WEBINAR ON DANGEROUS GOOD

(Virtual, 08 November 2021 08:30 – 10:15 UTC)

PROGRAMME

The COVID-19 pandemic has wreaked havoc the social and economic systems across the globe. Air transport has been one of the particular hard-hit sectors with air traffic plummeted to the unprecedented level. Contending with the rapid changing pandemic and the extraordinary uncertainties, it is more than ever important to constantly monitor and assess the situation and its impact on air transport. During the crisis, the Air Cargo was the unique aviation sector maintaining a stable growth, which lead to more dangerous goods being shipped by air, providing for more workload for the industry and for additional challenges facing the regulators.

The main objective of the Webinar is to bring together all concerned stakeholders (MENA States: CAAs and Stakeholders)) to share experiences and best practices on the way to handle the growth of dangerous good shipments due to the COVID-19 pandemic nature as well as the challenges induced facing the oversight activities, considering the constraints related to onsite inspection.
