

# Introduction to Amendment 40 to Annex 15

Roberta Luccioli

ICAO AIM Technical Officer

Interregional EUR/MID PANS AIM Workshop

(Paris, 10-12 July 2018)

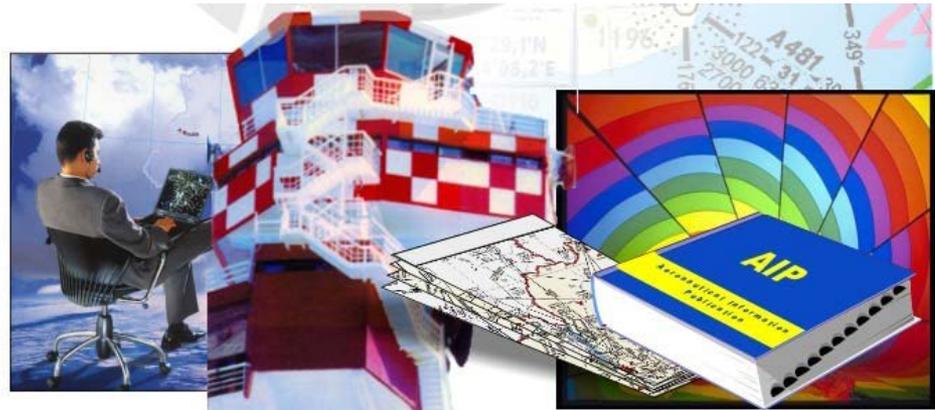

# Outline

- From *Aeronautical information services (AIS)* to *Aeronautical Information Management (AIM)* environments
- ICAO Actions
- Amendment 40 to Annex 15
  - Guiding principles
  - Highlights
  - Current Status
  - Impact

# From the traditional AIS...

- **Product-centric** mindset;
- Reliance on **manual processing** and manipulation;
- Duplication of information, **quality issues**;
- use of **non-harmonized** formats across the exchange interfaces;
- “Point to point” or “application to application” exchanges;
- Insufficient awareness of the quality requirements of **end-use applications**.

# ... to the new AIM environments

- **Focus is on the data and information**
- **Quality-assured** aeronautical information
- Authoritative sources of AI;
- Aeronautical information is **digitally represented**;
- Aeronautical information is **globally harmonized and interoperable**;
- **Producers** of information decoupled from possible **consumers**;
- Better awareness of the end-use requirements (feedback mechanisms)

Accredited Provider(s) of AIM source data

# ICAO AIS to AIM Study Group (2008 -2015)

## Objectives:

- Global strategy/roadmap for the transition from AIS to AIM
- SARPs/Guidance for a standard AICM/AIXM to enable global digital data exchange
- Other material required to support AIM implementation

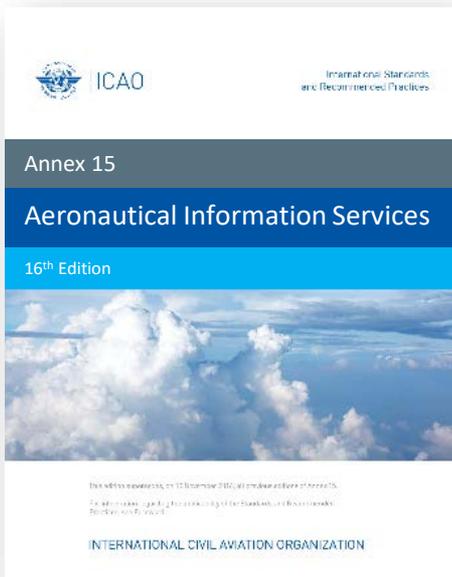

# Restructuring of ICAO AIM Documentation

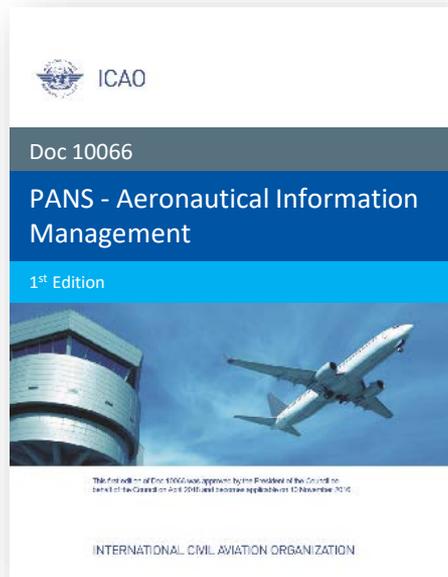

- Answering “the big questions”:
  - *Scope of AIM*
  - *Role of AIM*
  - *Functions of AIM*
  - *Products and services of AIM*
  - *Aeronautical information updates*
- The revised provisions address the needs of defined groups

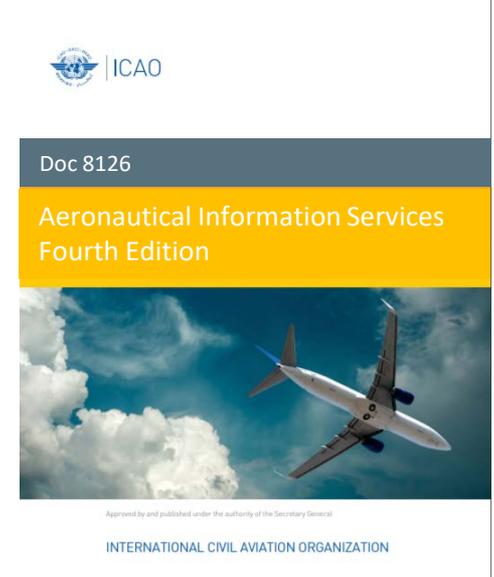

# ICAO AIM framework of documents

 *What...*

 *How...*

 *Guidance...*

Annex 15  
(Amdt.40):  
guiding  
principles

# Main elements

Amendment 40 cause major changes to Annex 15...

## Introduces new AIM requirements :

- ✓ Splits data origination from publication requirements
- ✓ Strengthens the importance of quality
- ✓ Encourages digitalization of products and services

## Reorganizes chapters 4 to 11 into:

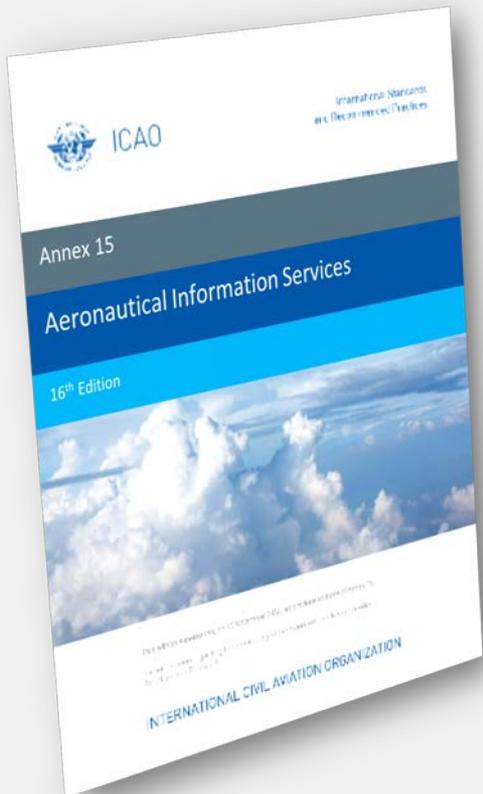

- ✓ Chapter 4 - *Scope of Aeronautical Data and Information*
- ✓ Chapter 5 - *Aeronautical Information Products and Services*
- ✓ Chapter 6 - *Aeronautical Information Updates*

Annex 15 significantly reduced in size ( 6 chapters, **40** pages)

# Annex 15 – Chapter 4

## Scope of Aeronautical data and Aeronautical Information:

### Data origination/collection:

- **minimum data set or scope ;**
- aeronautical information and data to be collected and managed;
- information and data should be **at least sufficient to assemble an AIP;**
- To extend beyond current “publication requirements”
- focus on **“what” is to be collected by the State;**
- be used to facilitate **formal arrangements between AIS and data originator**

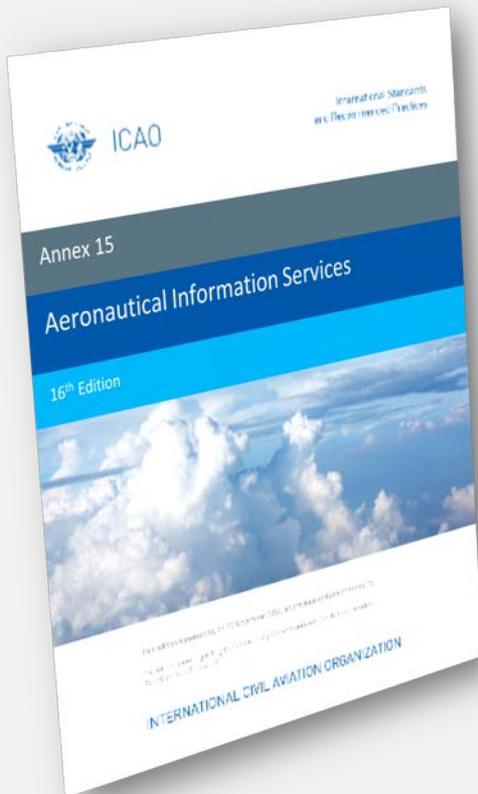

# Annex 15 – Chapter 5

## Aeronautical Information Products and Services:

SERVICE 1 (legacy)	SERVICE 2 (new)	OTHER SERVICES
<p><u>Provision of AI in a standardized presentation:</u></p> <ul style="list-style-type: none"><li>✓ AIP</li><li>✓ AIP Amendments</li><li>✓ AIP Supplements</li><li>✓ AICs</li><li>✓ NOTAMs</li><li>Aeronautical Charts</li><li>✓ <b>Electronic encouraged</b></li></ul>	<p><u>Provision of AI as digital datasets:</u></p> <ul style="list-style-type: none"><li>✓ <b>New!</b> AIP data sets</li><li>✓ <b>New!</b> IFP data sets</li><li>✓ Terrain data sets</li><li>✓ Obstacle data sets</li><li>✓ Aerodrome Mapping data sets</li></ul> <p><b>New data sets: recommended</b></p>	<p><u>Distribution of AI</u></p> <ul style="list-style-type: none"><li>✓ Use of <b>internet</b> is recommended</li></ul> <p><u>Pre-flight Service</u></p> <ul style="list-style-type: none"><li>✓ Relocated text</li></ul> <p><u>Post-flight Service</u></p> <ul style="list-style-type: none"><li>✓ Relocated text</li></ul>
Continuity	Evolution	Improvement

# Annex 15 – Chapter 6

## Aeronautical Information Updates:

- Legacy products updates: no changes
- NOTAM, as an update mechanism
- **Digital data-set updates** (generic requirements):
  - data sets to be amended as necessary;
  - permanent and temporary changes (long duration) as full data set or sub-set of data ;
  - full data-sets: the differences should be indicated;
  - temporary changes (short duration) – Digital NOTAM
  - updates to the AIP and the digital datasets shall be synchronized

The highlights

# Data quality requirements

Accuracy, Resolution, Integrity

+ **Completeness, format,  
timeliness, traceability**

Upstream

ORIGINATION

Origination of  
aeronautical data and  
information

AIM

Collection  
Validation/Verification  
Processing  
Distribution

Downstream

END-USE:

End use of aeronautical data  
and information

DQR before AMD. 40

DQR after AMD. 40 (EUROCAE ED76A / RTCA DO200B)

# NOTAM improvements

## Make the NOTAM more fit for purpose:

- Additional operational conditions are included in the provisions to identify when a NOTAM shall/shall not be originated
- Improved requirements for NOTAM distribution:
  - States obligations on NOTAM distribution
  - **!New** requirement to grant the distribution of NOTAM series other than those distributed internationally

```
NOTAM: 4/6433
NOTAM: 4/6433
Issued: 07/05/2004 03:06
Issued: 07/05/2004 03:06
Effective: Immediately - Until Further Notice
Effective: Immediately - Until Further Notice

Description: TOK JUNCTION, ALASKA.

FDC 4/6433 ZAN AK.. FLIGHT RESTRICTION TOK JUNCTION, AL
FDC 4/6433 ZAN AK.. FLIGHT RESTRI
```

# Role of automation...

## Essential! However...

- 3.5.2 Due consideration to the integrity of data and information shall be given when automated processes are implemented and mitigating steps taken where risks are identified.
- *Note.* — Risks of altering the integrity of data and information may be introduced by automated processes in case of **unexpected systems behaviors**.

# New Terminology

- **Aeronautical Information Product** → to compile all AI deliverables to be provided in either digital data sets or as a standardized presentation in paper or electronic media;
- **Originator, Origination** → to introduce and clarify an entity that is accountable for data origination, from which the AIS organization receives aeronautical data and information;
- **Next Intended User** → to better specify the role of the user in the aeronautical data chain;
- **Provide VS publish** → to encourage the move to digital environments;
- More consistent use of “**form, formats or media**” and “**printed**”, based on the differences between electronic, digital and paper requirements.

# Annex 15, Amendment 40 - Status

- **Adopted** by ICAO Council: Feb 2018
- State Letter: April 2018
- App. Date: Nov 2018

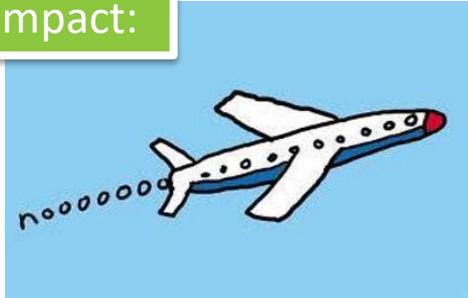

# Benefits

- Conceptual Convergence (explain what is “AIM”)
- Important reference for National AIM Regulatory Framework
- Progressive and incentive (smooth transition to AIM)
- Reflect today`s practice (improved consistency with industry standards)
- Prepare for Future (key foundation for SWIM)

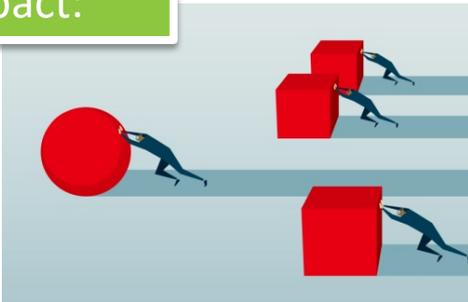

# Impact

## Flight safety impact:

**POSITIVE!**  
Better understanding of AIM  
Strengthens quality controls

## Efficiency impact:

**POSITIVE!**  
Going digital minimize errors

## Financial Impact:

- Initial major investments
- Phased-approach is recommended

## Implementation time

2 to 5 years (based on States' current status of implementation)

- North American Central American and Caribbean (NACC) Office  
Mexico City
- South American (SAM) Office  
Lima
- ICAO Headquarters**  
Montreal
- Western and Central African (WACAF) Office  
Dakar
- European and North Atlantic (EUR/NAT) Office  
Paris
- Middle East (MID) Office  
Cairo
- Eastern and Southern African (ESAF) Office  
Nairobi
- Asia and Pacific (APAC) Office  
Bangkok

**Thank You**
