BLUE MED Governance Structure with the identified working arrangements

The BLUE MED FAB Implementation Programme

BLUE MED Working Groups and areas identified

The BLUE MED FAB IP: Operational Aspects

- **Route network catalogue**
- **Free Route Operations**
- **Flight Efficiency Plan**
- **BLUE MED cross-border optimisation**
- **BLUE MED Letter of Agreement Standardisation**
- **BLUE MED FAB PBN Implementation Roadmap**
- **BLUE MED AFTCM optimisation**
- **BLUE MED Air Data Quality (ADQ)**
- **Airport CDM (A-CDM)**

The BLUE MED FAB Implementation Programme: PBN

➤ Elaboration of a BLUE MED PBN implementation policy

➤ Elaboration of a BLUE MED FAB roadmap

✓ First phase

- Approach Procedures with vertical guidance (target:2016 within BM FAB)
- Updated airport list maintained at Interim Deployment Programme level

✓ Second phase

- Harmonization plan (including analysis of next PBN IR)
- Overall FAB reporting provided to EC under the Interim Deployment Steering Group framework
- Elaboration of ICAO conformity guidelines

PBN wayforward

BLUEMED has already proved capabilities based on the experience gained by some member States on PBN implementation.

– Further opportunities:

- **Support to local PBN implementation plans definitions**
- **Sharing of experience**
- **Training capabilities**
- **Independent procedure reviews among States members**
- **Investigation of EU funding availability for specific activities**
- Coordination and efficient use of stakeholders capabilities (States, ICAO, Eurocontrol and BLUEMED) for PBN implementation

Joining the BLUE MED FAB PBN Implementation roadmap

- Bilateral agreement/MoU between the local CAA/ANSP and the BLUE MED Organisational arrangement concerned
- Definition of local PBN targets and identification of potential PBN initiatives
- Joint definition of the local PBN deployment roadmap and its Incorporation within the overall BLUE MED PBN Implementation roadmap

BLUEMED PBN TF is an outstanding tool for harmonized PBN deployment throughout Mediterranean area
