14 April 2025

Subject: Postponement of the Symposium on “Advancing UAS and AAM for a Sustainable Future” Casablanca, Morocco, 19-21 May 2025

Sir/Madam,

In reference to state letter Ref:1/7-25/019 dated 2 February 2025 and after careful consideration, the International Civil Aviation Organization (ICAO) Middle East Regional Office and the Arab Civil Aviation Organization (ACAO) regret to inform you that the Symposium on “*Advancing Unmanned Aircraft Systems (UAS) and Advanced Air Mobility (AAM) for a Sustainable Future*”, originally scheduled for 19–21 May 2025 in Casablanca, Morocco, will be postponed to 2026.

The decision to reschedule the symposium was made to ensure optimal participation and engagement from all relevant stakeholders and to allow for further refinement of the programme to address emerging challenges and developments in the integration of UAS and AAM into national and global aviation ecosystems.

We understand the inconvenience this may cause and deeply value your understanding. Our priority remains delivering a symposium that drives actionable collaboration between regulators, industry leaders, and innovators.

Thank you for your continued partnership and enthusiasm for this important initiative. We look forward to welcoming you to a more impactful event in 2026 and advancing the dialogue on sustainable aviation together.

Accept, Excellency, the assurances of my highest consideration.

Abdennebi Manar
Director General of ACAO
