CAPACITY & EFFICIENCY

ICARD Issues

Abbas NIKNEJAD

Regional Officer, AIM/ATM

ATM SG/3

(Cairo, Egypt, 22-25 May 2017)

Background

- In accordance with Annex 11, 5LNC shall be:
 - Unique
 - Pronounceable (in voice communication)
 - Without ambiguity with other codes (refers to sound-like proximity)
- ICARD system was initially developed by EUROCONTROL and ICAO EURNAT to deal with Route Designators & 5LNCs.
- The objective of the ICARD 5LNC application is to avoid the issuance of duplicate or sound-like 5LNCs.
- The service was available for more than 10 years & gradually extended to other ICAO regions; In 2010, the ICARD was transferred to ICAO.
- ICARD is available on the ICAO Secure Portal at: <https://portal.icao.int/icard>

MID ICARD Planners

COUNTRY	FIRST_NAME	LAST_NAME
BAHRAIN	Abdulla	Al Qadhi
EGYPT	Moatassem bellah	Monir
IRAN	Iran	AIM
IRAQ	Ali	Walid
JORDAN	-Nayef -Ahmad	-Marshoud -Amireh
KUWAIT	Abdullah	Aladwani
LEBANON	Bassem	Nasser

SAUDI ARABIA	-Ghorman -Imed	-Al Shehri -Ben Saad
SUDAN	Yasir	Abdalla
UNITED ARAB EMIRATES	Abdalla	Al Rashidi
YEMEN	Hashed	Abdulwasaa

ICARD Issues

- Publication of non-ICARD 5LNCs in National AIPs
- 5LNCs duplicates
- Sound-like proximity
- 5LNCs registered in ICARD but not used in AIP
- Increasing demand of 5LNCs for terminal use (SIDs, STARs, IAPs)
- Coordination of 5LNCs used as FIR BDRY with the neighboring States
- ICARD system/platform issues

New ICARD Platform

- ICAO has launched a new ICARD platform in March 2017 to resolve issues of the old ICARD system.
 - More user-friendly and improved menus and functions
 - Higher speed and more efficient database
 - MAP function of the ICARD system is properly operating (identification of sound-like proximity, etc.)
 - Automatic allocation notification (email function)

[illegible]

Resolution of the ICARD issues

- ICARD Guidelines for the new platform (**Appendix A**)
- Training is planned for the ICARD issues and the new ICARD Platform
- Coordination is being conducted in ICAO to initiate action on the resolution of duplicates
- MID ICARD Database Managers:
 - Elie Khoury (ekhoury@icao.int)
 - Abbas Niknejad (aniknejad@icao.int)

Action by the meeting

- The meeting is invited to urge States to take necessary action(s) on the resolution of ICARD issues.

INTRODUCTION

1. The ICAO Standards and Recommended Practices to be applied concerning 5LNC may be found in:
 - **Annex 11 — Air Traffic Services, Chapter 2, Section 2.15; and**
 - **Annex 11 — Air Traffic Services; Appendix 2.**
2. 5LNC codes are drawn from a set of pre-defined five letter combinations generated by ICAO and the FAA in the 1970's. This list was then split and distributed to the various ICAO Regional offices throughout the world. These reserve lists have since formed the base for 5LNC allocation by the ICAO Offices with the objective of world-wide unique allocation to enable unambiguous designation of significant points not linked to the site of a Radio Navigation Aid. States are required to coordinate usage of unique five-letter pronounceable name-code designators (5LNC's) with the appropriate Regional Office. (Ref. Annex 11, Appendix 2, Section 3, Paragraph 3.5) and adhere to the rules for relocating 5LNC's as stated in Annex 11, Appendix 2, Section 3, Paragraph 3.4.
3. A five-letter name-code (5LNC) shall be assigned when a significant point is required for a position **not marked by the site of a radio navigation aid** and is used for **ATC purposes**.
4. The first internet application of the ICAO International Codes and Routes Designators (ICARD) database was deployed in 1998. It was developed to support the allocation process of five-letter name-codes (5LNC) within the ICAO EUR/NAT region. The application was gradually extended to other ICAO Regions from 2005 onwards with ICARD becoming accessible to all ICAO Regions at the end of 2010.
5. These guidelines have been written to help all ICARD users understand the process of electronic search and allocation of 5LNC as well as to provide them with clear instructions and helpful tips on the effective use of the ICARD database.
6. Any suggestions to improve these guidelines are welcome. Please contact:

DEFINITIONS

ICARD USERS

ICARD Public (non-Authorized) User

Any person of the public who may query the content of the database but not make any reservations or change to the content. Please request an account on the ICAO Secure Portal <http://portal.icao.int/>, and subscribe to the group ICARD.

ICARD Authorized User

- The ICARD authorized users are nominated by their State.
- The ICAO Regional Office should be informed of the name(s) of the persons who will act as ICARD authorized user.
- The ICARD authorized user must register for access to the ICAO portal ICARD group, and then subscribe for access as an ICARD 5LNC planner.
- Access will be granted to the ICARD authorized user after registration has been made on the ICAO portal (pages 8-10 refer).

ICARD Data Manager

Each ICAO Regional Office has a nominated ICARD Data Manager and an alternate. The ICARD focal point in your respective ICAO regional office will:

- Analyze your request for access and, if approved, will confirm to the ICAO portal administrator your name and state. A first automatic notification will be forwarded to you to continue the registration process on the ICAO portal.
- Review and accept or refuse your request for 5LNC.

SECTION 1 ACCESSING ICARD AND REGISTRATION PROCEDURE

PUBLIC USERS

Public access to ICARD is available, with prior registration to the ICAO Secure Portal as follows:

When you have been granted an account, please click on profile, then group subscribe and enter ICARD

ICARD Menu for Public Users

The following information is provided:

Under the **“5LNC”** menu:

“Find Allocated and available 5LNC”

Will confirm whether a given 5LNC is used or not in all ICAO Regions.

To note: the database contains the complete initial lists of 5LNCs. Details of the allocated codes (coordinates as well as coordinating country) are given.

“Find 5LNC in Reserve List”

The list contains all 5LNC currently available and the ICAO region to which they belong. The available 5LNC were divided between all the ICAO regions when 5LNC were introduced in the mid-1970s and each Region has a ‘pool’ of codes allocated to it.

“Find Allocated 5LNC”

This option provides the geographical coordinates and State using a particular 5LNC but only if it is in the ICARD database. Where a State has used a ‘non-approved’ 5LNC that has not been adopted into ICARD this information will not be provided.

Under the **“Downloads”** menu:

Lists of codes by country or by name can be generated.

Lists of duplicate codes can also be generated.

****Sound-like proximity** can also be verified from the first three sub-items of the public user menu.

REGISTRATION PROCEDURE TO BE AN AUTHORIZED USER

The ICARD authorized user registration is a **two-step process**.

Step 1 – Requesting ICARD Access

- Connect to the ICAO portal: <http://portal.icao.int/>

- Request an account

- ❖ Registration on the ICAO portal will also serve for other ICAO topics / fields

- Press **OK** to proceed

- Subscription to **“ICARD”** – Type “ICARD” and complete the justification box.

➤ Your details are required for the registration part

The screenshot shows a web browser window with the URL <http://portal.icao.int/NewL>. The page title is "ICAO SECURE PORTAL". The main heading is "New User Account Application Form". Below the heading, there is a note: "Please fill in the information below and submit the form. You will receive an e-mail with the response to your application in one or more working days." The form is titled "Registration Details" and contains the following fields:

- First Name *
- Last Name *
- Title
- Telephone *
- Address
- Fax
- Email *
- Confirm Email *
- Organization (Company) *
- Country (Dropdown menu, currently showing N/A)
- Preferred UN Language (Dropdown menu, currently showing --Please select--)
- Group (Checkbox, currently checked for ICARD)
- Justification *

At the bottom of the form, there is a note: "You must enter a question in the Hint field, for which only you can provide the correct answer, and the proper answer in the Answer field. This answer should be easy to remember and type since it is case-sensitive."

Note: (**Justification*** can be : “nominated ICARD authorized user for x Country”).

-
- After “Step 1”,
 - ✓ access to the ICARD group will be granted by the ICAO regional data manager and
 - ✓ a notification will be sent automatically confirming your registration to the ICARD Group and providing a **password for your first login**. (the password can be changed later)

Step 2 – Requesting “ICARD Authorized User” Access

➤ registration as **ICARD_5LNC_PLANNER** is required to enable 5LNC allocation requests

1. Log in with your new user id and password.
2. Click on the “Profile” link located on the top left corner of the page (Figure 4).

3. Select “Group Subscribe” (Figure 5).

User

- User Profile

Please enter your group subscription justification: *

Continue

Submit Changes

➤ **Note:**

- *ICARD_5LNC_PLANNER is case sensitive*
- *Justification can be “authorized user for xx (Country);*

5. Finalize your registration with ‘Submit Changes’

- a confirmation should appear on the screen.

Note: The ICAO Regional Office must be informed by your national Administration of the name(s) of the persons who will act as ICARD authorized user in order to validate your request.

6. Once completed, an automatic notification will be sent to the ICAO ICARD Data Managers who will check and confirm whether the requested status can be validated or not.
7. You will get the following notification via email within 24 hours that your request for group membership has been granted.

“Dear Mr/Ms xxx,

Your request for subscribing to group ICARD_5LNC_PLANNER has been granted.

Welcome to the ICARD_5LNC_PLANNER group.”

RESETTING YOUR PASSWORD

1. Log in with your new user id and password.
2. Click on the “Profile” link located on the top right corner of the page
3. Select “Change password” on the top right corner of the page and proceed with your change

PASSWORD FORGOTTEN

1. Connect to the ICAO portal: <http://portal.icao.int/>
2. Click on “Cannot Login”
3. Type your full email address in the “User Id or Email Id” field. Click on “Submit”.
4. You will be presented your password hint question. Enter the answer to your hint question in the “Answer” field. Click on “Submit”.
5. A new password will be emailed to you within a few minutes.

SECTION 2 ICARD 5LNC AUTHORIZED USER ACCESS

1. Click on “5LNC – for authorized users”, see  below
2. Enter your User id and password

ICAO Secure Portal | ICAO PUBLIC SITE | Profile

ICAO Secure Portal > ICARD > 5LNC

5LNC

International Codes and Routes Designators

Five Letter Name-Codes for Designated Points

Pilots need physical air navigation aids to reach their final destination. However, with modern air navigation systems being based on Latitude and Longitude readings, air routes are being more frequently defined by logical designated points, identified by a unique Five-Letter Name-Code (5LNC) and a Latitude / Longitude position (e.g. TUPOV 47°45'27"N 007°14'13"E in France).

The 5LNC codes are drawn from a set of pre-defined five letter combinations generated by ICAO and the FAA in the 1970's. This list was then split and distributed to the various ICAO Regional offices throughout the world. These reserve lists have since formed the base for 5LNC allocation by the ICAO Offices with the objective of world-wide unique allocation to enable unambiguous designation of significant points not linked to the site of a Radio Navigation Aid.

ANNEX 11 APPENDIX 2.
Principles governing the establishment and identification of significant points

With reference to Annex 11 Fourteenth Edition, effective from the associated adoption date of 10 November 2016, airspace planners are reminded to adhere to the alteration to the governing ICAO provisions and refrain from relocating any waypoint without allocating it a new 5LNC as indicated in the extract below.

"The unique five-letter pronounceable name-code designator assigned to a significant point shall not be assigned to any other significant point. When there is a need to relocate a significant point, a new name-code designator shall be chosen. In cases when a State wishes to keep the allocation of specific name-codes for re-use at a different location, such name-codes shall not be used until after a period of at least six months." (Annex 11, Chapter 2, Section 2.15 & Annex 11, Appendix 2, Section 3.4 refers).

The Tool

Public users have access to a limited number of functionalities to query the content of the database maintained by the staff of ICAO. Only authorized users can make use of the application for reserving new codes from the reserve list of 140,000 codes while ensuring worldwide uniqueness. They will receive acknowledgment of their request from ICAO.

5LNC - for public users

ICARD 5LNC MENU FOR AUTHORIZED USERS

Menu Item	Action
Find Allocated and Available 5LNC	To browse specific 5LNC in the database in order to: - Retrieve a 5LNC already allocated for information or modification (see pages 16 and 31); or - Select available 5LNC to make requests for allocation (see page 16)
Find 5LNC in Available List	To select available 5LNC and make a request for allocation (see page 18)
Find Allocated 5LNC	To select specific allocated 5LNC to view information or amend or release (see pages 16 and 31)
Check My Requests	To view the requests that you have made <i>Note: These remain in this sub-menu as long as your Regional ICARD Data Manager has not taken action on your request. If requested 5LNC are in this sub-menu, you can modify or delete your request. The publication of 5LNC in national AIPs should only take place after the ICARD Data Manager has accepted these 5LNCs.</i>
Requests By Block	This function is available only when the ICARD Regional Data Manager has approved a block of codes for an Authorized User. This option is done on exceptional cases
Downloads	- Lists of allocated 5LNC can be generated by Country or by 5LNC in alphabetical order. This facilitates: • comparison of the 5LNC allocated by ICAO and the national aeronautical publication • verification of coordinates of 5LNC - Lists of duplicates can also be generated by Region, by Country or by 5LNC (see pages 33-35)
List ICARD Contacts	Lists contact details of all ICARD Regional Data Managers and Authorized Users by Countries
List Country Code Indicators	Lists the ITU Code (ISO3) used to show Coordinating Country using the 5LNC
Change Password	Opens the ICAO portal page (see page 13)
Home	Opens the ICARD page on the ICAO portal

SECTION 3 SEARCHING AND SELECTING 5LNC

COLOR CODES OF 5LNCs IN ICARD

- **Green** means the 5LNC is available for your Region, you can select and proceed to make a request
- **Blue** means the 5LNC is available but it belongs to another ICAO Region
 - Contact your ICARD Regional Data Manager who will coordinate with the other ICAO Region and check whether a transfer is possible
- **Orange** means
 - the 5LNC is pending action by the ICARD Regional Data Manager or,
 - may be part of a reserved block or,
 - it's frozen for a period of 6 months until it is released, further to deletion request
- **Red** means the 5LNC is already allocated to/used by a Country
- **Purple** means historical data, the 5LNC was used by a Country at some point in the past, some codes may come up multiple times in purple

SEARCHING FOR 5LNCs

There are 3 functions to search for 5LNCs under the “5LNC” menu:

Find Allocated and Available 5LNC

Global Search

ICARD can perform a global search using the wild card symbol “*” and the Region filter box. The default region will be your region until you switch it manually.

The Global Search will return two lists:

- a. The “Available List” (upper list) will show available codes in your region (green), available codes in other regions (blue), and reserved codes (yellow); and the region to which they belong.
- b. The “Allocated List” (lower list) will show allocated codes (red), frozen codes for a period of 6 months (yellow), and historical data codes (purple); along with more detailed information (country, coordinates).

Find Allocated and Available 5LNC

Find 5LNC in Available List

Random Proximity Search

Searching with known coordinates but without specific patterns

- With the set of given coordinates, the database can filter and offer a selection of 5LNCs. This option is recommended as the mandatory sound-like proximity check is automatically performed for the proposed 5LNC.
- Fill in only the coordinates in the “Random Proximity Search at” box.
- Indicate the radius for search (the recommended radius for search in the EUR/NAT Region is 300 NM)

Search Criteria

The following methods may be used to search for an available 5LNC using Search Criteria:

1. General Search - Search without filling in specific Search Criteria
2. Search with special patterns
 - a. Containing (a) specific letter(s)
 - b. Sound like search
 - c. Search excluding specific letters
 - d. Search with multiple patterns

* * * * *

1. General Search - Search without filling in specific Search Criteria

- i. You will obtain a long list of 5LNC available in your region in alphabetical order.
- ii. Select an available (**green**) 5LNC of your choice and proceed with posting a request.

2. Search with special patterns

a. Containing (a) specific letter(s)

1. In “Search for”, indicate the specific letters required and the missing letter should be replaced with an asterisk. Examples: **PA*** ***PA*** ***P*A**
2. The resulting available 5LNCs are proposed for selection.
3. Click on your selected 5LNC and proceed to the reservation (see “Section 4 - Posting a request” (page 24).

POST A REQUEST

1. Proceed with the reservation
2. Fill in the Latitude and Longitude in degrees, minutes and seconds in the format DDMMSS.ss[N/S] DDDMMSS.ss[E/W] (“.ss” are optional)
3. Fill-in “purpose”. Note: If there are several purposes for one 5LNC, ‘Terminal Airspace’ takes priority.
4. Fill-in “comment” if needed
5. If a 5LNC is on a FIR boundary or on a border, add coordinating countries

6. Submit **once you have checked the sound like proximity** (see next paragraph)

CHECKING PROXIMITY

Checking the sound-like proximity of a 5LNC is **mandatory** and is the **responsibility of the Authorized User**. It is also the Authorized User's responsibility to coordinate any sound-like issues/mitigations with relevant States, if required.

- The list of codes provided by ICARD should be considered as a support for identifying any possible sound-like conflicts. The Authorized User will base his/her consideration of this list, together with the purpose of use of the 5LNC requested, i.e. usage in RT, flow orientation or SID/STAR purposes, to determine valid sound-like conflicts.
- When an Authorized User has ticked the box for "Proximity check done", he/she is confirming that he/she has either checked that the 5LNC requested is not located close to another similar sounding 5LNC or that no sound-like issues are expected due to the specific use of the 5LNC requested, and has therefore met this requirement.

Note: The sound-like proximity check function only shows "allocated" codes (red), it leaves out all the "requested" codes (orange).

- The Data Manager **will refuse requests that may have sound-like conflict issues**.
- Even if a 5LNC is automatically generated from given coordinates, it is advised to do this check.

REQUIREMENT FOR 5LNC PUBLICATION

**States shall wait for Notification of 5LNC allocation by the ICARD Regional Data Manager
BEFORE proceeding to publication**

All references to 5LNC :

ANNEX 11 – AIR TRAFFIC SERVICES

Appendix 2 – Principles governing the establishment and identification of significant points

...

3. Designators for significant points not marked by the site of a radio navigation aid

...

3.5 States' requirements for unique five-letter pronounceable name-code designators shall be notified to the Regional Offices of ICAO for coordination.

SECTION 5 AMENDING AND RELEASING 5LNC

AMENDMENTS TO 5LNC

Authorized Users can request amendments to the coordinates of allocated 5LNC if it has not yet been published. In that case, clicking the active code will open a window for an “amendment request”. It is advised to add information in the “comment box”.

AMENDMENTS TO COORDINATES

- Will be accepted **ONLY** if the 5LNC has not yet been published.
- When, for planning purposes, a 5LNC is requested with temporary coordinates, the Authorized User will state “provisional coordinates” in the “comment” box when posting the request for allocation.
- If the 5LNC is already published, any need to amend the coordinates will require the release of the current 5LNC and request of a new 5LNC.

RELEASE OF 5LNC

When a 5LNC is no longer used, the Authorized User shall make a request for deletion.

1. From the “Find Allocated 5LNC” menu item, type in the 5LNC name concerned.
2. A table showing the 5LNC details will appear.
3. Click the “✕” icon for Code Deletion in the Action column.
4. The request will be recorded and confirmation will be sent by the data manager.

Note: Released 5LNC will remain frozen for a period of 6 months. After that time, they will automatically return to the reserve list of the ICARD database of the same ICAO Region.

AMENDMENT OR RELEASE OF SHARED CODES

- if a code is **shared with another country**, the Authorized User shall coordinate with the other State and make sure that the code can be released.
- If the action required is only for a withdrawal of one of the coordinating states, this **should not be a request for deletion but a request for amendment to the code**.
