

Wildlife & FOD Workshop

24-26 March 2014
Cairo, Egypt

Wildlife management best practices at Egyptian Airports

Presented by:
Dr.Waleed elsagheer
EAC

Wildlife story at Airports:

Presentation steps:

1

Our vision

2

***Our facilities
and motives***

3

***Action plan
steps***

4

***Our Egyptian
airports best
practices***

5

RECAP
FVCEK

EAC Vision

*Trusted
Airports
Where
Safety is
Paramount*

Actions

Actions to be taken from our department as
a participant in our organization's vision achievement

*To ensure complete
safety throughout
our airports*

*Dispersing them away
from our airports
whatever happened,
BUT keeping in mind*

*Coping with the
wildlife protection
world vision*
Respect

A moment of thinking

After deep thinking

1

What about us (Our facilities):

EAC

Egyptian Airports Company

All of these 5 airports are in birds migratory flyway, and contains different types of wildlife

The Motive

And, now the motive to start the action plan is existing:

-  ***The obligatory demand to comply with the regulations.***
-  ***To have trusted airports through safety.***
-  ***Operating 5 airports needed to be highly performed from good to better.***
-  ***Keeping wildlife away from our airports.***
-  ***Managing wildlife and protecting them, (not to kill).***

So, what did we do?

***After data collection
and analysis, we have
a lot of tasks needed to
be in order so,***

Our Methodology

So, We proceeded In:

**FIRST
THINGS
FIRST**

**ACTION
PLAN**

Action plan for SSH-HRG-LUX-ASW

1

vision

To be trusted airports-**safety**
perspective-through wildlife
management & control

2

Mid-term
Management Plans

2007 - 2010

3

Proceeding in the activity
planning processes

Contracting with
a Consultant

4

At each airport

5

Identifying

6

Following the procedures and activities of the management plan

1. Organizing a wildlife hazard management plan / Airport.
2. Employment the persons who have authority and responsibility for implementing the plan.
3. Training them.
4. Providing them with the different means and methods of wildlife monitoring and dispersing.
5. Periodic evaluation and review of the wildlife hazard management plans.

Action plan for SSH-HRG-LUX-ASW

Following the procedures and activities of the management plan

1. Organizing a wildlife hazard management plan / Airport.

- 2. Employment the persons who have authority and responsibility for implementing the plan.**
- 3. Training them.**
- 4. Providing them with the different means and methods of wildlife monitoring and dispersing.**
- 5. Periodic evaluation and review of the wildlife hazard management plans.**

- a) Basics about wildlife at each aerodrome zone.**
- b) Species of birds, numbers, and behavior.**
- c) Migratory seasons.**
- d) Migratory flyways of them and its altitude.**
- e) Some geographical distribution maps.**
- f) Interactions between bird flyways and aircraft pathways maps.**
- g) Dispersal methods.**
- h) Roles and responsibilities of all participants.**
- i) Etc...**
