WORKING PAPER

A36-WP/366

P/64

26/9/07

Corrigendum No. 1

27/9/07

ASSEMBLY — 36TH SESSION

REPORT OF THE TECHNICAL COMMISSION ON AGENDA ITEMS 32 AND 36

CORRIGENDUM NO. 1

Please *replace* paragraph 36.2 of Working Paper A36-WP/366 by the following text:

36.2 With respect to the proposed amendments to Resolving Clauses 3 and 4 of Appendix A to Resolution A35-14, several concerns were expressed by a Contracting State relating to the removal of the text “any technical specification necessary to achieve these requirements shall be appendices to Annexes”; to the placement of supporting technical specifications in separate documents; and to the legal validity of the procedure whereby Council would have to approve material developed by other standards-making organizations as meeting ICAO requirements. The delegate proposed that Appendix A to Resolution A35-14 remain unchanged in light of the information provided to the Technical Commission in Addendum No. 1 to WP/63 presented by the Council of ICAO under Agenda item 25. The Commission was reassured by the Secretary that the intention was to strengthen the recent urging by the Council for SARPs to be performance based and less technically oriented; and, in light of budgetary cuts which would take effect from the beginning of the next triennium, to avoid duplication of effort and to determine how ICAO and technical standards-making organizations could best support each other’s work.
