- MSG/6 Report

1. INTRODUCTION

1.1 The MIDANPIRG/16 meeting noted with concern that the majority of deficiencies listed in the MANDD have no specific Corrective Action Plan (CAP). The meeting urged States to implement the provisions of MIDANPIRG Conclusion 15/35 related to elimination of Air Navigation Deficiencies, in particular, the submission of a specific Corrective Action Plan (CAP) for each deficiency.

2. DISCUSSION

2.1 The meeting may wish to note that the total number of CNS deficiencies is two (2); one (1) priority "A" and one (1) priority "B". Both deficiencies are related to ATS Direct speech circuits.

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) review and update the list of deficiencies in the CNS field at **Appendix A**; and
- b) urge States to take necessary follow-up actions to implement MIDANPIRG/15 Conclusion 15/35, in particular submission of a specific Corrective Action Plan (CAP) for each deficiency.
