

How Education Promotes Women in Engineering/Aviation industry

Lili ZHENG

**School of Aerospace, Tsinghua University,
Beijing, CHINA**

**Global Aviation Gender Summit
Cape Town, South Africa, 8 - 10 August, 2018**

Questions to be answered

- **What engineers do and what is engineering about?**
- **Which part of the aviation industry has the lowest ratio of women?**
- **What is the average ratio of the female to total students in mechanical engineering major in high education (college level) ?**

Promoting Women in Aviation

College education:

Females to total about 10 – 15%

Efforts being made:

Early education from primary – high school

=> inspiring more into engineering

College education – all sorts of programs

=> inspiring more choosing career in engineering

Overcome the barrier:

Each family, mom/dad => increase the base number

Employment => opportunity for career development
