

MENA ARCM DATABASE TEAM

Committee Meeting

September 11-12 , 2022

OUTLINE

1 INTRODUCTION

2 WORK DONE

3 SUMMARY OF FINDINGS

4 TEAM RECOMMENDATION

1. Introduction

In order to foster the cooperation among member states, the MENA ARCM Committee has recognized the importance of developing a database platform and assigning a dedicated team for this mission.

Our team has conducted a series of workshops to draw the roadmap, the required data and the recommendation for the database

Introduction

Aim of Database Team

- ❑ Develop MENA ARCM Database through defining available resources and capabilities among the MENA ARCM member states.

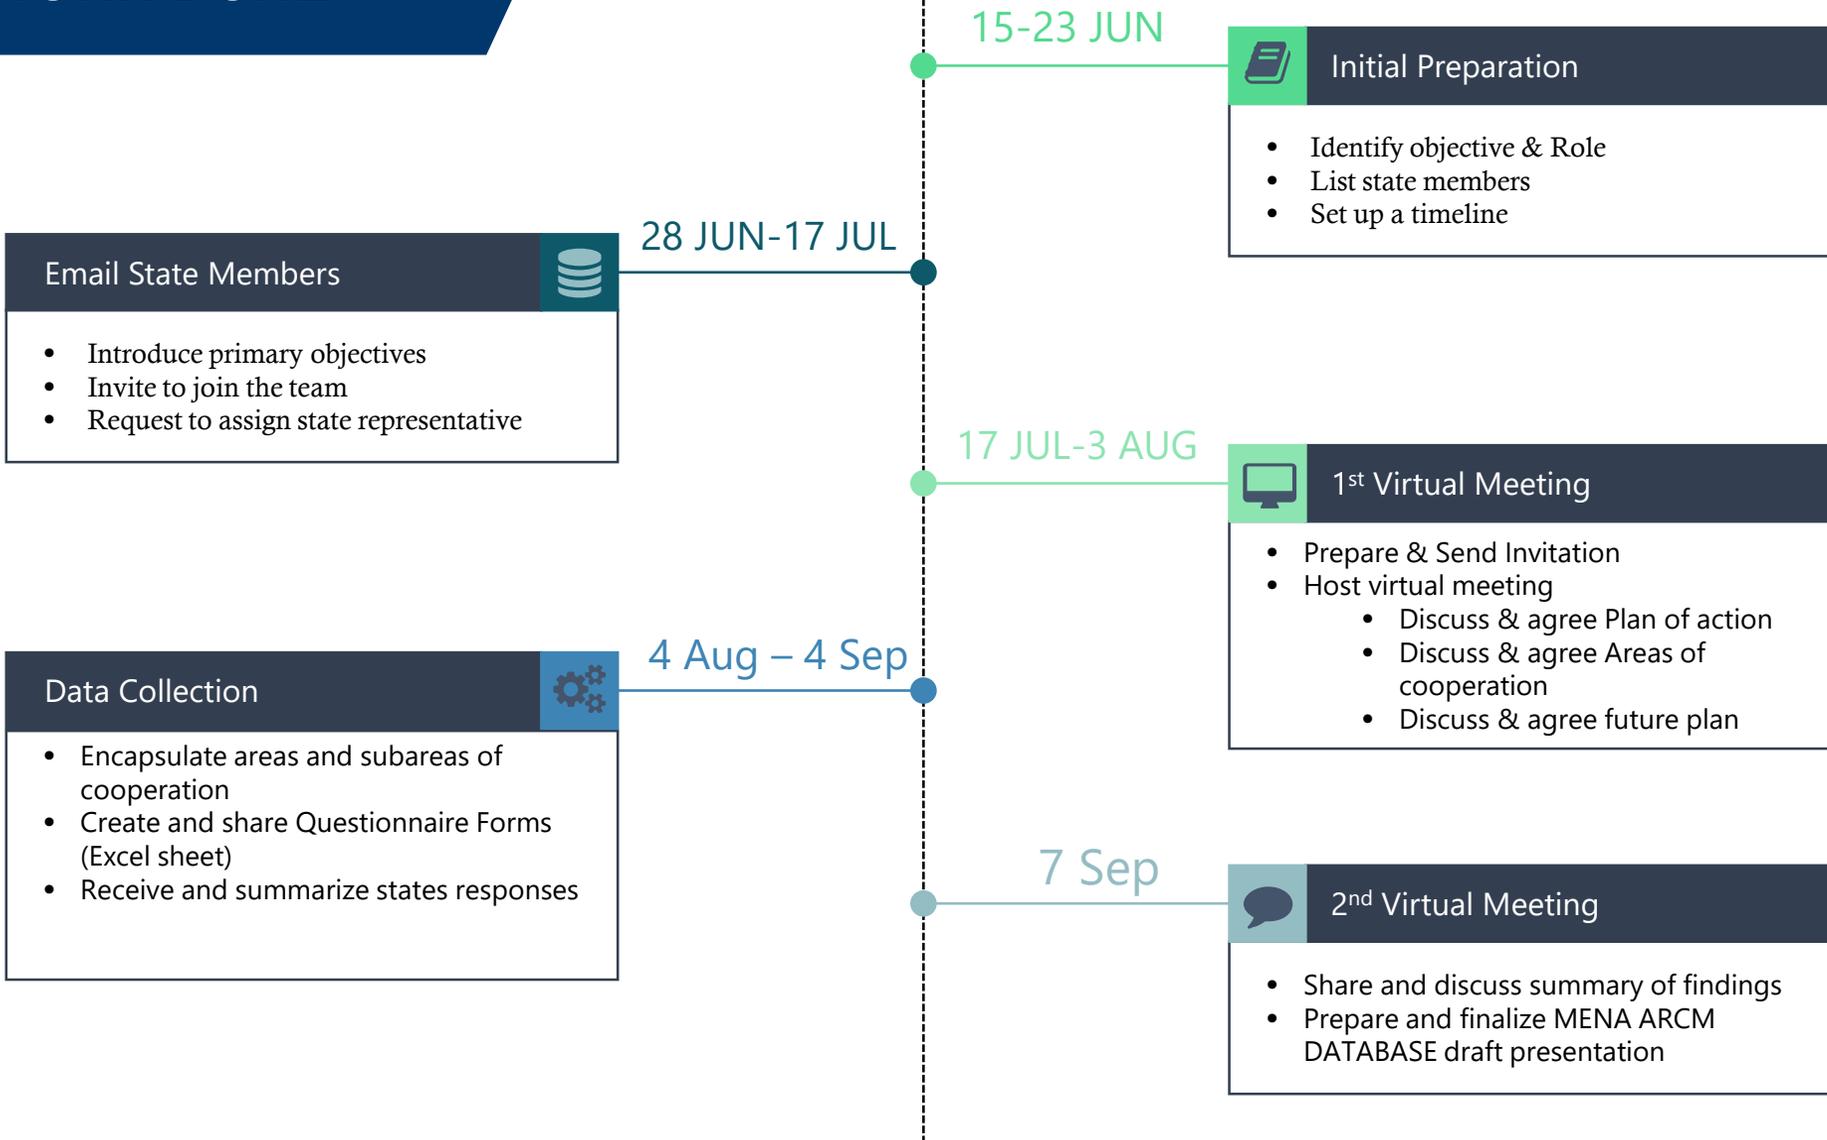

Motives & Benefits

- ❑ Facilitate multi-lateral technical cooperation and collaboration
- ❑ Technical assistance in accidents and incidents investigation
- ❑ Enhance member states compliance to Annex 13
- ❑ Make utmost use of AIG resources available including expertise, training capabilities, equipment, investigation know-how and information, standards and guidance.

Workshops in brief

- ❑ Discussed and agreed importance of database
- ❑ Discussed and agreed on the roadmap
- ❑ Discussed and agreed areas of cooperation
- ❑ Finalized recommendation and final presentation

Final Presentation at MENA ARCM Committee Meeting 11-12 SEP

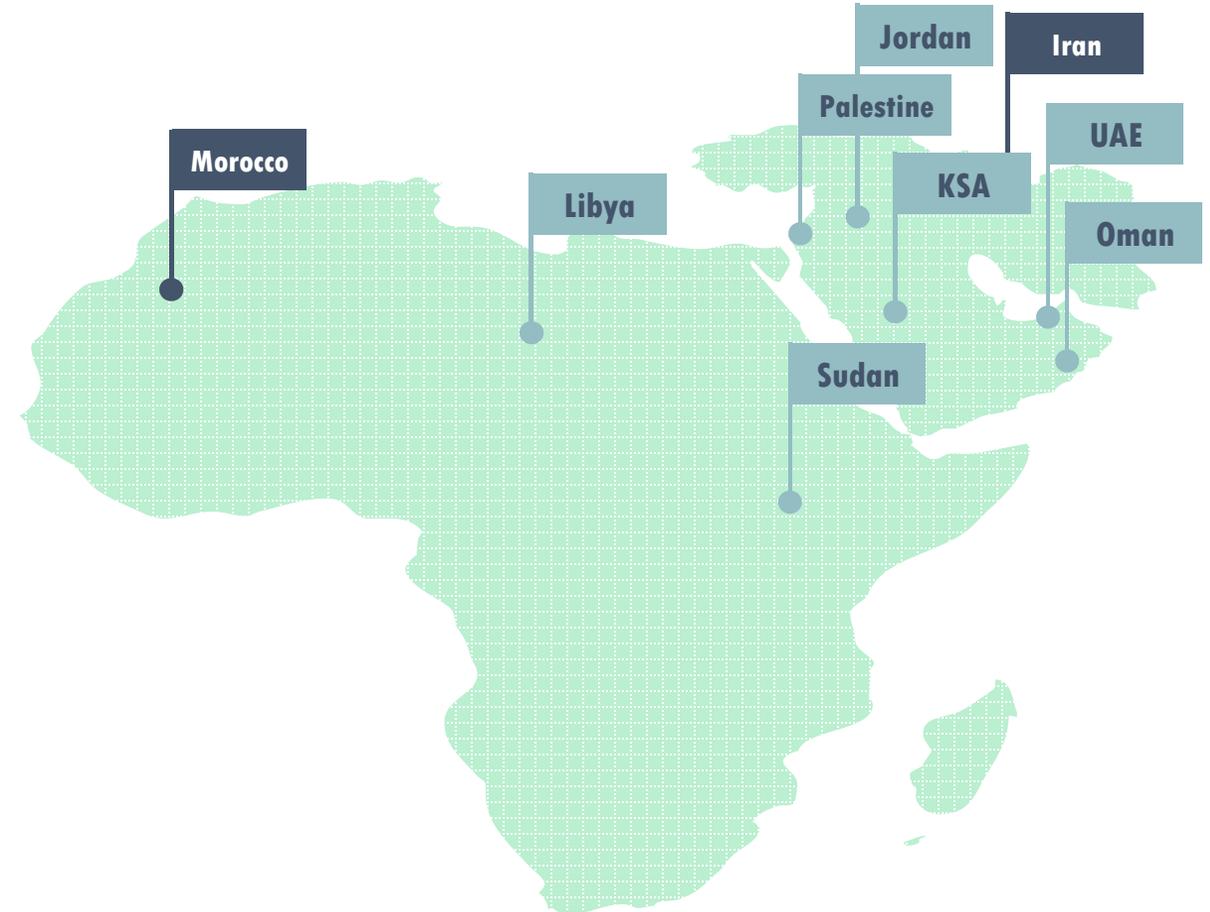

AREAS OF COOPERATION

Areas	Investigation Expertise	Tools & Equipment	Reports	Process and procedure Manuals	Training	LAB	Delegation of investigation	Safety recommendations
Sub- areas	Names or Organization	Aerial photography (Drones)	Reporting analysis	Investigation manuals	OJT	Downloading FDR& CVR	facility	Mechanism
	Expertise (Human factor, cyber security, operations, Engineering, Air navigation ATC, FDR& CVR, Metallurgy)	Simulator, FARO, Animation Software, hydrophones, ROV & Sonars	Investigation reports	Practices for writing manuals	Bi-annual Sharing plans	Animation	Examination area	Repository
		Field investigation kits	Peer review before publication	Developing manuals	Drills	Metallurgy Analysis	Expertise	Promotion
				Drafting, consulting, publishing, implementation, assessment		FDR/CVR Analysis	Wreckage storage	Technical Category
				References				Follow-up

3. Summary of Findings

Not Participated

8 Areas of cooperation were included in the data collection phase

(Investigation Experts, Tools & Equipment, Reports, Process & procedures, Training, Eng. Lab, Delegation of Investigation, Safety recommendation)

DATA COLLECTION - OVERVIEW

Libya

6 FUTURE WORK PROGRAMME

1. Adoption of the provisional agenda and election of MENA ARCM Coordinator

The subject was addressed in WP/1 presented by the secretariat

- ❑ The meeting reviewed and adopted the provisional Agenda
- ❑ Eng. Albaraa (Director of Engineering Lab), Accident Investigation Bureau, KSA was unanimously elected as the Coordinator for the MENA ARCM.

2. Development of the MENA ARCM database Platform

The Subject was addressed in PPT 1, the meeting was apprised with appreciation of the work achieved by the MENA ARCM Database Team presented by the MENA ARCM coordinator

- ❑ The meeting noted that Questionnaire on the database was circulated to the MENA ARCM member States. It is also noted that 7 States (Jordan, Libya, Palestine, Oman, Saudi Arabia, Soudan and UAE) only replied to the Questionnaire and provided the data.
- ❑ In addition, the meeting urged the remaining States to provide their replies to the coordinator as soon as possible within 15 days.
- ❑ The meeting noted with appreciation the action plan (working program) for the next 6 months, presented by the coordinator.
- ❑ Accordingly, the meeting agreed on the developed database using initially the excel sheet. In addition, the meeting agreed to explore other option for the development of the platform.

3. MENA ARCM database Platform Management

The Subject was addressed in WP/4

- ❑ The meeting agreed on the followings:
 - ✓ ICAO will host the database supported by ACAO.
 - ✓ MENA ARCM coordinator to collect the data from the MENA ARCM member States in coordination with the assigned State Focal Point.
 - ✓ The coordinator to share the received / updated data with ICAO and ACAO.
 - ✓ ICAO and ACAO to circulate the received / updated Data among MENA ARCM member States.
 - ✓ The frequency of reporting / updating data to be biannually and as needed.
 - ✓ The coordinator to clearly define the area of cooperation / parameters.
 - ✓ The coordinator to collect the unscheduled trainings and be provided to ACAO and ICAO, so that to be circulated to the MENA ARCM member States.

4. MENA ARCM technical Assistance Mechanism

The Subject was addressed in WP/5

- ❑ The meeting noted with appreciation the proposal presented by UAE. The meeting agreed and tasked the MENA ARCM coordinator in coordination with the assigned focal points on the followings:
 - ✓ To review and study the UAE proposal in order to come out with the draft form, processes and procedures.
 - ✓ To develop KPI, so that to measure the MENA ARCM's performance (assistance mechanism)
 - ✓ To develop the non-disclosure agreement.

5. Questionnaire on Establishing a Platform for Sharing Safety Recommendations Analysis

The subject was addressed in WP/3

- The meeting noted with appreciation the analysis of the questionnaire presented by the secretariat.
- The meeting recognized the importance of establishing a platform on sharing safety recommendations. However, at this initial stage of developing database, the meeting agreed to postpone the discussion on the establishment of the platform for the 4th MENA ARCM meeting.

6. Future work program

The subject was addressed in WP/6

- ❑ The meeting agreed that the 3rd MENA ARCM meeting to be tentatively held virtually on the Q1 2023. The exact date of the meeting will be coordinated with the Chairperson.
- ❑ The meeting agreed that the 4th MENA ARCM meeting to be held on the 18th September 2023 back-to-back with AIIG/3 (19 – 21 Sep 2023). Morocco offered to host both meetings.

Thank You
