

**INTERNATIONAL CIVIL AVIATION ORGANIZATION**

**MIDDLE EAST OFFICE**

**THIRD MEETING OF THE MIDANPIRG AIR TRAFFIC FLOW MANAGEMENT  
TASK FORCE**

**(ATFM TF/3)**

*(Amman, Jordan, 12 – 14 January 2020)*

**SUMMARY OF DISCUSSIONS**

## **1. PLACE AND DURATION**

1.1 The Third meeting of the Air Traffic Flow Management Task Force (ATFM TF/3) and the Third meeting of the FIFA World Cup 2022 Task Force (FWC2022 TF/3) were kindly hosted by the Civil Aviation Regulatory Commission (CARC) – Jordan. The Meetings were successfully held at Le Royal Hotel & Resorts Amman, Jordan 12 – 14 January 2020.

## **2. OPENING**

2.1 The meetings were opened by Captain Haitham Misto, Chief Commissioner/CEO, Civil Aviation Regulatory Commission (CARC) – Jordan, who thanked ICAO for organizing these important meetings in Jordan and extended a warm welcome to all participants and wished them pleasant stay in Amman. Capt. Misto highlighted that these meetings provide an opportunity for sharing experience and agreeing on the way forward related to the implementation of a collaborative ATFM in the MID Region, which could not be achieved without collaboration, support and contribution from all stakeholders.

2.2 In his opening address, Mr. Mohamed Smaoui, ICAO Deputy Regional Director, Middle East Office, welcomed all the participants to Amman. He expressed his gratitude and appreciation to H.E. Captain Haitham Misto, Chief Commissioner of CARC-Jordan for hosting the ATFM TF/3 and FWC2022 TF/3 meetings in Amman, Jordan. Mr. Smaoui extended special thanks to the air navigation team for the preparation and facilitation of these meetings and for the excellent hospitality extended to the ICAO staff and all participants. He highlighted that CARC's support to the ICAO MID Regional Office activities is an evidence of its active role and reflects Jordan's commitment to enhance the overall safety and efficiency of air navigation in the Region.

2.3 In closing, Mr. Smaoui thanked all the participants for their presence and wished the meeting every success in its deliberations.

## **3. ATTENDANCE**

3.1 The Meetings were attended by a total of forty-eight (48) participants from eight (8) States (Bahrain, Egypt, India, Iraq, Jordan, Qatar, Saudi Arabia and UAE) and five (5) International Organizations (ACAO, CANSO, EUROCONTROL, IATA, and MIDRMA). The list of participants is at **Attachment A**.

## **4. OFFICERS AND SECRETARIAT**

4.1 The ATFM TF/3 meeting was chaired by Mr. Hamad Al Belushi, ANS Specialist, UAE General Civil Aviation Authority (GCAA), who extended appreciation to participants and in particular India, CANSO, EUROCONTROL and IATA for being part of the ATFM Task Force and for accepting the invitation to actively participate in the meetings and share their experiences and views, which would support the achievement of the ATFM Task Force objectives.

4.2 Mr. Elie El Khoury, Technical Officer, Airspace Management and Optimization (AMO) Section at ICAO Headquarters Montreal, Canada, was the Secretary of the meeting.

## **5. DISCUSSIONS**

### **AGENDA ITEM 1: ADOPTION OF THE PROVISIONAL AGENDA.**

5.1 The meeting adopted the following Agenda:

- Agenda Item 1: Adoption of the Provisional Agenda
- Agenda Item 2: Regional ATFM Framework
- Agenda Item 3: Plan of Actions
- Agenda Item 4: Future Work Programme
- Agenda Item 5: Any other Business

5.2 The documentation, working papers and Presentations delivered during the meeting are available at the ICAO MID Office website <https://www.icao.int/MID/Pages/2020/ATFM%20TF3-FWC2022%20TF3.aspx>

## **AGENDA ITEM 2: REGIONAL ATFM FRAMEWORK**

### ***Asia/Pacific Region ATFM Framework Updates***

5.3 The subject was addressed in PPT/2 presented by AEROTHAI via web-conference. The meeting was apprised of the latest developments with respect to ATFM implementation in APAC Region. The meeting noted the updates that will be introduced in 2020 related mainly to:

- Basic Phrases for Ground Delay Programme (GDP) Coordination;
- Post-Ops Analysis Recommended Framework;
- ATFM Information Exchange ICDs;
- AFTN/AMHS-based ICD: ADEXP SAM/SRM/SLC;
- SWIM-based Exchange: Asia-Pacific Flight Information Exchange Model extension;
- Regional Supplementary Procedure (Doc 7030) (FPL & ATS Messages; CTOT, EET for all FIR boundary points in FPL Item 18); and
- ATFM Daily Plan (ADP) sharing;
  - ADP format in ICAO APAC Regional Framework for Collaborative ATFM;
  - ADP shared as PDF document, delivered via email; and
  - ADP attachment file name.

### ***Missing Departure Messages***

5.4 The subject was addressed in PPT/3 presented by AEROTHAI via web-conference. The meeting recognized the non-receipt of DEP has significant impact on predictability that will affect the effective implementation of ATFM. The meeting reviewed the analysis of the missed DEP messages as at **Appendix A**. The meeting agreed that ICAO to follow-up with the concerned States to investigate the reported cases and in order to provide feedback to APAC Regional Office and AEROTHAI. The meeting noted that the causes could be related to the issue from the sender and/or receiver side.

### ***India Update on Cross Border ATFM***

5.5 The subject was addressed in PPT/4 presented by India. The meeting was apprised of the development in India with respect to the implementation of ATFM. India also highlighted some issues at the interface between India and MID Region related to coordination, Large Height Deviation Reports, traffic flows, etc. The meeting noted that the implementation of AIDC/OLDI would support to resolve some the issues related to LHDs and coordination failures.

5.6 The meeting urged India, Oman and Yemen to continue working together with the support of ICAO, MAAR and MIDRMA, in order to enhance the situation.

5.7 India highlighted the following lessons learnt that would be part of the milestones for ATFM implementation:

- assessment of Airport Capacity – Normal/ Emergency/ Other modes;
- assessment of Airspace Capacity – Normal/ Peak/ Overflow;
- preparation of ADP;
- sharing of ADP;

- post Ops – Assessment of ADP with actual data;
- minimal ATFM interventions – Mostly by Strategic interventions; and
- engagement of stakeholders and regulators at each step.

5.8 India proposed the inclusion of the followings in the MID ATFM Framework:

- ATFM communications- Within/ Across States
- ATFM data exchange protocols
- ATFM to ATM automation systems message exchange
- ADP exchanges
- A-CDM implementation
- A-CDM/ATFM integration

5.9 The meeting noted that ADS-B mandate for Indian continental airspace has been effective since 1 January 2020. As per the mandate, all aircraft flying on PBN routes within the Indian continental airspace and on identified international and domestic routes, at or above FL290 are required to be equipped with ADS-B.

#### ***Update from Saudi Arabia***

5.10 The subject was addressed in PPT/5 presented by Saudi Arabia. The meeting was apprised of the development related to ATFM within Jeddah FIR and the measures taken by Saudi Arabia to accommodate the rerouted flights due to the latest contingency situation in the Gulf. The meeting noted with appreciation the information provided with respect to the declared capacity (airspace, sector and on each Entry/Exist waypoint).

5.11 The meeting noted that the capacity did not reach 50% of the declared capacity within the Saudi Airspace. However, the main challenge is at the exit interfaces from Jeddah FIR mainly (Jeddah Cairo/Nicosia) that would impose hinders on the accommodation of additional rerouted flights. Accordingly, some measures should be urgently implemented to increase the capacity at the mentioned interface.

#### ***Update on the Implementation of a Collaborative ATFM in the UAE***

5.12 The subject was addressed in WP/1 presented by UAE. The meeting was apprised of the current status and considerations for the implementation of Collaborative ATFM and its governance in the UAE. The meeting noted that, building on the success of the current flow management services and governance structure, UAE is committed to implement an enhanced and Collaborative ATFM to allow a holistic approach for balancing demand and capacity. The implementation would be based on the following principles:

- a) Involvement of aviation stakeholders like ATSUs, airspace users, airports and military;
- b) Network View – A holistic view of flights including the business assessment of the airspace users to support decision making;
- c) Predictability – Only high-quality real-time information allows for maximum efficiency and effectiveness of flow measures;
- d) Transparency – All stakeholders shall have access to the same set of information;
- e) Distributed approval authority – the resource owner or who has the jurisdiction of the resource should be the approval authority for a decision affecting them;
- f) Compliance Monitoring – to demonstrate the effectiveness and aiming for continuous improvements; and
- g) Equity – All Airspace Users will be treated fairly and equally.

5.13 Based on the above, the meeting encouraged States to:

- a) involve all stakeholders (service providers, Civil and Military airspace users) from the beginning to capture their requirements and ensure a service oriented systems and processes;
- b) create a well-structured governance and a strong legal framework to support it;
- c) utilise modern technologies for the ease of access and the right involvement all the stakeholders where applicable; and
- d) collect data and analyse it for ongoing improvements in day to day operations, systems and processes.

### **AGENDA ITEM 3: PLAN OF ACTIONS**

5.14 The meeting reviewed the draft ATFM Concept of Operations developed based on APAC Multi-Nodal Concept. The meeting agreed that the document requires further enhancement. Accordingly, the meeting tasked the ATFM Core Team to prepare a consolidated draft version of the CONOPS by **20 February 2020** for circulation to States and presentation to the MSG/7 meeting (Cairo, Egypt, 13–15 April 2020) for endorsement.

5.15 The meeting noted with appreciation that Iraq would like to take part of the ATFM Core Team. Accordingly, the meeting invited Iraq and other interested States to coordinate with the Secretariat and the ATFM TF Chairman the name and contact details of their ATFM Core Team members.

5.16 The meeting reviewed and updated the Action Plan for the implementation of ATFM in the MID Region as at **Appendix B**.

5.17 The meeting agreed that raising awareness, training and building States' capabilities related to ATFM should start the soonest possible and it is a continuous process. In this respect, the meeting received with appreciation Qatar's invitation to experts from States to attend the ATFM Course that will be held in Doha from **26 to 29 January 2020** (10 seats are available).

5.18 The meeting emphasized that the agreed deadlines/timelines are very tight. However, they are crucial for the establishment of regional ATFM Framework in a timely manner. Accordingly, the meeting urged States and Organizations to maintain, to the extent possible, the same ATFM Focal Points and the designated Members of the ATFM Task Force to ensure continuity and effectiveness.

5.19 The meeting started discussions on the update of the ASBU Thread NOPS based on GANP 2019 and the new ASBU Framework. Accordingly, the meeting proposed the revised NOPS Table at **Appendix C** with associated elements, applicability area, indicator, metrics, targets, etc., to be presented to the ACAO/ICAO MID ASBU Symposium (Cairo, Egypt, 16-19 March 2020).

### **AGENDA ITEM 5: FUTURE WORK PROGRAMME**

5.20 The meeting reviewed and updated the Terms of Reference of the ATFM TF as at **Appendix D**, which will be presented to the MSG/7 meeting (Cairo, Egypt, 13–15 April 2020) for endorsement.

5.21 The meeting noted with appreciation that the ATFM TF/4 and FWC2022 TF/4 meetings will be hosted by ACAO in Casablanca, Morocco, from 20 to 23 September 2020.

**AGENDA ITEM 6: ANY OTHER BUSINESS**

5.22 Jordan informed the meeting that coordination with their adjacent States is required for the Air Show that will take place in Aqaba, Jordan from 20 to 21 March 2020. Jordan invited all participants to attend the Air Show.

5.23 The meeting urged concerned States to coordinate, as required, to ensure effective preparation and conduct of the Air Show.

**6. CLOSING**

6.1 In closing, the Chairman thanked the participants for their presence and excellent cooperation and contribution to the meeting.

6.2 The participants thanked ICAO for organizing such a fruitful Meeting as well as Jordan-CARC for hosting, and commended the regional efforts exerted to make the ATFM/CDM regional project a success.

-----

ICAO

International Civil Aviation Organization

The Seventh Meeting of the APANPIRG ATM Sub-Group  
(ATM/SG/7)

Bangkok, Thailand, 05 – 09 August 2019

**Agenda Item 4: ATM Systems (Modernisation, Seamless ATM, CNS, ATFM)**

**MISSING DEPARTURE (DEP) MESSAGES**

(Presented by the Secretariat)

**SUMMARY**

This paper provides an update on the issue of missing departure messages, as reported to ATM/SG/6.

**1. INTRODUCTION**

1.1 The ATFM/SG/8 meeting was informed of the results of an analysis of missing Flight Plan (FPL) and Departure (DEP) messages, requiring corrective action to be taken by States and/or airspace users.

1.2 An analysis of missing DEP messages had been conducted in 2017, in response to the following APANPIRG Conclusion:

***Conclusion APANPIRG/27/12: Origination and Distribution of Departure (DEP) Messages***

*That, recognizing the importance of AFTN departure (DEP) messages in the management and coordination of flight plans in both manual and automated ATM environments, ICAO be requested to:*

1. *Conduct an analysis of the incidence of non-receipt of DEP messages required by ICAO Doc 4444 Procedures for Air Navigation Services (PANS-ATM) Section 11.4.2.2;*
2. *Request that States failing to ensure correct transmission of DEP messages promptly take corrective action and report the status of corrective actions to the ICAO APAC Regional Office by 30 April 2017; and*
3. *Raise APANPIRG Air Navigation Deficiencies against failure by States to comply with Doc 4444 Section 11.4.2.2, at APANPIRG/28.*

1.3 ATM/SG/5 in August 2017 had requested that ongoing analysis be expanded to include missing FPL messages. The March 2018 analysis presented to ATFM/SG/8 resulted in APANPIRG Air Navigation Deficiencies being raised against several Asia/Pacific Region States. An APAC State Letter was also sent to non-APAC States that were demonstrated by the analysis to be systemically failing to send DEP messages.

---

## 2. DISCUSSION

### Addressing of FPL and Other Related ATS Messages

2.1 There are a number of factors that contribute to the non-receipt of ATS messages at affected ATS units. While this paper is mainly focused on the matter of missing DEP messages, the following information is provided in relation to general aspects of ATS message handling.

2.2 ICAO Doc 4444 Procedures for Air Navigation Services – Air Traffic Management (PANS-ATM) specifies in section 11.2.1.1.1 that messages for ATS purposes (including FPL and associated ATS messages) shall be originated by the appropriate ATS units, except that, through special local arrangements, ATS units may delegate the responsibility for originating movement messages to the pilot, the operator, or its designated representative. Many airlines, accordingly, distribute FPL messages direct to concerned ATS units rather than submitting the flight plan to the air traffic services reporting office for onwards distribution (Doc 4444 section 4.4.2).

2.3 PANS-ATM 11.4.2.2.2 further specifies that a Filed Flight Plan (FPL) message shall be sent to, *inter alia*:

- The Area Control Centre (ACC) or flight information centre serving the control area or FIR within which the departure aerodrome is situated;
- All centres in charge of each FIR or upper FIR along the route; and
- The aerodrome control tower at the destination aerodrome.

2.4 PANS-ATM further specifies in section 11.2.1.2.3.3 that the following three letter designators (forming part of the AFTN address, together with the relevant ICAO four-letter location indicator and a supplementary letter, usually X) shall be used when addressing FPL and other ATS messages to ATS units:

If the message is relevant to an IFR flight ZQZ(X)

If the message is relevant to a VFR flight ZFZ(X)

Aerodrome control tower ZTZ(X)

Air traffic services reporting office ZPZ(X)

### Other three-letter designators shall not be used for that purpose

2.5 There are multiple examples of States in the Asia/Pacific Region specifying in their Aeronautical Information Publication (AIP) Section ENR 11.1 that FPL be addressed other than in accordance with PANS-ATM.

2.6 The specification of non-compliant addressing requirements in State AIP (and, in some cases, in NOTAM) contributes to the non-receipt of FPL, DEP, and other related ATS messages.

2.7 There are also cases of States implementing the use of three-letter designators that are not assigned to them in ICAO Doc 8585 *Designators for Aircraft Operating Agencies, Aeronautical Authorities and Services*, but are in fact assigned to other States, authorities, or aircraft operating agencies.

2.8 The Secretariat has also become aware that there have been cases of coercive actions being taken in the APAC Region, involving threats by a State to airspace users and other States that clearances will be refused if the FPL is not addressed to *non-compliant* addresses published in either NOTAM or AIP. This practice of coercing other ICAO contracting States into non-compliance with the provisions of PANS-ATM is entirely unacceptable. Any continuation of this behavior will be taken up formally with the Council of ICAO.

2.9 The specification of non-compliant addresses in AIP is a key factor in missing FPL and associated ATS messages. For example, ANSP responsible for aerodrome reporting offices and other ATS units in distant FIRs that transmit FPL, DEP and other ATS messages are entitled to depend on compliance with the provisions of PANS-ATM by all downstream FIRs, and address ATS messages accordingly. They do not have any obligation to hold or read the AIP or NOTAMs promulgated by a far-distant State.

2.10 It should be noted that there are several States in the Asia/Pacific Region that are fully compliant with the abovementioned provisions of PANS-ATM. These States have, where locally required, implemented simple technology solutions to identify and re-direct FPL and other relevant ATS messages to other internal agencies such as military, network management centres, centralized flight plan processing facilities, regulators, etc.

2.11 A summary of non-compliant addressing requirements from published by Asia/Pacific Administrations in *online* AIP (Section 1.11) is provided in **Attachment A**. Information from AIPs that are not available online will be further researched by ICAO. The meeting is invited to note that ICAO will take further action to ensure compliance with the provisions of PANS-ATM through direct contact with States, and through APANPIRG Air Navigation Deficiencies in 2020.

2.12 In that regard, the following Draft Conclusion is proposed:

#### **Draft Conclusion: ATS Message Reception Handling**

Noting that incorrect flight plan addressing requirements published by States in AIP ENR 1.11 contribute to the non-reception of flight plans and associated ATS messages, and that simple technology solutions are readily available to permit redistribution of messages to all necessary internal units and organizations, States are urged to:

1. ensure that, in accordance with PANS-ATM 11.4.2.2.2 all FPL and associated ATS messages that are addressed in accordance with PANS-ATM to the centre in charge of each FIR along the route and the destination aerodrome control tower, are correctly received and redistributed to all necessary ATS units by the receiving State;
2. note that, as specified in PANS-ATM 11.2.1.2.3.3, the correct address for the centre in charge of the FIR is [FIR location indicator]ZQZX, and other indicators shall not be used;
3. remove flight plan addressing requirements that do not comply with the above PANS-ATM provisions from AIP ENR 1.11; and
4. ensure that all three letter designators used in addresses are correctly registered in ICAO Doc 8585.

#### DEP Messages Not Received - Data Considerations

2.13 The data on missing FPL and DEP messages does not necessarily, in all cases, reflect failures at the aircraft operator or departure aerodrome ANSP. There may be a number of reasons these messages failed to reach one or more relevant ATS units, including such issues as, for example:

- non-compliant addressing requirements/handling at the reception end, as mentioned above;
- communication network failures;
- rejected message queues (format, syntax, semantic errors) not correctly actioned by the receiving ANSP; and
- failure of the Centre in charge of the FIR to correctly re-distribute received messages to all relevant ATS units within the FIR.
- Non-inclusion in FPL of Estimated Elapsed Times (EET) for all FIR boundaries crossed by the flight.

2.14 However, in many cases there are clear systemic issues that must be addressed by the Administration responsible for the aerodrome of departure.

#### DEP Messages Not Received – Follow-Up Actions

2.15 Following the analysis of missing DEP messages conducted in 2018, ATFM/SG/8 discussed steps to be to address the issue. State Letters were consequently sent by the ICAO Asia/Pacific Regional Office as follows:

- State Letters to APAC Administrations for which APANPIRG Air Navigation Deficiencies were proposed for non-compliance with the provisions of PANS-ATM (subsequently agreed by APANPIRG);

*Bangladesh, India, Indonesia, Malaysia, Myanmar, Philippines*

- A State Letter to all other APAC Administrations, and to non-APAC Administrations through their accredited ICAO Regional Offices, where the analysis indicated systemic failure to send DEP messages.

*Replies received only from (APAC) Australia, Lao PDR, Malaysia, Philippines, Republic of Korea and USA, and (non-APAC) Chile, South Africa, Ukraine and United Arab Emirates. Germany provided a reply that did indicate the issue was not understood.*

2.16 A further 24-hour data gathering activity was conducted on 14 June 2019. The collated data in **Table 1** provides an overall summary:

Reporting State	Inbound/Overflight Plans	Missing DEP Messages	%
Australia	404	5	1.2
China	165	155*	93.9
India	1280	418**	29.1
Japan	925	50	5.4
Singapore	1908	64	3.3
Thailand	1641	62	3.7
Total	6476	754	11.6
* China data did not identify which of its nine FIR/s were sampled, and the data sample provided is substantially smaller than expected (China departure flights in the data analysis)			
** India provided data for each of its four FIRs. There were 418 cases of DEP not received in one or more of the four FIRs			

**Table 1:** Summary of Missing DEP Messages per Reporting State

#### Asia/Pacific State Analysis and Deficiencies

2.17       **Attachment B** provides the analysis of missing DEP messages per State of Departure (all ICAO Regions). Meeting participants may care to note the continuing failure of non-APAC States to rectify their failure to correctly transmit DEP messages in accordance with PANS-ATM. Most notably, but not limited to:

Bahrain, France, Germany, Kuwait, Qatar, Russia, Saudi Arabia, Turkey, UAE, United Kingdom.

2.18       **Attachment C** summarizes the performance of APAC Administrations for which data was captured in the analysis.

2.19       While the data indicates there has been some improvement in this area in the Asia/Pacific Region, there are still a number of State that need to take further action to address the issue.

2.20       In 2018 ICAO raised APANPIRG ANS Deficiencies against the following Asia/Pacific States for non-compliance with the provisions of PANS-ATM 11.4:

Bangladesh, India, Indonesia, Malaysia, Myanmar, Philippines, Republic of Korea, USA.

2.21       The criterion used for the ANS Deficiency was the failure to send DEP messages for 10 flights or more. This criterion did not adequately capture poor performance from States with low numbers of international departures. It is therefore proposed that the criteria will be five percent of flights. States with very low numbers of international departures, i.e. less than 20, should be excluded from the Deficiency List due to the small sample size, but will be formally contacted by ICAO, and monitored closely.

2.22       Based on this data, the following deleted, new or unchanged ANS Deficiencies in this field will be proposed to APANPIRG/30:

- Deficiency to be deleted: Indonesia, Myanmar, Philippines, Republic of Korea
- New Deficiency to be proposed: Maldives, Nepal,
- Deficiency to remain in place: Bangladesh, India, Malaysia, USA

2.23 The meeting is invited to note that few Administrations in this data achieved 100% of DEP messages transmitted to all relevant participating FIRs. All Administrations should examine their process and system configuration in order to improve overall performance.

Ongoing Activities

2.24 This work was initially carried out as a result of ATFM/SG discussion, noting that DEP messages currently provide the first real-time information used to update demand calculations in most ATFM processes. However, DEP messages have a broader impact, also serving an important role in both manual and automated ATM systems. It is therefore proposed that this work will continue directly under the oversight of ATM/SG.

2.25 The issue was also raised with ICAO Headquarters by the ICAO APAC Regional Office, and by Thailand with the ATM Operations Panel. The Secretariat and Thailand have also made separate direct approaches to relevant States and International Organizations.

2.26 Other States having the capability are requested to participate in data gathering activities to support ongoing monitoring.

**3. ACTION BY THE MEETING**

3.1 The meeting is invited to:

- a) note the information contained in this paper;
- b) note the PANS-ATM procedures for the addressing of FPL and ATS messages;
- c) note and discuss the contribution of incorrect addressing requirements published in AIP ENR 1.11;
- d) note the planned raising of APANPIRG Air Navigation Deficiencies where AIP ENR 1.11 does not comply with PANS-ATM;
- e) agree to the Draft Conclusion ATM/SG/7-X: ATS Message Reception Handling;
- f) note and discuss the data analysis provided in Attachments B and C;
- g) note the list of ANS Deficiencies related that will be proposed to APANPIRG/30;
- h) take all steps to examine processes and system configuration, to improve performance in DEP message transmission;
- i) participate in future data analysis activities; and
- j) discuss any relevant matters as appropriate.

.....

**Draft Conclusion/Decision ATM/SG/7-X: ATS Message Reception and Handling**

What: Noting that incorrect flight plan addressing requirements published by States in AIP ENR 1.11 contribute to the non-reception of flight plans and associated ATS messages, and that simple technology solutions are readily available to permit redistribution of messages to all necessary internal units and organizations, States are urged to: <ol style="list-style-type: none"><li>ensure that, in accordance with PANS-ATM 11.4.2.2 all FPL and associated ATS messages that are addressed in accordance with PANS-ATM to the centre in charge of each FIR along the route and the destination aerodrome control tower, are correctly received and</li></ol>	Expected impact: <input type="checkbox"/> Political / Global <input type="checkbox"/> Inter-regional <input type="checkbox"/> Economic <input type="checkbox"/> Environmental <input checked="" type="checkbox"/> Ops/Technical
--	--

<p>redistributed to all necessary ATS units by the receiving State;</p> <p>2. note that, as specified in PANS-ATM 11.2.1.2.3.3, the correct address for the centre in charge of the FIR is [FIR location indicator]ZQZX, and other indicators shall not be used;</p> <p>3. remove flight plan addressing requirements that do not comply with the above PANS-ATM provisions from AIP ENR 1.11; and</p> <p>4. ensure that all three letter designators used in addresses are correctly registered in ICAO Doc 8585.</p>	
Why: To reduce the proliferation of flight plan addressing requirements published in AIP that are not compliant with PANS-ATM, in reduce the number of FPL, DEP and associated ATS messages that are not received by all necessary ATS units. **ACTION PLAN FOR IMPLEMENTATION OF ATFM IN THE MID REGION**

<b>Key Activities</b>	<b>Action</b>		<b>Target date</b>	<b>Deliverable</b>	<b>Champion</b>	<b>Supported by</b>	<b>Status/RMK</b>
	<b>No</b>	<b>Description</b>					
<b>Key Activity 1</b> Agreement on the ATFM Regional Framework	1.	Recommending the best Scenario for a regional ATFM framework	20 Mar 2019	Recommendation	ATFM TF/2 meeting		Completed
	2.	Presentation to the ACAO ANC/40	21 Mar 2019	Support	ACAO		Completed
	3.	Preparing a Working Paper to MIDANPIRG/17	30 Mar 2019	WP	Secretariat	Chairman	Completed
	4.	Agreement on the regional ATFM framework by MIDANPIRG	18 Apr 2019	MIDANPIRG Conclusion	MIDANPIRG/17	Secretariat	Completed
	5.	Presentation to the ACAO Executive Council	28-29 Apr 2019	For support	ACAO		Completed
	6.	Notifying States about MIDANPIRG/17 Conclusion and that the development of ATFM CONOPS started	30 Apr 2019	State Letter	ICAO	Chairman	Completed
<b>Key Activity 2</b> Development of Draft CONOPS	7.	Development of a Draft ATFM CONOPS	20 Feb 2020	Draft ATFM CONOPS	ATFM Core Team		
	8.	Circulating the Draft ATFM CONOPS to States	20 Feb 2020	State Letter	ICAO	ACAO	
	9.	Feedback form States on the Draft ATFM CONOPS	20 Mar 2020	Feedback	States		
	10.	Consolidation of the Draft ATFM CONOPS for presentation to the MSG/7 meeting	30 Mar 2020	Consolidated version of ATFM CONOPS	Secretariat	Chairman ATFM Core Team	
	11.	Endorsement of the ATFM CONOPS	15 Apr 2020	ATFM CONOPS	MSG/7		
	12.	Presentation to ACAO ANC	Apr 2020	For Info and Support	ACAO		
	13.	Presentation to ACAO Executive Council	Jun 2020	For Info and Support	ACAO		
<b>Key Activity 3</b> Development of ATFM Regional Framework and	14.	Development of Initial Draft ATFM Regional Framework and draft ATFM Common Operating Procedures	31 Aug 2020	Initial Draft ATFM Regional Framework and draft Common Operating Procedures	ATFM Core Team	Face-to-face meeting(s) might be required	

Common Operating Procedures based on the agreed CONOPS	<b>15.</b>	Agreement on the Draft Regional Framework and draft Common Operating Procedures	23 Sep 2020	Draft ATFM Regional Framework and draft Common Operating Procedures	ATFM TF/4 meeting (20–23 Sep 2020)		
	<b>16.</b>	Circulating the Draft Regional Framework and draft Common Operating Procedures to States	5 Oct 2020	State Letter	ICAO	ACAO	
	<b>17.</b>	Feedback from States on the Draft ATFM Regional Framework and draft Common Operating Procedures	5 Nov 2020	Feedback	States		
	<b>18.</b>	Consolidation of a Draft Regional Framework and draft Common Operating Procedures for presentation to the MSG/7 meeting	15 Nov 2020	Consolidated version of Draft ATFM Regional Framework and draft Common Operating Procedures	Secretariat	Chairman ATFM Core Team	
	<b>19.</b>	Presentation to ACAO Executive Council	Dec 2020	For Info and Support	ACAO		
	<b>20.</b>	Endorsement of the ATFM CONOPS, Regional Framework and Common Operating Procedures including agreement on a roadmap for the implementation	Feb 2021	ATFM CONOPS, Regional Framework and Common Operating Procedures	MIDANPIRG/18 ( Feb 2021)		
	<b>21.</b>	Circulation of the CONOPS, Regional Framework and Common Operating Procedures and posting them on the ICAO MID Website	30 Mar 2021	State Letter	ICAO	ACAO	
	<b>22.</b>	Presentation to ACAO Executive Council	May 2021	For Info and Support	ACAO		
Key Activity 4 Implementation of the MID ATFM Regional Framework and Common Operating Procedures based on the agreed CONOPS	<b>23.</b>	Implementation of the MID ATFM Regional Framework and Common Operating Procedures	Cont.	Implementation of ATFM Regional Framework and Common Operating Procedures	States		
	<b>24.</b>	Implementation of ATFM framework at national level	Cont.	National ATFM framework	States		

<b>Key Activity 5</b> Post Implementation Review of the MID ATFM Regional Framework	<b>25.</b>	Post implementation review	Each 3 months	Post Implementation review	ATFM Core Team		
	<b>26.</b>	Improvement of the ATFM Regional Framework and Common Operating Procedures	TBD 2022	Proposal for improved ATFM Regional Framework and Common Operating Procedures	ATFM TF	ATFM Core Team	
	<b>27.</b>	Review and continuous improvement of the ATFM Implementation in the MID Region with consideration of establishment of centralized ATFM system for the MID Region	TBD	Continuous improvement	ATFM TF	ATFM Core Team	
<b>Key Activity 6</b> Training and raising awareness related to ATFM	<b>1.</b>	Development of National ATFM Implementation Plan and Training Programme Template for qualifying ATFM Specialist	30 Jun 2020	Training Programme Template for ATFM Specialist	ATFM TF / ATFM Core Team		
	<b>2.</b>	Development of working arrangement for the ATFM Visits to States that would include ATFM Workshop and/or training courses	30 Jun 2020	working arrangement for the ATFM Visits	ATFM TF / ATFM Core Team		
	<b>3.</b>	Organizing an ATFM Workshop with the planned A-CDM Workshop	21-23 Oct 2019	A-CDM/ATFM Workshop	ICAO/ACAO	ATFM TF	Completed
	<b>4.</b>	Organizing of ATFM Workshop/Training Courses	TBD 2020/2021	ATFM Training Courses	ICAO/ACAO	TBD	
	<b>5.</b>	Conduct ATFM Support visits to States	TBD 2020/2021	ATFM Support visits	ATFM support Team	TBD	
	<b>6.</b>	Conduct familiarization visits to CADENA, Singapore, India, EUROCONTROL, FAA, etc.	TBD	ATFM Familiarization Visits	ACAO ICAO		

<b>NOPS: Network Operations</b>				
<b>Elements</b>	<b>Applicability</b>	<b>Performance Indicators/Supporting Metrics</b>	<b>Targets</b>	<b>Timelines</b>
B0/1: Initial integration of collaborative airspace management with air traffic flow management	All States	<p>Indicator: % of States integrating collaborative airspace management with air traffic flow management</p> <p>Supporting metric: number of States that have integrated collaborative airspace management with air traffic flow management</p> <p>Link to <i>GANP KPI (MID)</i>: <i>KPI01, KPI07 and KPI14</i></p>	100%	June 2022

DRAFT

## Table NOPS 3-1

### EXPLANATION OF THE TABLE

Column

- 1 Name of the State
- 2 ATFM National Implementation Plans:  
Y –Implemented; N – Not Implemented
- 3 ATFM Structure: States developed ATFM Structure:  
Y –Implemented; N – Not Implemented
- 4 Exchange of ATFM Information: States exchanging ATFM information with their adjacent States (through telephone or automation, or other means) including Daily ATFM Plans  
Y –Implemented; N – Not Implemented
- 5 Implementation of ATFM: States Implementing ATFM in accordance with the ATFM regional framework.

*Strategic = 30%*

*Pre-Tactical = 60%*

*Tactical= 100%*

- 6 Remarks

Applicability State	ATFM National Implementation Plans	ATFM Structure	Exchange of ATFM Information	Implementation of ATFM	Remarks
<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>
