

**SPEED IDENTITY®**

The travel document production chain is no stronger than its weakest link...

**Do we focus on the right elements?**

SPEECH BY: \_\_\_\_\_  
*Magnus Svenningsson CEO, Speed Identity, Sweden*

**SPEED IDENTITY®**

## Agenda

1. Globalization and stricter security requirements are driving the demand for more travel documents.
2. Post 9/11 - new emerging threats are requiring heightened security.
3. The production chain is no stronger than its weakest link - are we focusing on the right elements?
4. As a technology, live enrollment provides maximum security, reduces costs and improves service for customers.
5. Our offering.

**SPEED IDENTITY®**

**800 MILLION - 1 BILLION PASSPORTS IN CIRCULATION WORLDWIDE**

**700-750 MILLION NEW ID-DOCUMENTS AND PASSPORTS YEARLY**

**160-200 MILLION NEW PASSPORT WORLDWIDE YEARLY**

**SPEED IDENTITY®**

## Demand for passports will continue to grow

- In Sweden, demand for passports will double by 2015.
- Increased traveling is not the only reason why demand is increasing
  - shorter validity periods for documents are also pressuring demand.

**SPEED IDENTITY®**

**GLOBAL THREATS  
9/11 CHANGED  
THE WORLD**

- New threats require new security solutions.
- The industry is delivering - but the ICAO and national authorities are an invaluable driving force for developing security solutions.

**REGERINGSKANSLIET**

“Against the background of the increased threat of terrorism attacks in Europe, the Ministry of Foreign Affairs advises Swedish travelers to be more vigilant and exercise general caution. You should be watchful in public places, in and around public buildings, at tourist attractions, when using public transportation, and when visiting shopping centers and other places where many people gather.”

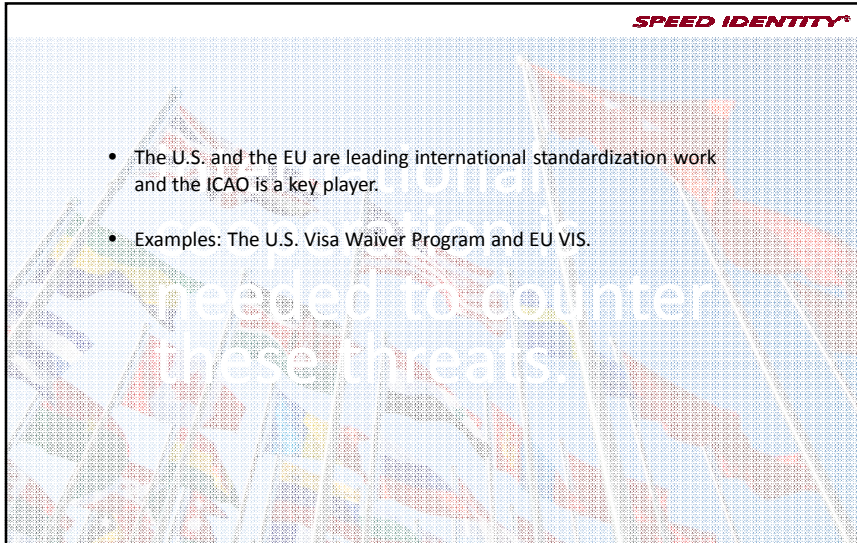

**SPEED IDENTITY®**

**WHO IS WHO?**

**SPEED IDENTITY®**

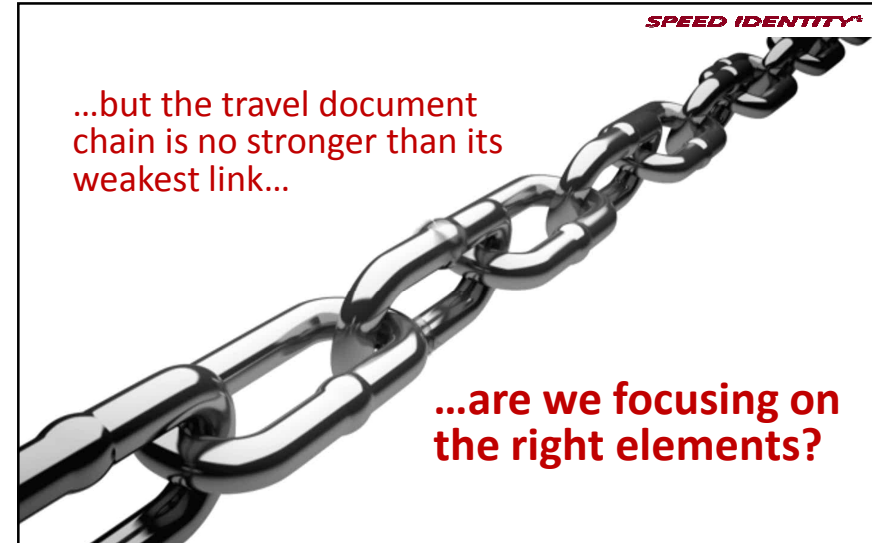

- The U.S. and the EU are leading international standardization work and the ICAO is a key player.
- Examples: The U.S. Visa Waiver Program and EU VIS.

needed to counter these threats.

**SPEED IDENTITY®**

...but the travel document chain is no stronger than its weakest link...

...are we focusing on the right elements?

**SPEED IDENTITY®**

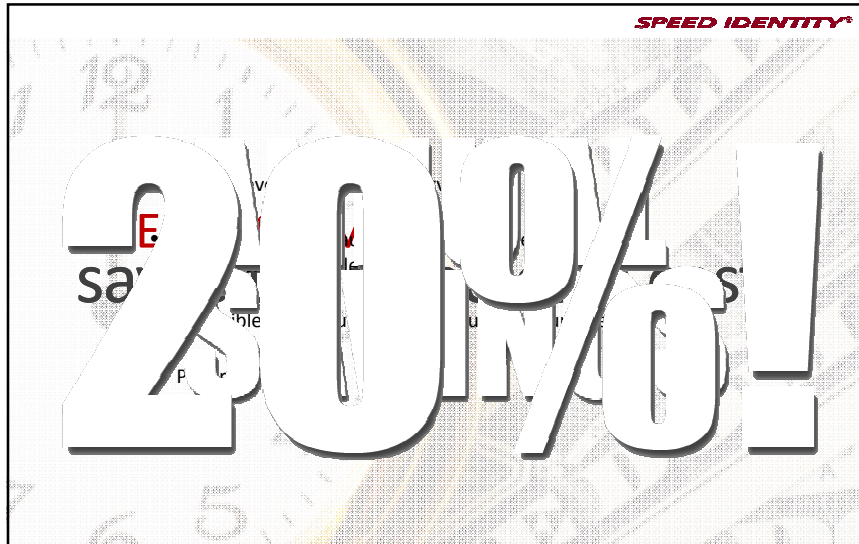

ID-Control    Data-Capture    Decision    Production    Identification Verification

**SPEED IDENTITY®**

- Secure and controllable gateways into the system.
- Secures identity and quality.
- Superior to all known techniques.
- Data can not be manipulated when transferred through the production chain.
- When you use equipment to verify a person's ID, you minimize the human risk factor.

**LIVE ENROLLMENT**  
optimizes security

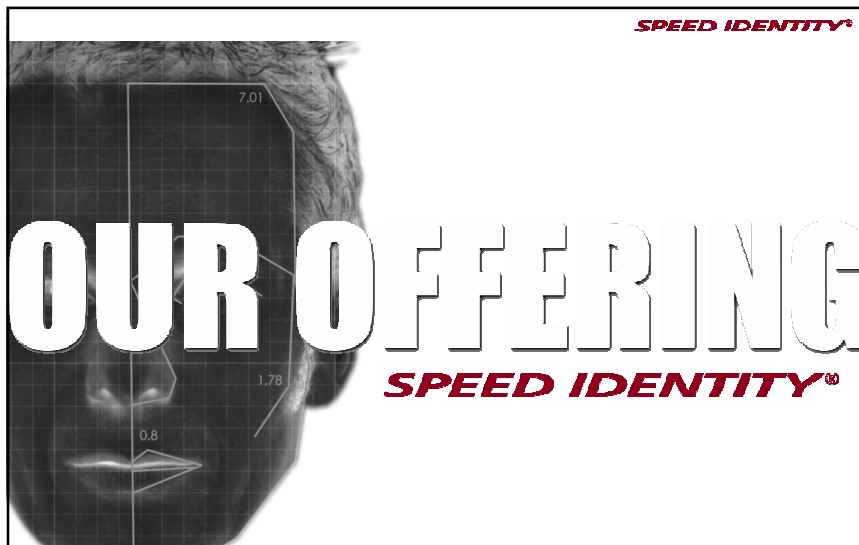

**LIVE ENROLLMENT**

improves public service

- Today, the general public is security-conscious and appreciates biometric solutions and automated systems.

**SPEED IDENTITY**

**G3 – Place ability (stationary)**

- Adjustable in height
- Signature pad with true ballpoint feeling
- Built-in sensors with protection against wear and tear
- Lighting conditions fulfills the requirements from the ISO standard IEC 19794-5/FPDAM 1

**SPEED IDENTITY**

**SPEED IDENTITY®**

## G3 – Place ability (mobility)

- Mobile environments
- ICAO-compliant
- Easy integration into existing IT-environments
- Equipped with a RFID-chip reader and an OCR-kod reader
