Caribbean Tourism Trends

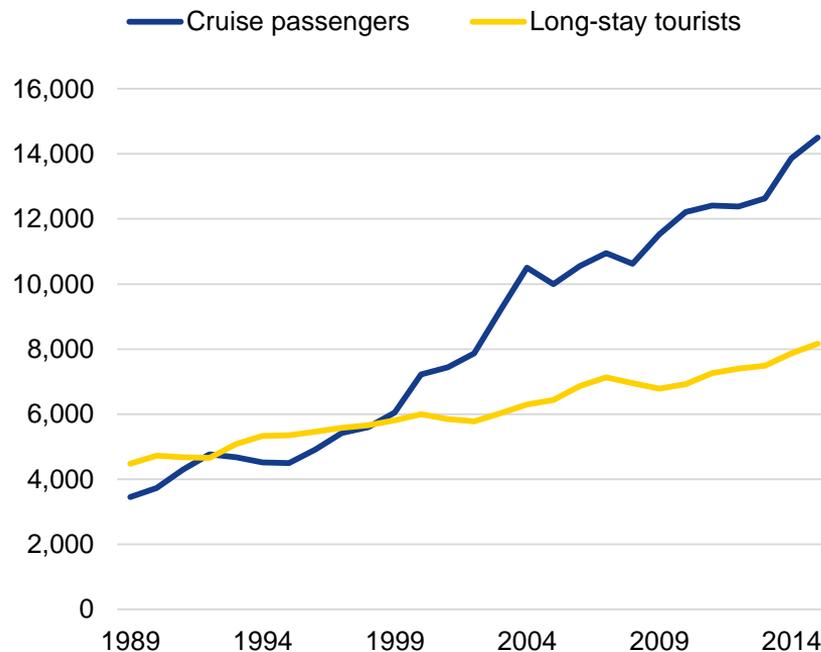

Arrivals Index

(1990=100)

Arrivals Index

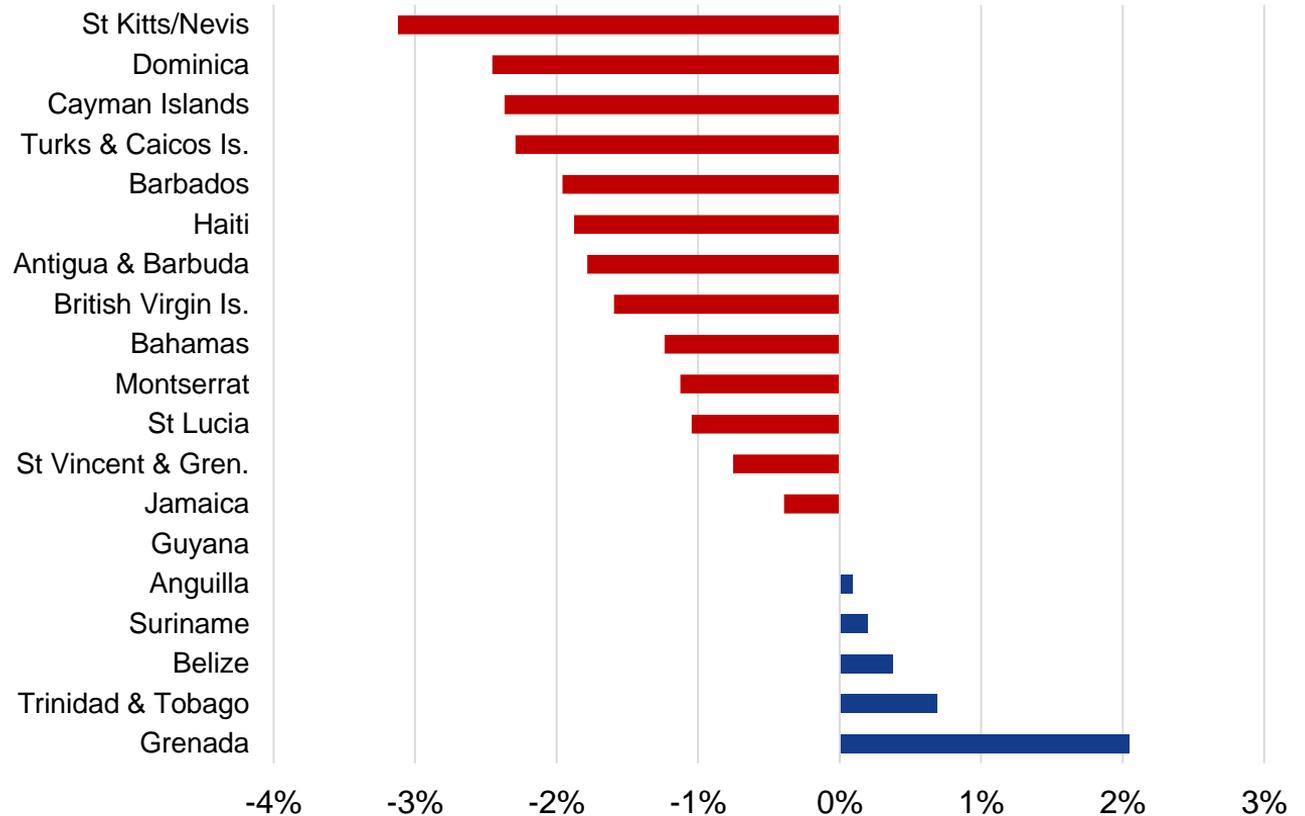

(in thousands)

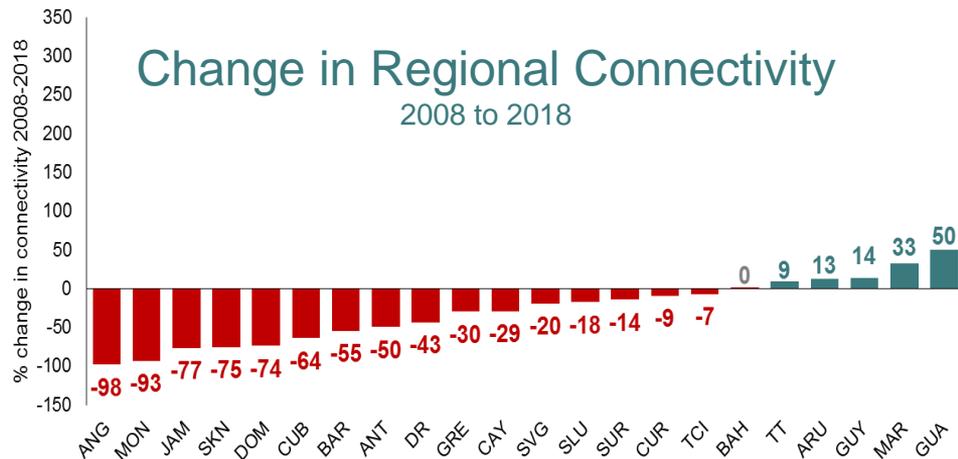

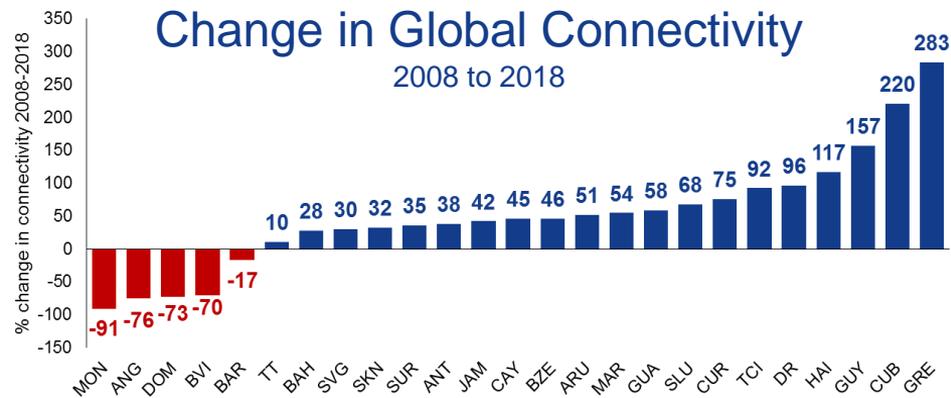

Caribbean Tourism Trend

Expenditure per Visitor Annual Growth Rate

Caribbean Connectivity

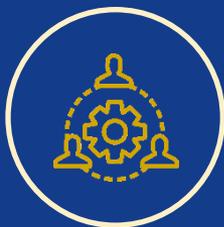

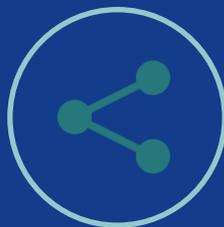

Policy imperatives for Improving the Industry Product Mix

Leveraging tourism as a tool for **economic development**

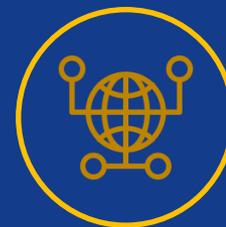

Organising the tourism industry

Developing **economic linkages and inclusion**

Exploring further opportunities for **regional collaboration**

Preparing for the *industry of the future* – embracing **digitalization** where possible

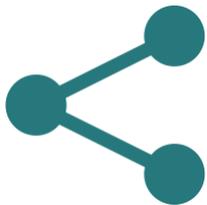

Organizing the tourism industry

Understanding the industry
value chain

Developing economic linkages

Focusing on **inclusivity to increase local economy impact** by really forging backward and forward linkages

Exploring opportunities for further collaboration

- Integration and collaborations between airlines and local hotels to increase load factor and heads in beds;
- Integration and collaborations amongst hotels region wide to take advantage of economies of scale;
- Greater inclusivity would require improved collaboration with local service and goods providers.

**Preparing for the
travel and tourism
industry of the future
– embracing
digitalization where
possible**

**Artificial
Intelligence**

**VR/AR
Technology**

Blockchain

**Human-
Computer
Interaction**

**New Energy
Revolution**

**GIS
Technology**

**Internet of
Things**

**Cloud
Computing**

For a genuine smart product mix...
