Latest developments related to ATM/SAR in your State/ANSP/ORG;

g) New longitudinal Sep. minima

Recommendations

1. Expected traffic targeting Cairo FIR during FWC QATAR 2022 to allow early prediction of air traffic.
2. Establish time plan till opening of **FWC QATAR 2022** followed by action of each concerned state.
3. Formulate on spot action group to handle all traffic challenges in FWC period starting from the opening match till final match.
4. Establish inter-regional coordination meetings with other ICAO regional offices
5. Achieve direct coordination between ICAO MID office (with considering QATAR FIR a champion with all affected states in the region) & EUROCONTROL
