Report on Agenda Item 5.6

---

**REPORT ON AGENDA ITEM 5.6: HARMONIZATION OF THE MID BASIC ANP AND FASID DOCUMENTS**

5.6.1 The meeting may recall that on 26 February 1997, the ICAO Council decided that the regional air navigation plans (ANPs) should be published in two volumes as follows: a Basic ANP and a Facilities and Services Implementation Document (FASID). The Basic ANP will include stable plan material whereas the FASID was to set forth the dynamic material from the plan and also include appropriate guidance material, particularly with regard to implementation, to complement the material contained in the Basic ANP.

5.6.2 The Sub-Group noted that, to date, the MID Basic ANP and FASID Documents are still considered as Draft working Documents awaiting inclusion of additional materials and slight adjustments/amendments based on experiences gained in the finalization of the BASIC ANP and FASID Documents for other ICAO Regions. It is intended to present to the MIDANPIRG/7 Meeting a final draft with the inclusion of updated materials emanating from the relevant Sub-Groups.

5.6.3 The Sub-Group agreed that the Secretariat will update the draft Basic ANP documents as a result of the thorough analysis carried out by the meeting on the ATS route requirements for the MID Region with a view to have the documents approved by the States and ICAO in early 2002.
