 9/17 and in line with the agreed methodology, the ICAO MID Regional Office carried out the required survey and letter Ref.: F.ME 386 dated 10 November 2005 was sent to concerned States (Bahrain, Egypt, Jordan, Saudi Arabia, Sudan, UAE and also Nigeria through the ICAO WACAF Office) with a copy to IATA.

4.17 The meeting noted that Egypt provided the statistics related to the traffic of one day (09/12/2005) as shown at **Appendix 4B** to the report on Agenda Item 4, which is not illustrative. However, it showed that 13 occurrences of non-receipt of FPL had been noted.

4.18 It was also noted with appreciation that UAE carried out a survey in 2005 related to the flights which were denied access to the RVSM designated airspace in the Emirates FIR. In this regard, in accordance with UAE AIP ENR 1.10.2 and UAE AIC 04/03, the Emirates ACC when receiving an estimate for a flight without FPL or with a FPL not indicating "W" in item 10 and intending to use RVSM flight levels, instructs the upstream ACC to transfer the aircraft below RVSM airspace. Such events are subsequently handled as follows:

- a log entry is made;
- the incident is investigated and the log is annotated with reasons, if available;
- a fax is sent to the Civil Aviation Authority at the point of departure of the flight, requesting for investigation of the problem;
- the UAE log is updated based on the received reply; and
- each originating State is informed of UAE findings with copy to the ICAO MID Regional Office in order to facilitate follow-up action.

4.19 Starting from April 2005, UAE carried out an analysis/investigation of individual cases per FIR. The results of this investigation are presented at **Appendix 4C** to the report on Agenda Item 4.

4.20 Noting that the problem of non-receipt of flight plans is still not solved, that Jeddah ACC is daily faced to handle flights entering/overflying Jeddah FIR whose FPL are not received and that this problem is partially linked to the use of Repetitive Flight Plans (RPLs), Saudi Arabia issued NOTAMs A0215/06 and A0216/06 as at **Appendix 4D** to the report on Agenda Item 4. Accordingly, the use of RPLs is no longer considered for inbound flights or flights overflying Jeddah FIR and flights without FPL entering Jeddah FIR are subject to be held at the boundary or denied access to Saudi Airspace until FPL is received. **Appendix 4E** to the report on Agenda Item 4 presents the statistics related to missing FPLs at Dammam-King Fahd Intl Airport during the period 1-15 April 2006.

4.21 IATA also reacted to the survey and suggested that it should be extended to involve European States since it has been noted that many missing FPLs in the MID Region were related to aircraft departing from Europe.

MID RVSM TF/12  
Report on Agenda Item 4

---

4.22 Regarding the Establishment of an Integrated Initial FPL Processing System (IFPS) and as a follow-up to MIDANPIRG Conclusion 9/18, and based on the information provided by Bahrain, the meeting noted that the feasibility study is under development and it is expected that it will be presented to the next CNS/MET SG meeting, tentatively scheduled to be held in Cairo, 31 October – 2 November 2006.

4.23 Based on the above, the meeting noted with concern that non or late receipt of FPLs and/or the improper handling of FPLs continues to be an issue which is jeopardizing the safety of air navigation in the MID Region. Since States have started to take unilaterally actions to penalize the aircraft whose FPL is not received or received but does not indicate the letter "W" in item 10, this issue is affecting efficiency in addition to raising safety concerns. The meeting was of view that a regional agreement should be reached with regard to the handling of such traffic and invited States to refrain from taking actions unilaterally. In this regard, reference was made to para. 5.2.1.2 of the "*ATC MANUAL FOR A REDUCED VERTICAL SEPARATION MINIMUM (RVSM) IN THE MID REGION*" developed within the framework of the RVSM Task Force during the RVSM pre-implementation phase, where it is stated that "*where ATC has reason to doubt the RVSM approval status of an aircraft, the controller shall solicit such information from the pilot. If the pilot confirms "RVSM approved", the controller shall consider the flight as being RVSM approved*". The meeting urged States to comply with the procedures agreed upon in the here-above mentioned Manual and to show more flexibility in dealing with this issue.

4.24 Based on the outcome of the survey carried out by UAE, the meeting noted that the causes which led to the improper handling of FPLs/ATS messages are multiple (more than 10). Concern was raised about the handling agencies responsible for the filing of FPLs on behalf of airlines, whose personnel might not have the necessary expertise and training. However, it was highlighted that these Agencies are certified by the Civil Aviation Authorities to carry out such work. The meeting further noted that the issue regarding the missing of letter "W" which directly concerns the RVSM Task Force represents around 10% of the total cases and all the other cases are of technical nature and therefore, have to be referred to the CNS/MET Sub Group.

4.25 Based on the foregoing, the meeting agreed to endorse the UAE methodology in carrying out the survey relative to the improper handling of FPLs and associated ATS messages and developed accordingly the following Draft Conclusions:

**DRAFT CONCLUSION 12/3: SURVEY RELATIVE TO THE IMPROPER HANDLING OF FPLs AND ASSOCIATED ATS MESSAGES**

*That,*

- a) *the methodology for the identification of causes of improper handling of FPLs and associated ATS messages at **Appendix 4F** to the report on Agenda Item 4 is endorsed;*
- b) *States carry out a survey relative to the improper handling of FPLs and associated ATS messages based on this methodology for a period of at least one month; and*
- c) *the results of the survey be ready before 30 September 2006 with a view to be presented to the CNS/MET SG/7 meeting.*

*Note: This Draft Conclusion is proposed to supersede and replace MIDANPIRG/9 Conclusion 9/17.*

MID RVSM TF/12  
Report on Agenda Item 4

---

**DRAFT CONCLUSION 12/4: FLEXIBLE HANDLING OF TRAFFIC INTENDING TO USE THE RVSM AIRSPACE**

*That, in accordance with the provisions of the ATC MANUAL FOR A REDUCED VERTICAL SEPARATION MINIMUM (RVSM) IN THE MID REGION, and with a view to enhance the safety and efficiency of air navigation in the MID Region:*

- a) States are urged to refrain from taking actions unilaterally to systematically penalize the flights intending to use the RVSM airspace when:
  - i) there's a doubt about the aircraft's RVSM approval status (missing of letter "W" from the FPL); or
  - ii) the FPL was not received; and
- b) States are invited to show more flexibility in dealing with this issue.

**Implementation of RVSM in the AFI Region**

4.26 Bearing in mind the importance of the interface issues, the meeting recalled that the RVSM implementation Strategy/Action Plan for the AFI Region has been developed/completed and circulated to States for comments and action. The meeting was informed that the Tenth Meeting of the APIRG RVSM/RNAV/RNP Task Force and the RVSM Stakeholders Coordination Meeting (Go/Delay) are scheduled to be held in Dakar, 27-28 June 2006 and 29-30 June 2006, respectively. The main objective of the RVSM Go/Delay will be to review work completed and to determine whether the RVSM implementation target date of 28 September 2006 is still feasible. It was brought to the attention of the meeting that the Collision Risk Analysis showed that if RVSM is implemented today in the AFI Region, the Target Level of Safety (TLS) would be exceeded exponentially. The meeting further noted that Libya and Sudan have not yet developed their Safety National Plan and that doubt exists about their readiness to go for RVSM implementation.

4.27 Based on the above, the meeting invited concerned States (Egypt, Saudi Arabia and Yemen) to follow-up closely the planning process for the implementation of RVSM in the AFI Region and to ensure that the LOAs with Khartoum and Tripoli ACCs as well as with the other adjacent AFI Region ACCs be updated prior to the switch-over date for the implementation of RVSM in the AFI Region.

MID RVSM TF/12  
Appendix 4A to the Report on Agenda Item 4

TABLE ATS 1 – ATS ROUTES  
TABLEAU ATS 1 – ROUTES ATS  
TABLA ATS 1 – RUTAS ATS

*EXPLANATION OF THE TABLE*

*Column*

- 1 Designator of ATS route.
- 2 Significant points defining the ATS routes. Only prominent locations have been listed. Additional points where facilities are provided to complete navigational guidance along a route, but not otherwise marking significant characteristics of the route (change of heading of centre line, intersection with other routes, etc.) have normally not been included. Locations shown in parentheses indicate significant points outside the Region.

**Note 1.** *Not representing the operator's requirements.* Operator's required route and/or navaids are shown in square brackets ([ ]).

**Note 2.** *Subject to further study.* Including the associated navigation aid coverage.

**Note 3** *Subject to military agreement.*

**Note 4.** *Not acceptable at present.*

**Note 5.** *At present, implementation possible only during specific periods (e.g. weekends, nights, etc., as published).*

**Note 6.** *At present, implementation of the RNAV route only possible above FL 300, or as published.*

**Note 7.** *Unidirectional use.*

Whenever reference to name States is made in Table ATS 1 in connection with the above notes, the following abbreviations, based on those indicated in Location Indicators (Doc 7910), are used:

HE	Egypt
HL	Libyan Arab Jamahiriya
HS	Sudan
LC	Cyprus
LL	Israel
OA	Afghanistan
OB	Kingdom of Bahrain
OE	Saudi Arabia
OI	Iran, Islamic Republic of
OJ	Jordan
OK	Kuwait
OL	Lebanon
OM	United Arab Emirates
OO	Oman
OP	Pakistan
OR	Iraq
OS	Syrian Arab Republic
OT	Qatar
OY	Yemen

MID RVSM TF/12  
Appendix 4C to the Report on Agenda Item 4

**Statistics of flights originating from Beirut FIR  
and denied entry into UAE RVSM airspace**

<b>Month</b>	<b>Total Flts from FIR</b>	<b>Denied RVSM</b>	<b>%</b>
January 2005	284	2	0.70%
February 2005	247	5	2.02%
March 2005	253	3	1.19%
April 2005	237	1	0.42%
May 2005	243	1	0.41%
June 2005	240		
July 2005	256	1	0.39%
August 2005	276	6	2.17%
September 2005	261	2	0.77%
October 2005	220	5	2.27%
November 2005	251	3	1.20%
December 2005	263	1	0.38%

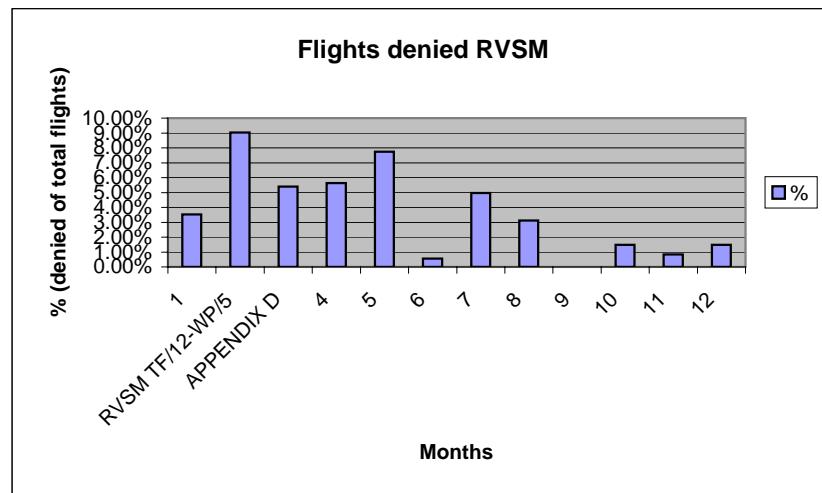

From 26 April 2005, when investigation of individual cases began and until 31 December 2005 a total of 19 flights originating from Beirut FIR were denied entry into UAE RVSM airspace. Requests for follow-up were sent to Lebanon and based on replies received the investigation results are summarised below:

No "W" in FPL	
Incorrect details (FPL/estimate mismatch)	3
FPL not transmitted/No evidence of TX	5
FPL not addressed to OMAEZRX	5
FPL received too late for processing by ATC	
FPL received late & given RVSM FL	
FPL delayed en-route	
CNL message received for FPL	1
Thru FPL omitted OMAE address	
AFTN switch failure at origin	
AFTN switch failure en-route	
Operators banned from UAE RVSM airspace	
Nil response	4
Handling error by Emirates ACC	1
Total	19

**Statistics of flights originating from Damascus FIR  
and denied entry into UAE RVSM airspace**

Month	Total Flts from FIR	Denied RVSM	%
January 2005	142	5	3.52%
February 2005	133	12	9.02%
March 2005	148	8	5.41%
April 2005	142	8	5.63%
May 2005	142	11	7.75%
June 2005	179	1	0.56%
July 2005	181	9	4.97%
August 2005	193	6	3.11%
September 2005	162	0	0.00%
October 2005	135	2	1.48%
November 2005	120	1	0.83%
December 2005	135	2	1.48%

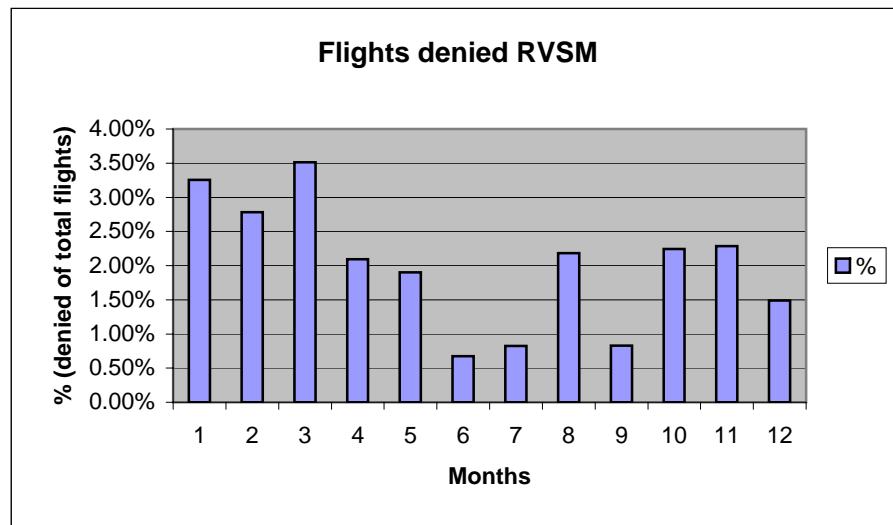

From 4 May 2005, when investigation of individual cases began and until 31 December 2005 a total of 32 flights originating from Damascus FIR were denied entry into UAE RVSM airspace. Requests for follow-up were sent to Syria and based on replies received the investigation results are summarised below:

No "W" in FPL	
Incorrect details (FPL/estimate mismatch)	1
FPL not transmitted/No evidence of TX	
FPL not addressed to OMAEZRZX	11
FPL received too late for processing by ATC	
FPL received late & given RVSM FL	
FPL delayed en-route	1
CNL message received for FPL	
Thru FPL omitted OMAE address	
AFTN switch failure at origin	
AFTN switch failure en-route	
Operators banned from UAE RVSM airspace	
Nil response	19
Handling error by Emirates ACC	
Total	32

**Statistics of flights originating from Kuwait FIR  
and denied entry into UAE RVSM airspace**

Month	Total Flts from FIR	Denied RVSM	%
January 2005	645	21	3.26%
February 2005	611	17	2.78%
March 2005	626	22	3.51%
April 2005	669	14	2.09%
May 2005	737	14	1.90%
June 2005	741	5	0.67%
July 2005	727	6	0.83%
August 2005	733	16	2.18%
September 2005	724	6	0.83%
October 2005	669	15	2.24%
November 2005	744	17	2.28%
December 2005	739	11	1.49%

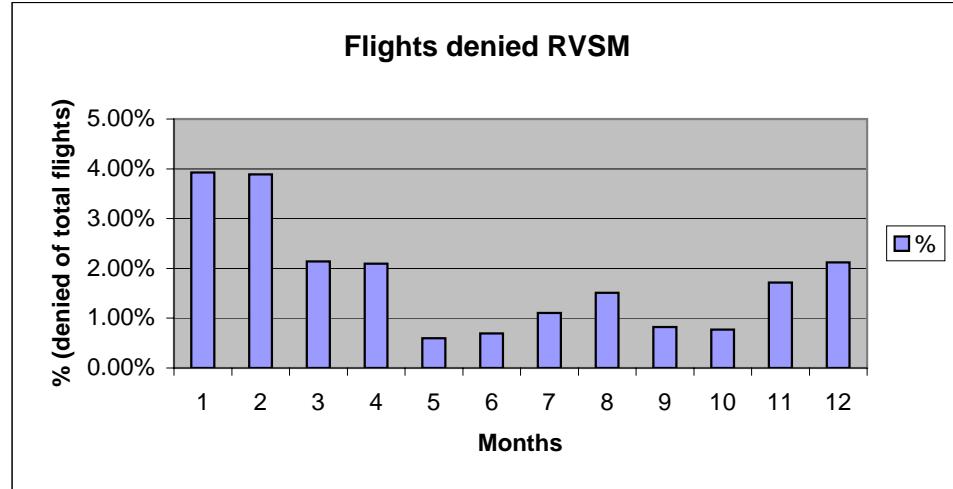

From 8 April 2005, when investigation of individual cases began and until 31 December 2005 a total of 104 flights originating from Kuwait FIR were denied entry into UAE RVSM airspace. Requests for follow-up were sent to Kuwait and based on replies received the investigation results are summarised below:

No "W" in FPL	2
Incorrect details (FPL/estimate mismatch)	5
FPL not transmitted/No evidence of TX	5
FPL not addressed to OMAEZRZX	6
FPL received too late for processing by ATC	2
FPL received late & given RVSM FL	1
FPL delayed en-route	7
CNL message received for FPL	1
Thru FPL omitted OMAE address	22
AFTN switch failure at origin	7
AFTN switch failure en-route	4
Operators banned from UAE RVSM airspace	4
Nil response	37
Handling error by Emirates ACC	1
<b>Total</b>	<b>104</b>

**Statistics of flights originating from Jeddah FIR  
and denied entry into UAE RVSM airspace**

Month	Total Flts from FIR	Denied RVSM	%
January 2005	1682	66	3.92%
February 2005	1543	60	3.89%
March 2005	1168	25	2.14%
April 2005	1147	24	2.09%
May 2005	1172	7	0.60%
June 2005	1157	8	0.69%
July 2005	1176	13	1.11%
August 2005	1191	18	1.51%
September 2005	1216	10	0.82%
October 2005	1301	10	0.77%
November 2005	1282	22	1.72%
December 2005	1934	41	2.12%

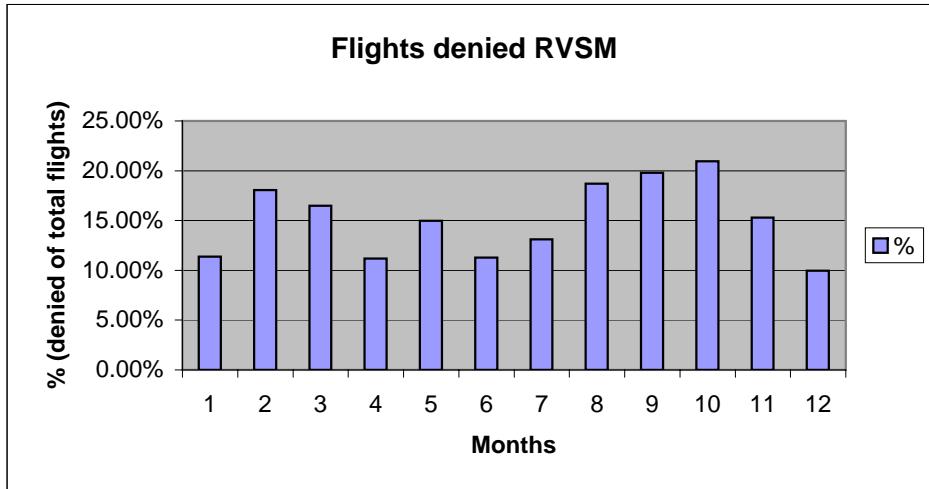

From 2 April 2005, when investigation of individual cases began and until 31 December 2005 a total of 153 flights originating from Jeddah FIR were denied entry into UAE RVSM airspace. Requests for follow-up were sent to Saudi Arabia and based on replies received the investigation results are summarised below:

No "W" in FPL	44
Incorrect details (FPL/estimate mismatch)	7
FPL not transmitted/No evidence of TX	5
FPL not addressed to OMAEZRX	7
FPL received too late for processing by ATC	7
FPL received late & given RVSM FL	10
FPL delayed en-route	1
CNL message received for FPL	5
Thru FPL omitted OMAE address	12
AFTN switch failure at origin	10
AFTN switch failure en-route	
Operators banned from UAE RVSM airspace	28
Nil response	13
Handling error by Emirates ACC	4
Total	153

**Statistics of flights originating from Baghdad FIR  
and denied entry into UAE RVSM airspace**

Month	Total Flts from FIR	Denied RVSM	%
January 2005	413	47	11.38%
February 2005	277	50	18.05%
March 2005	297	49	16.50%
April 2005	304	34	11.18%
May 2005	307	46	14.98%
June 2005	266	30	11.28%
July 2005	290	38	13.10%
August 2005	310	58	18.71%
September 2005	313	62	19.81%
October 2005	315	66	20.95%
November 2005	307	47	15.31%
December 2005	351	35	9.97%

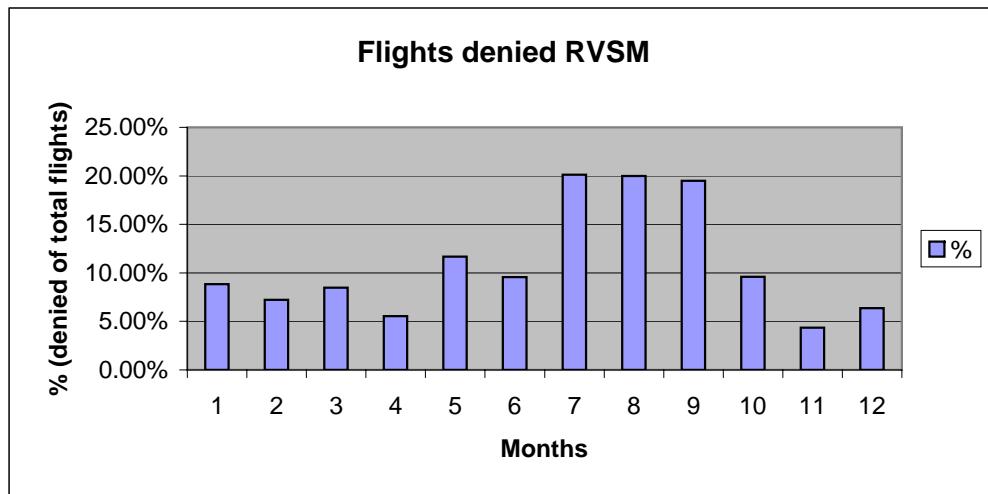

From 3 May 2005, when investigation of individual cases began and until 31 December 2005 a total of 382 flights originating from Baghdad FIR were denied entry into UAE RVSM airspace. Requests for follow-up were sent to Iraq and based on replies received the investigation results are summarised below:

No "W" in FPL	9
---------------	---

As majority of the flights operating into Baghdad FIR are in and out of Dubai Intl Airport, the GCAA requested Dubai DCA to address FPLs for both legs of flight (outbound and inbound) to the Emirates ACC. This measure was taken in November 2005 and since there has been a drop in cases where flights originating from Baghdad FIR were denied access to UAE RVSM airspace.

**Statistics of flights originating from Khartoum FIR  
and denied entry into UAE RVSM airspace**

Month	Total Flts from FIR	Denied RVSM	%
January 2005	113	10	8.85%
February 2005	97	7	7.22%
March 2005	106	9	8.49%
April 2005	90	5	5.56%
May 2005	120	14	11.67%
June 2005	136	13	9.56%
July 2005	154	31	20.13%
August 2005	125	25	20.00%
September 2005	159	31	19.50%
October 2005	125	12	9.60%
November 2005	115	5	4.35%
December 2005	126	8	6.35%

From 3 May 2005, when investigation of individual cases began and until 31 December 2005 a total of 139 flights originating from Khartoum FIR were denied entry into UAE RVSM airspace. Requests for follow-up were sent to Sudan and based on replies received the investigation results are summarised below:

No "W" in FPL	6
Incorrect details (FPL/estimate mismatch)	1
FPL not transmitted/No evidence of TX	2
FPL not addressed to OMAEZRXZ	11
FPL received too late for processing by ATC	
FPL received late & given RVSM FL	
FPL delayed en-route	
CNL message received for FPL	
Thru FPL omitted OMAE address	
AFTN switch failure at origin	5
AFTN switch failure en-route	
Operators banned from UAE RVSM airspace	12
Nil response	102
Handling error by Emirates ACC	
Total	139

## **METHODOLOGY FOR THE IDENTIFICATION OF CAUSES OF IMPROPER HANDLING OF FPLS AND ASSOCIATED ATS MESSAGES**

For a period of at least one month, MID States should carry out a survey to identify (by origin):

- a) The total number of flights.
- b) The number of incidents where a FPL has not been received (FPL not transmitted, incorrect address, AFTN switch failure at origin, AFTN switch failure en-route, handling error).
- c) The number of incidents where a FPL has been received but the letter "W" was missing.
- d) The number of incidents where a FPL has been received but with incorrect details (FPL/estimate mismatch).
- e) The number of incidents where a FPL has been received late.
- f) The number of incidents where a CNL message was received for the FPL.
- g) Incident related to the handling of FPL due to any other cause.

To carry out the survey, States have to handle the here-above mentioned incidents as follows:

- a) each incident has to be recorded in a specific log file;
- b) the incident is investigated and the log is annotated with reasons, if available;
- c) a fax is sent to the Civil Aviation Authority at the point of departure of the flight, requesting for investigation of the problem;
- d) the log file is updated based on the received reply; and
- e) each originating State is informed of the findings with copy to the ICAO MID Regional Office in order to facilitate follow-up action.

Having completed the above, the data gathered from the survey should be analysed to determine the major causes related to the improper handling of FPLs and associated ATS messages.

-----

MIDRVSM TF/12  
Report on Agenda Item 5

---

**REPORT ON AGENDA ITEM 5: IMPLEMENTATION OF RVSM WITHIN BAGHDAD AND KABUL FIRS**

5.1 Under this agenda item, the meeting recalled that RVSM has been successfully implemented in eleven (11) MID Region FIRs since 27 November 2003. However, RVSM is not yet implemented in Baghdad, Kabul and Tel-Aviv FIRs.

5.2 The meeting recalled also that the RVSM Task Force was charged with the responsibility for the planning for the safe implementation of RVSM in the MID Region. It was underlined that the RVSM TF/11 meeting pointed out that, unless a mechanism is established for carrying out the safety assessments for ensuring the safe implementation of RVSM within Baghdad and Kabul FIRs, the subject was considered outside the purview of the Task Force. Accordingly, it was proposed that request for assistance could be extended to FAA and EUROCONTROL for carrying out the safety assessments.

5.3 Bearing in mind that RVSM is implemented in the Asia Pacific and European Regions as well as in the big majority of the MID Region, the meeting recognized that Baghdad and Kabul FIRs represent actually isolated islands where RVSM is not implemented. With the increase in the number of the overflying traffic, the meeting agreed that preparation for the implementation of RVSM in these two FIRs is becoming more and more urgent.

5.4 The application of RVSM within Baghdad and Kabul FIRs represent a change of major significance to the operational environments of those ACCs/UACs involved. The meeting stressed out that careful planning in advance of the implementation of RVSM will ensure that benefits in terms of capacity and operating efficiency are optimized, and that controllers will be able to successfully cope with the magnitude of the change to their operational environments, thereby ensuring continued levels of safety.

5.5 The meeting confirmed that planning for RVSM implementation would require the active participation of experts in airworthiness, flight operations, air traffic management, safety assessment and height monitoring. The tasks could broadly be divided into the following groups:

- a) the RVSM approval process;
- b) determination of the extent of RVSM airspace (both geographical and vertical)
- c) ATM operational policies and procedures
- d) safety analysis; and
- e) height monitoring.

5.6 The meeting emphasized that the safety of air navigation has to be given the highest priority in the development of the RVSM operational concept and the implementation Program. Therefore, the implementation of RVSM shall not adversely affect the safety of air navigation.

5.7 The meeting highlighted that it would not be possible at this early stage of planning for implementation of RVSM in Baghdad and Kabul FIRs to identify all the tasks which would need to be undertaken. However, it is important to identify those tasks which would require consideration by concerned States. In this regard and in accordance with ICAO Doc 9574, the following factors, where applicable, should be considered in the process of reaching a decision to implement RVSM:

- a) the proportion of the aircraft population that have been equipped to meet existing requirements for RVSM operations;
- b) airspace organization: route structure (bi/unidirectional and crossing) and designated military airspace;

MIDRVSM TF/12  
Report on Agenda Item 5

---

- c) ATC system;
- d) flow control procedures;
- e) availability of adequate communications infrastructure;
- f) radar/procedural control;
- g) availability of secondary surveillance radar (SSR) or other means of altitude reporting capability; and
- h) other airspace constraints.

5.8 Additional consideration should be given to the ability of the ATS infrastructure to fully support RVSM, including examination of the equipment and procedures necessary to achieve the goal of the elimination of operational errors.

5.9 The meeting further highlighted the following tasks which would require consideration by concerned States when deciding to start the planning process for the implementation of RVSM:

- a) nomination of an RVSM Programme Manager who will be responsible for ensuring that proper mechanism is put in place for the safe implementation of RVSM and will also act as focal point/person;
- b) in order to provide the assurance that the safety objectives are met, an RVSM Pre-Implementation Safety Case (PISC) has to be prepared. The main deliverables of the PISC are the Functional Hazard Assessment (FHA), the Collision Risk Assessment (CRA) and the National Safety Plan;
- c) preparation of the RVSM implementation preliminary readiness safety assessment;
- d) carry out the necessary amendments to the legislation and regulations required for RVSM implementation;
- e) develop a training programme including all personnel involved in the implementation of RVSM (Afghanistan and Iraq to use the training guidelines developed within the framework of the RVSM Task Force during the planning phase for the implementation of RVSM in the MID Region); and
- f) assessment of the impact of RVSM implementation on the ATC systems and upgrade of these systems as required (this has to be done well in advance to allow for on the job training (OJT) to be carried out as well as simulations to assess ATC workload and possible need for airspace/air route/Sectors changes).

5.10 Interface issues are also to be considered carefully when planning for the implementation of RVSM. In this regard the meeting recalled that RVSM is not yet implemented in Turkmenistan. Although, the level of readiness of Turkmenistan was found adequate and covered all required aspects, including inter-alia, training and safety assessment, Turkmenistan emphasized that a go-ahead decision could be taken only after several pre-requisites would be fulfilled. The main prerequisite consisted in improving the availability of the connecting ATS routes to/from Afghanistan (i.e. increased number of flight levels and extended hours of operation). Turkmenistan has requested ICAO's assistance in the coordination of the required negotiation process with appropriate authorities in Afghanistan.

MIDRVSM TF/12  
Report on Agenda Item 5

---

5.11 The meeting then underlined that the above is not an exhaustive list of the tasks to be carried out within an RVSM implementation programme. However, it highlights some important milestones for the safe implementation of RVSM. A detailed RVSM implementation requirements checklist has to be developed within the framework of the programme for implementation of RVSM within Baghdad and Kabul FIRs. Further details pertaining to the RVSM implementation planning and strategy are contained in the ICAO Doc 9574 as well as the guidance materials developed within the framework of the RVSM Task Force.

5.12 Bearing in mind the above, the meeting noted with concern the difficulties Afghanistan and Iraq are facing to set up an appropriate independent (national) ATC system. The main problems are related to the communication infrastructure, the availability and training of the air traffic controllers and the uncoordinated military activities. The meeting noted that implementation of RVSM within Baghdad FIR is not a priority at present since the pre-requisites for this are not met/available. Afghanistan mentioned that, based on the current airspace and ATC structure, a two-year period is reasonable to meet the ICAO requirements to go ahead with the RVSM implementation.

5.13 Based on the above, the meeting reiterated the statement of the RVSM TF/11 meeting and considered that the subject is still outside of the purview of the Task Force. However, concerned States could request the assistance of the Task Force when they consider that they are ready, that all the pre-requisites are fulfilled/met with the commitment to go ahead with RVSM implementation.

5.14 It was highlighted that Afghanistan and Iraq could request the assistance of the ICAO Technical Co-operation Bureau in order to set up their ATC system with a view to prepare the RVSM implementation.

5.15 The meeting also pointed out that Afghanistan and Iraq, in any project/plan of acquisition of new ATC equipments or training of their Air Traffic Controllers, they have to take into consideration the RVSM requirements.

5.16 Iraq and Afghanistan were invited to continuously attend the ICAO meetings to keep pace with the new developments. They were also invited to frequently visit the ICAO MID website at: [www.icao.int/mid](http://www.icao.int/mid) where the reports of all previous meetings are posted.

-----

**MID RVSM TF/12**  
**Report on Agenda Item 6**

---

**REPORT ON AGENDA ITEM 6: ANY OTHER BUSINESS*****Uncoordinated flights over the Red Sea Area***

6.1 Based on information presented by Saudi Arabia, the meeting noted that the issue of uncoordinated flights over the Red Sea area constitutes one of the agenda items which will be addressed by the Special Civil/Military Coordination meeting to be held in Sana'a, Yemen 18-19 June 2006. Accordingly, the meeting was of the opinion that this subject be referred to the Special Civil/Military Coordination meeting and invited Saudi Arabia to present a working paper on the issue for that meeting.

***Future Work Programme***

6.2 The meeting recalled that the RVSM Task Force has been established by MIDANPIRG/6 under Conclusion 6/9 and that its terms of reference (TOR) have not been updated since then.

6.3 After the successful and safe implementation of RVSM in the MID Region, the Work Programme of the RVSM Task Force has been almost completed. However, RVSM post-implementation issues and planning for the implementation of RVSM in Baghdad and Kabul FIRs are still open issues which should be included in the Work Programme of the Task Force.

6.4 Based on the above the meeting reviewed and updated its TOR as at **Appendix 6A** to the report on Agenda Item 6 and developed the following Draft Decision, accordingly:

***DRAFT DECISION 12/5: REVISED TERMS OF REFERENCE OF THE RVSM TASK FORCE***

*That, the Terms of Reference of the RVSM Task Force be updated as at **Appendix 6A** to the report on Agenda Item 6.*

6.5 Based on its Terms of Reference, the Task Force agreed that the date of its next meeting (RVSM TF/13) will be coordinated between the ICAO MID Regional Office and the Chairman of the Task Force, as appropriate.

-----

## **MIDDLE EAST RVSM TASK FORCE (RVSM TF)**

### **TERMS OF REFERENCE**

*(May 2006)*

1. Address RVSM post-implementation issues.
  2. Ensure that data is provided to the MID RMA as required with a view to carry out its duties and responsibilities.
  3. Follow-up of the MID RMA operation.
  4. Consider interface issues related to RVSM implementation and operations with the adjacent Regions.
  5. Assist Afghanistan and Iraq in the development of a comprehensive RVSM implementation plan.
  6. Monitor and coordinate with Afghanistan and Iraq the implementation of RVSM programme within Baghdad and Kabul FIRs.
  7. Address any other matters, as appropriate, which are relevant to the implementation of RVSM.
