Understand the relationship between UAS regulations, conventional aircraft regulations, forthcoming RPAS provisions and the State Safety Programme

Establish a UAS framework and oversight system in collaboration with internal UAS stakeholders

UAS Deployment

Establishing a
Regulatory Framework for
Unmanned Aircraft Systems
(UAS)
Implementation Package

www.icao.int/iPack

- Deployed Sep 2022
- Completed Dec 2022
- Supported Jordan CAA to develop UAS regulatory framework.

USOAP iPack main Objectives Libya

Assist and guide

Assist and guide civil aviation experts in their preparation for an ICAO USOAP activity

Conduct

Conduct Self-Assessment and provide relevant evidence in preparation for an USOAP activity.

Develop and update

develop and update viable CAPs that effectively address audit findings.

USOAP iPack Deployment

- Deployed Sep 2022
- Completed Dec 2022
- Supported Libya CAA personnel to perform PQs self-assessment, identify deficiencies, and develop corrective action plan.

Aerodrome iPack main Objectives (Libya)

The conditions of aerodrome infrastructure;

The procedures relating to aerodrome operations;

The status of aerodrome certification and compliance;

The coordination and collaboration processes required at an aerodrome; and

The aerodrome related human resources, competency and training requirements.

Aerodrome iPack main Deliverables (Libya)

An action plan to address discrepancies identified.

A dashboard for the aerodrome restart activities.

A plan for phasing out alleviations for aerodrome restart.

A report of possible changes in the areas of aerodrome operation

A plan for phasing out alleviations for aerodrome restart

Updated aeronautical information pertaining to aerodrome restart

A report of aerodrome certificate status, and the actions for its ongoing process.

Meetings for coordination with service providers and other relevant stakeholders for phased planning of restart.

Coordinated list of Groups and Committees including key stakeholders

The training needs assessment

workshop on root cause analysis and successful corrective action plans

Aerodrome Restart Deployment

- Started August 2022
- Completed September 2022

Action by the Meeting

- a. *note the updated progress on iPacks deployment.*
- b. *encourage States to deploy and use iPacks*
