

Global updates on CAPSCA Programme

CAPSCA EUR/MID meeting

- Established 2006
- Managed by ICAO with support from WHO
- **Multi-sector multi-partner collaboration**
- Focus on **Aviation & Public health**
- Global, regional, national and local levels
- Implementation of aviation SARPs & WHO IHR

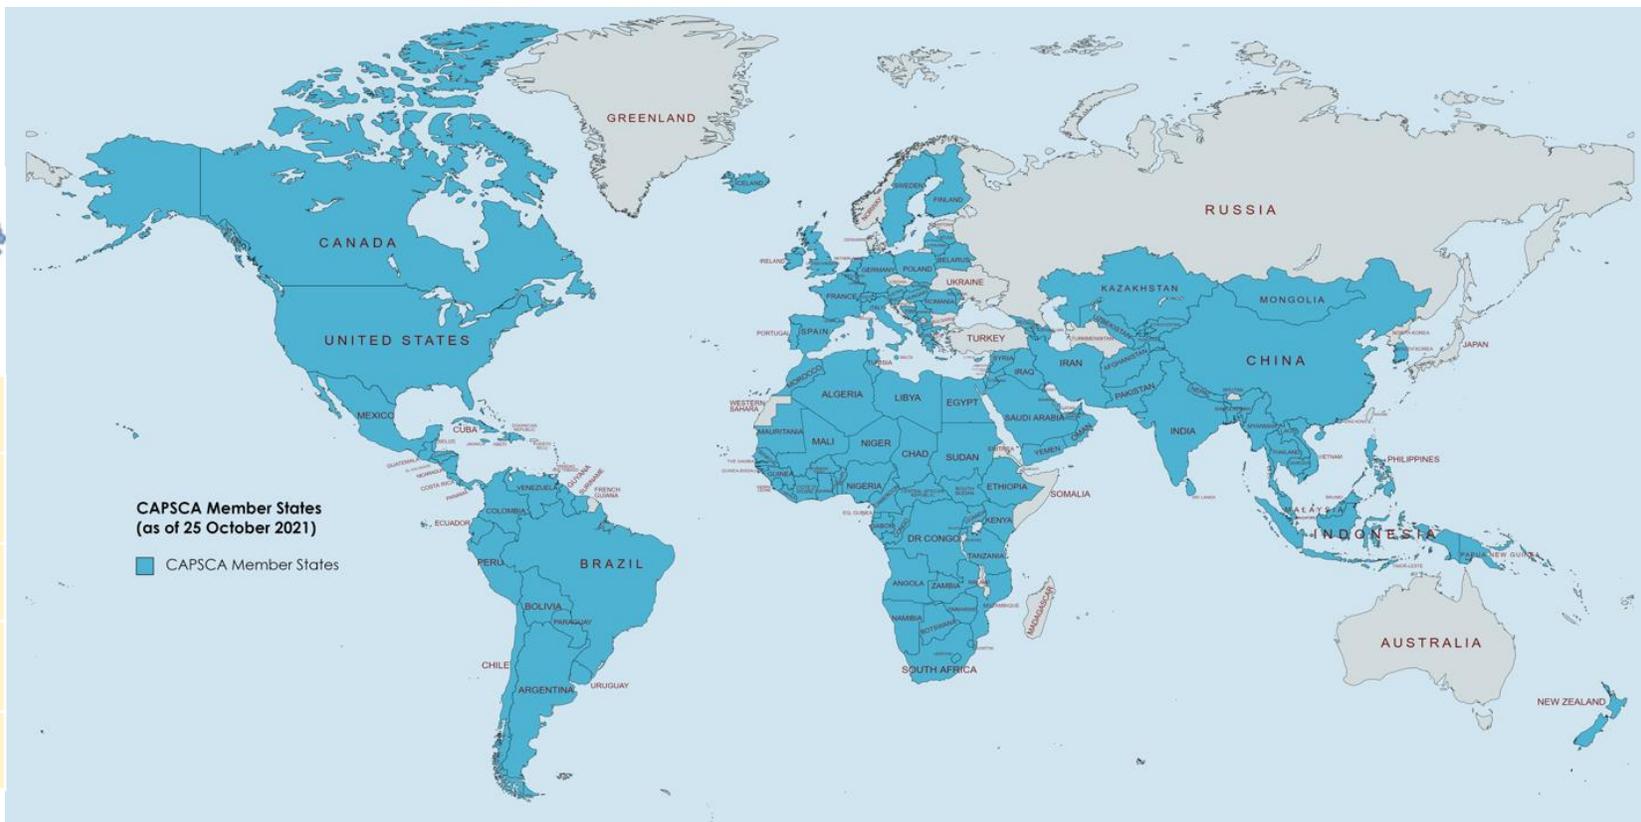

- United Nations entities
- Public Health Authorities
- Airlines
- Airports
- Flight crew and cabin crew
- Aircraft manufacturers
- Aviation safety
- Business Aviation

Survey of health restrictions during the COVID-19 PANDEMIC

OBJECTIVE OF THIS SURVEY

Under the framework of CAPSCA and in order to facilitate the air operations of relief and cargo flights during the COVID-19 pandemic, ICAO is requesting Member States and International Organisations to provide information about the restrictions and procedures in place for relief and cargo flights. The responses to this survey will be used in developing guidance material to ensure the minimum disruption to operations due to the implementation of health measures during the COVID-19 pandemic.

INSTRUCTIONS FOR COMPLETING THE SURVEY

1. The survey is divided into 6 sections:
 - a. Flight exemptions, pre-authorizations and NOTAMs
 - b. Flight crew disembarking and lay-over considerations and procedures
 - c. Health measures and screening procedures upon arrival
 - d. Health measures and screening procedures upon departure
 - e. Health measures onboard aircraft
 - f. Aircraft disinfection and cargo handling

CREW COVID-19 STATUS CARD

Information required for State health officials to be confident that crew members have taken reasonable precautions to ensure they are COVID-19 virus free.

1. Have you been in contact* with a person with probable or confirmed COVID-19 during the 2 days before or 14 days after that person had the onset of symptoms?

***WHO definition of contact**

1. Face-to-face contact within 1 meter and for more than 15 minutes;
2. Direct physical contact with a probable or confirmed case;
3. Direct care for a patient with probable or confirmed COVID-19 disease without using proper personal protective equipment; or
4. Other situations as indicated by local risk assessments.

Yes No

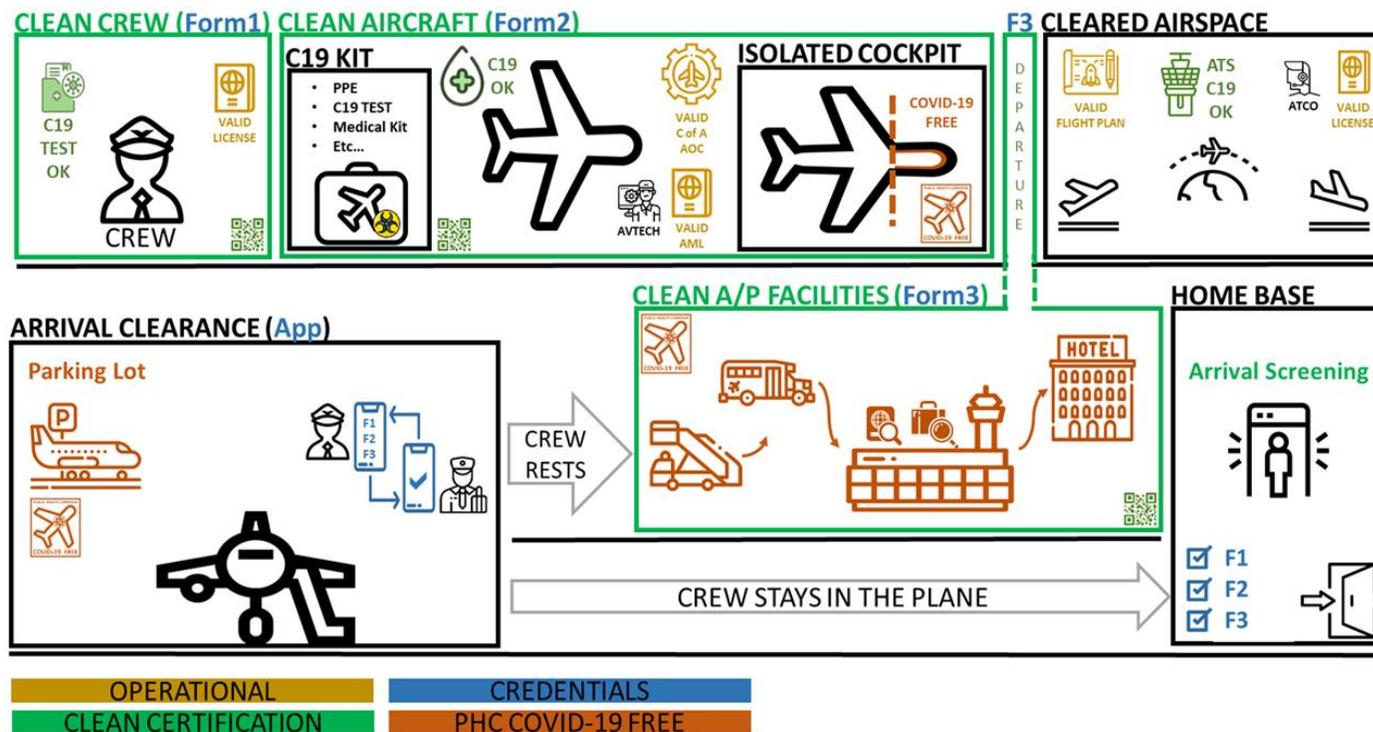

2. Have you had any of the following symptoms during the past 14 days:

- | | | |
|------------------------|------------------------------|-----------------------------|
| Fever | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| Coughing | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| Breathing difficulties | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

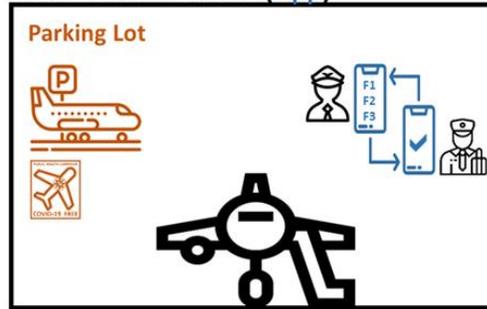

3. *Temperature at duty start: Date: _____ Time: _____

Which of the methods below do you use to share information regarding your risk management measures with other States? Choose all applicable options.

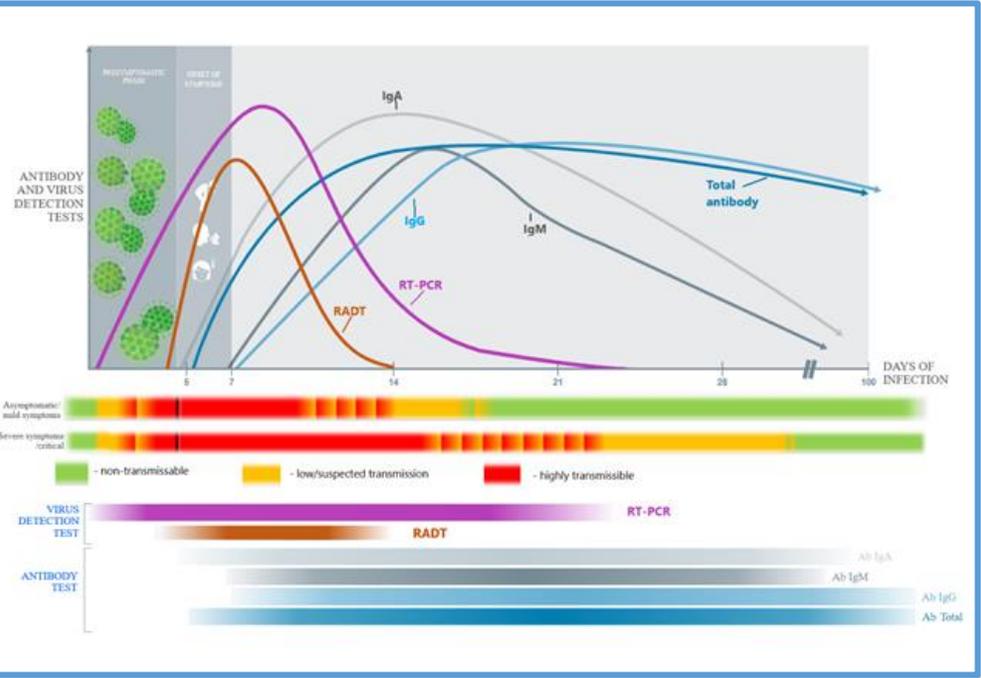

- (1) Personal information of test subject:
 - a) full name (surname, given name);
 - b) date of birth (YYYYMMDD);
 - c) ID document type²¹ (mandatory); and
 - d) ID document number (mandatory);

- (2) Service provider:
 - a) name of testing facility or service provider (mandatory);
 - b) country of test (mandatory); and
 - c) contact details (mandatory);

- (3) date and time of test and report:
 - a) date and time of specimen collection (mandatory); and
 - b) date and time of report issuance (mandatory);

- (4) test result:
 - a) type of test conducted: molecular (PCR); molecular (other); antigen; antibody (type) (mandatory);
 - b) result of test (normal/abnormal or positive/negative) (mandatory); and
 - c) sampling method (nasopharyngeal, oropharyngeal, saliva, blood, other) (optional);

- (5) optional data field: Issued at the discretion of the issuing authority.

Public Health Corridor Application (PHC App)

- Online tool to facilitate the conclusion of PHC between States (bilateral/multilateral)
- On the CRRIC Website
- Contains:
 - PHC Arrangement template (suggested best practices for provisions to be included)
 - Appendix A: Scope of the PHC (flights, capacity, etc.)
 - Appendix B: Disease Translocator Risk Level (traffic light categorization)
 - Appendix C: Measures of a mutually agreed Multi-layer Risk Management Strategy
- Highly-customizable; generates Arrangement for print or further editing

<https://portal.icao.int/CRRIC/Pages/Public-Health-Corridors.aspx>

Public Health Corridor

Partner List:

General Provisions

Background

In response to the criticality of the COVID-19 pandemic, the Government/Administration of participating States (hereinafter, "the Parties") have agreed to establish a Public Health Corridor (herein referred to as "PHC") outlining a framework of commonly agreed measures for safe air travel between the Parties.

[Read more/less](#)

Appendix A - Routes

In order to start your arrangement, please input the operators and airport information in order to identify the routes to be established.

This arrangement is applicable to the following operators and routes as applicable.

Operator Name and code	From Airport Name and Code	To Airport Name and Code	Weekly passenger capacity
<input type="text" value="Any"/>	<input type="text" value="Any"/>	<input type="text" value="Any"/>	<input type="text" value="Any"/>
<input type="button" value="Add"/>			

Appendix B - Disease Translocation Risk Level

The Disease Translocation Risk Level (DTRL) is based on data drawn from the State Risk Levels App (hyperlink) and guided by the information and recommendations provided in the Manual on Testing and Cross-Border Risk Management Measures (hyperlink). It is recommended to use as a baseline as indicated in Paragraph 4.2.4 of the Manual. The below cut-off values already reflect that baseline, but can be changed based on agreement between States.

Appendix C - Public Health Measures

Based on the information provided above, Appendix C highlights the level of adoption of public health measures. Using a safety risk management approach, States can then agree on the level of PHC measures to be included in the arrangement, based on the DTRL level.

The PHC partners agree to apply the following public health measures depending on their DTRL:

General applicable measures

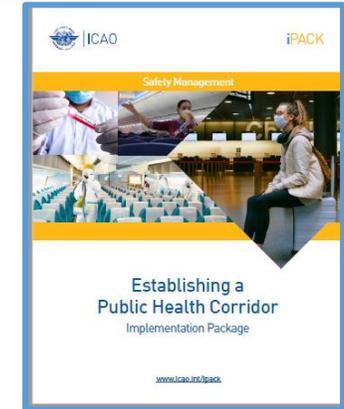

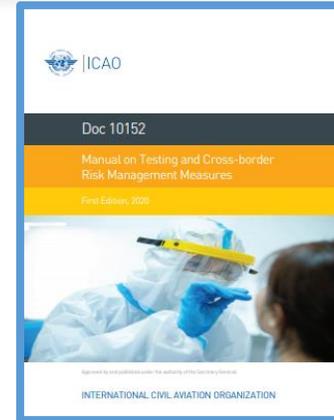

Add more measures from that module
Public Education

Add measure

Measure	DTRL				Adoption
	Green	Orange	Red	Gray	
Generally applicable risk mitigation measures Public Education	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	100% (3/3)
Generally applicable risk mitigation measures Physical Distancing	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	100% (3/3)
Generally applicable risk mitigation measures Face Covering and Medical Mask	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	100% (3/3)
Generally applicable risk mitigation measures	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	100% (3/3)

Health certificates that is secure, trustworthy, verifiable, convenient to use, compliant with data protection legislation and internationally/globally interoperable

Existing solutions should be considered and could incorporate a Visible Digital Seal (VDS-NC) or other **interoperable formats** from regional or global intergovernmental bodies, or internationally recognized organizations.

Could the data have been altered after issuance? (integrity)

Can issuance by a trusted authority be confirmed? (authenticity)

Are my systems capable of verifying integrity and authenticity?

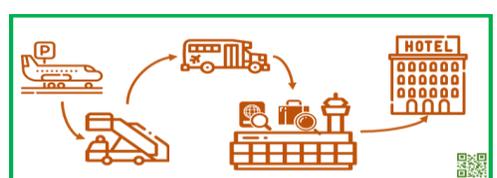

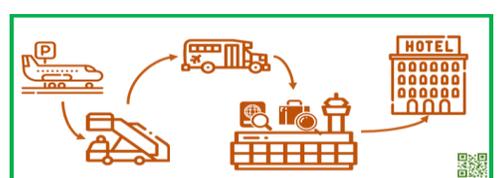

Will the certificate be efficiently read within existing processes and infrastructure?

Compliant with legislation in State of use and State of nationality of the traveller

Will cross-border verification be possible?

- ### Passenger
- ✓ National public health guidelines
 - ✓ Communication
 - ✓ Health forms and declarations
 - ✓ On-line check-in
 - ✓ **Masks**
 - ✓ **Pre-departure testing**
 - ✓ **Post-arrival testing**
 - ✓ **Vaccination document**
 - ✓ **Proof of recovery**

- ### Crew
- ✓ Training
 - ✓ Behaviour
 - ✓ Reporting for duty when fit
 - ✓ Health Declaration
 - ✓ Flight crew segregation
 - ✓ Fast track customs
 - ✓ Health monitoring
 - ✓ Manage ill crew
 - ✓ Layover
 - ✓ **Testing**
 - ✓ **Vaccination**

- ### Departure airport***
- ✓ Epidemiology data
 - ✓ Transmission patterns
 - ✓ Public health measures
 - ✓ Airport accreditation
 - ✓ Sharing of information
 - ✓ Airport access
 - ✓ Ventilation/ AC
 - ✓ Physical Distancing
 - ✓ Use of masks/ PPE
 - ✓ Cleaning/ Disinfection
 - ✓ Control sheet
 - ✓ Contactless processes
 - ✓ Manage ill passenger
 - ✓ Cargo handling
 - ✓ Boarding
 - ✓ **Screening**
 - ✓ **Pre-departure testing**
 - ✓ **Proof of vaccination/ recovery**

- ### In-flight
- ✓ Ventilation
 - ✓ HEPA
 - ✓ Aircraft design
 - ✓ Boarding
 - ✓ Seat assignment
 - ✓ Baggage
 - ✓ Distancing
 - ✓ Use of masks/ PPE
 - ✓ Cleaning/Disinfection
 - ✓ Hand sanitizer
 - ✓ Interaction
 - ✓ Lavatory
 - ✓ UPK
 - ✓ Medical Kit
 - ✓ Manage ill passenger
 - ✓ Airline assessment

- ### Destination airport ***
- ✓ Airport parking and PHA boarding procedures
 - ✓ Hazardous waste management
 - ✓ Separate pathway (high risk)
 - ✓ Transit
 - ✓ Same measures as departure airport
 - ✓ **Post-arrival testing**
 - ✓ **Border measures**
 - ✓ **Proof of vaccination/ recovery**

- ### Public Health
- ✓ Medical assessment
 - ✓ Self-monitoring
 - ✓ Self-isolation
 - ✓ Isolation
 - ✓ Quarantine
 - ✓ Contact tracing

HLCC

- 1,786 representatives, 129 Member States and 38 international organizations
- Facilitation Stream: 73 papers and 79 recommendations
- **Agenda Item 6:** Facilitation operational measures related to the COVID-19 pandemic and beyond
- **Agenda Item 7:** Enhancing National Coordination and International Cooperation

Ministerial Plenary:

Declaration adopted that demonstrates the solidarity and determination in confronting COVID-19 challenges, and conveys a strong political “message” to international communities and world economies

ICAO

HLCC Recommendations to ICAO

- **Review the CAPSCA framework and governance** to optimize preparedness planning and response to public health emergencies
- Support the **strengthening** of the CAPSCA framework
- **Develop** in close cooperation with CAPSCA experts, a **comprehensive framework** to be followed **in response to significant public health emergencies**, with specific reference to multi-sector risk assessment, a rapid initial response, and ongoing monitoring during the evolution of the emergency, and enabling national and international cooperation to prevent unnecessary interference with international traffic and trade

ICAO

SAFETY

NO COUNTRY
LEFT BEHIND

HLCC Recommendations to ICAO

- Continue to adapt and **provide for a quick response mechanism** in ICAO that would **issue urgent guidance** to Member States in the event of an outbreak and develop case-specific Guidance on **how to implement a Public Health Corridor for a particular outbreak**, based on the available scientific evidence;
