

International Civil Aviation Organization

**Performance Based Navigation Sub-Group
(PBN SG)**

First Meeting
(Cairo, Egypt, 1 - 3 April 2014)

Agenda Item 4: PBN Implementation in the MID Region

STATUS OF PBN IMPLEMENTATION IN THE MID REGION

(Presented by the Secretariat)

SUMMARY

The aim of this paper is to review and update the status of PBN implementation in the MID Region.

Action by the meeting is at paragraph 3.

REFERENCES

- MIDANPIRG/14 Report

1. INTRODUCTION

1.1 In accordance with its Terms of Reference (ToR), the PBN Sub Group is required to monitor the status of implementation of PBN in the MID Region.

2. DISCUSSION

2.1 The meeting may wish to note that MIDANPIRG/14 reviewed and updated the MID Region PBN Implementation Strategy and Plan taking into consideration the global and regional developments.

2.1.1 MIDANPIRG/14 noted with appreciation that Bahrain, Egypt, Jordan, Kuwait, Qatar and UAE provided their progress reports related to PBN implementation. Accordingly, the meeting urged States to submit their PBN progress reports to the ICAO MID Regional Office, whenever major progress is achieved, in addition to their updated National PBN Implementation Plans.

2.1.2 The meeting may wish to note that MIDANPIRG/14 reviewed and updated the status of PBN implementation and PBN focal points in the MID Region. The following progress achieved in the implementation of PBN (Terminal and Approach) in the MID Region was noted:

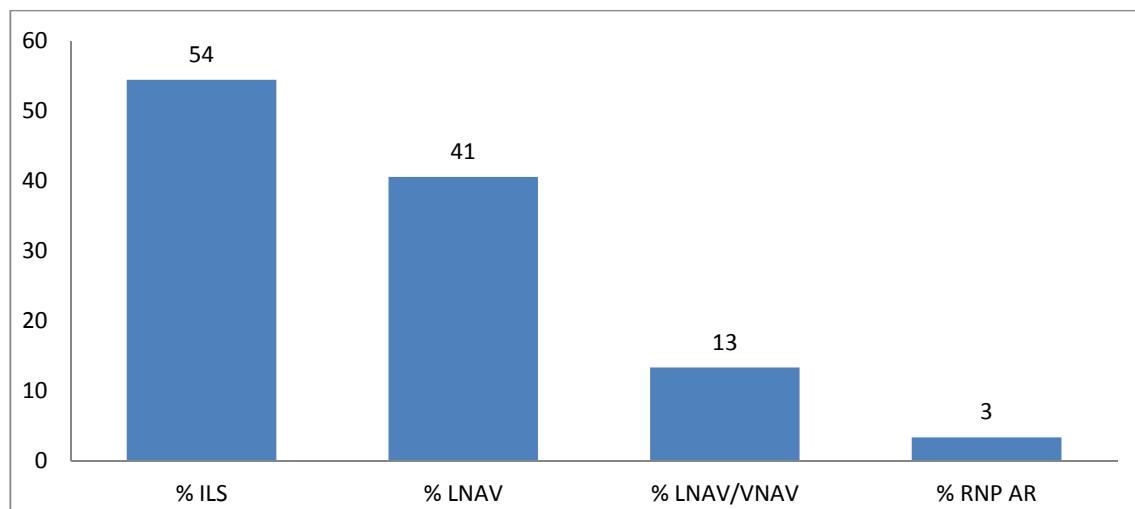

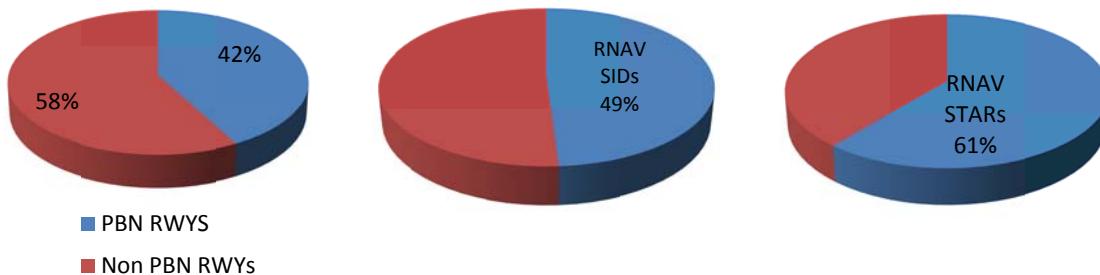

- Jordan and Kuwait had completed the implementation of RNAV SIDs, RNAV STARs and Approach procedures with vertical guidance (LNAV/VNAV) for all its instruments Runway ends.
- Bahrain completed the implementation of RNAV SIDs, RNAV STARs and RNAV GNSS Approach (LNAV) for all its instruments Runway ends;

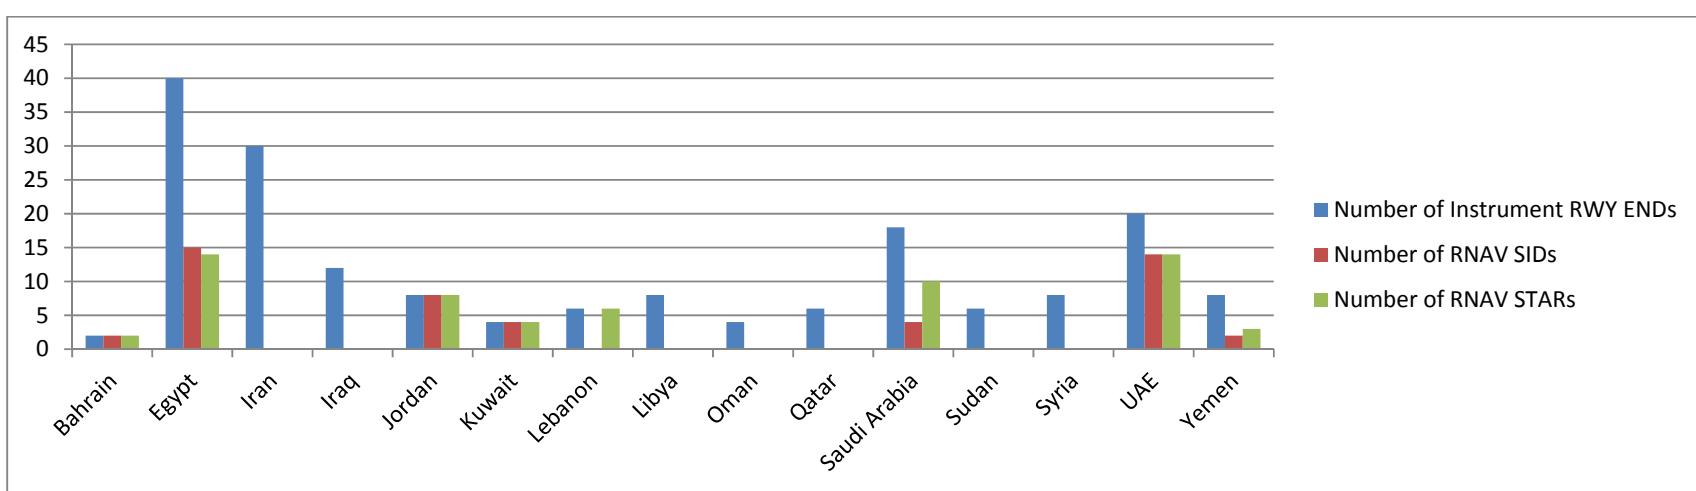

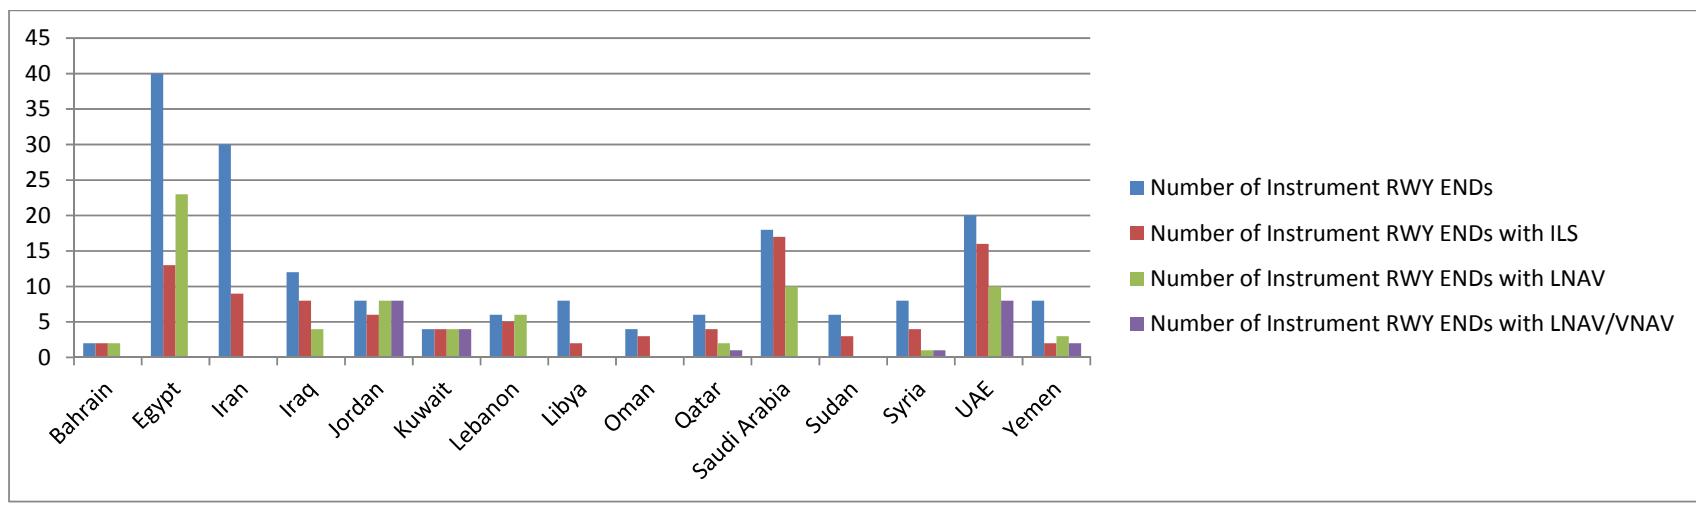

- Lebanon completed the implementation of RNAV STARs and RNAV GNSS Approach (LNAV) for all its instruments Runway ends;
- PBN implementation had significantly improved in Saudi Arabia by an increase of 30%, and
- PBN implementation in UAE had reached 70%. It is to be emphasized that only UAE had implemented RNP-AR approaches in the MID Region, four (4) at Abu Dhabi and two (2) at Al Bateen International Airports.

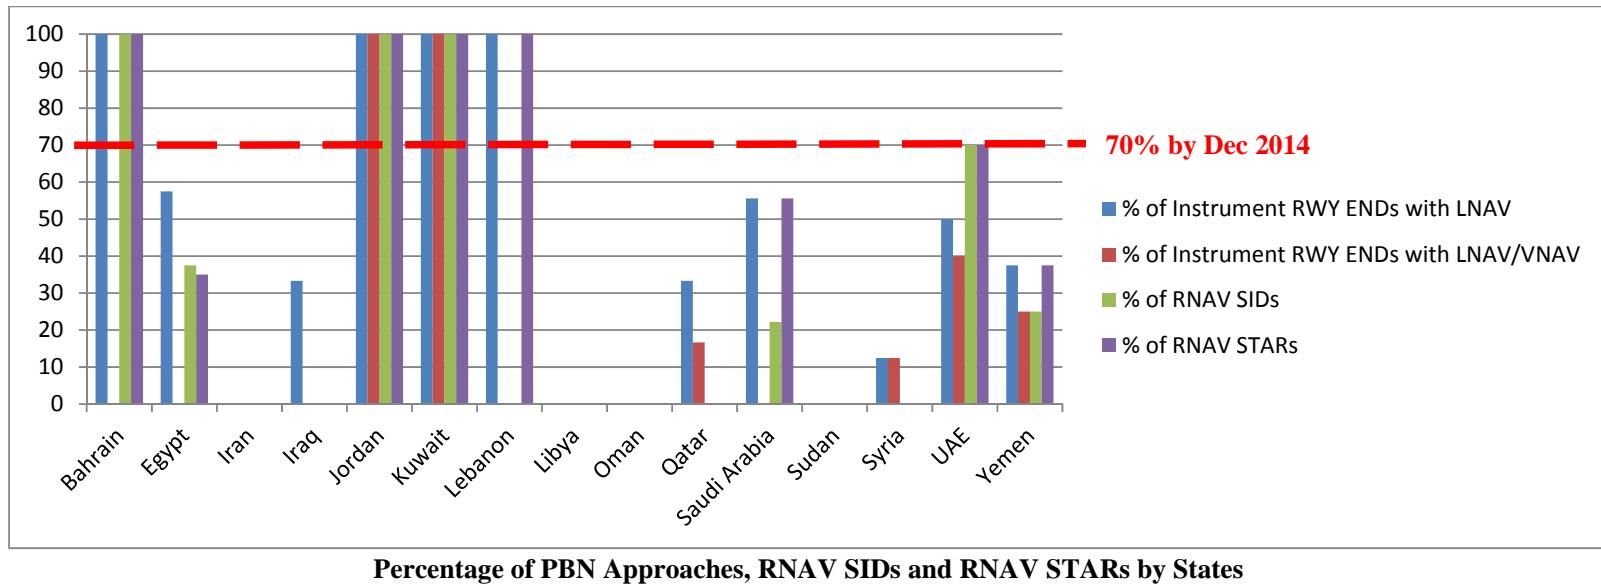

2.1.3 The meeting may wish to note that MIDANPIRG/14 recalled that the 37th Assembly through Resolution A37-11 resolved that States complete a PBN implementation plan as a matter of urgency to achieve the implementation of approach procedures with vertical guidance (APV) (Baro-VNAV and/or augmented GNSS), including LNAV only minima for all instrument Runway ends, either as the primary approach or as a back-up for precision approaches by 2016 with intermediate milestones as follows: 30% by 2010, 70% by 2014. In this regard, it was noted with concern that the implementation of Approach Procedures with Vertical guidance in the MID Region is far below expectation (nine (9) States have not yet started implementation).

2.2 Based on the above, the meeting may wish to note that Iran, Iraq, Lebanon, Libya and Sudan have not yet submitted their national PBN implementation plan.

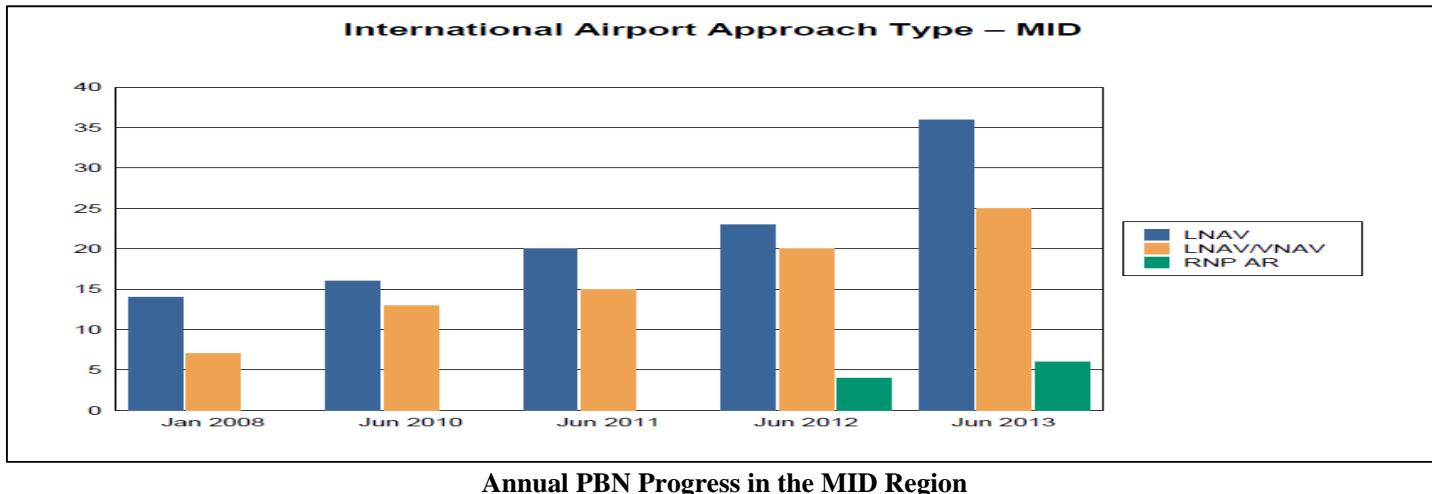

2.3 The meeting may wish to note that the status of PBN implementation in the terminal area, as of February 2014 is at **Appendix A** to this working paper. The below **Graphs** reflect the Regional status of implementation related to PBN Approach Procedures, RNAV SIDs and RNAV STARs:

Percentage of PBN Approaches, RNAV SIDs and RNAV STARs by States

2.4 It is to be highlighted that only 58 instrument RWY ends are provided with vertical guidance out of 180 RWY ends (32%). Taking into consideration that APVs enhance safety by providing stable approaches, States are urged to take necessary measures to foster the implementation of approach procedures with vertical guidance (APV) (Baro-VNAV and/or augmented GNSS), for all instrument RWY ends, either as the primary approach or as a back-up for precision, in accordance with the agreed performance target.

2.5 The meeting may wish to note that the following ICAO documents and guidance materials supporting the PBN implementation are available on the ICAO NET:

- PANS Ops (DOC 8168)
- PBN Manual (Doc 9613) 4th Edition
- RNP AR Procedure Design Manual (Doc 9905)
- PBN Ops Approval Manual (Doc 9997)
- Manual on Use of PBN in Airspace Design (Doc 9992)
- CDO Manual (Doc 9931)
- CCO Manual (Doc 9993)
- GNSS Manual (Doc 9849)
- Procedure QA Manual (Doc 9906)

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) review and update the status of PBN implementation in the MID Region at **Appendix A**;
- b) urge States to take necessary measures to improve their PBN implementation in order to meet the agreed performance targets;
- c) urge States to provide their PBN implementation plans or their updated plans to ICAO MID Regional Office as soon as possible; and
- d) review and update the list of PBN Focal Points in the MID Region at **Appendix B**.
