

ICAO

UNITING AVIATION

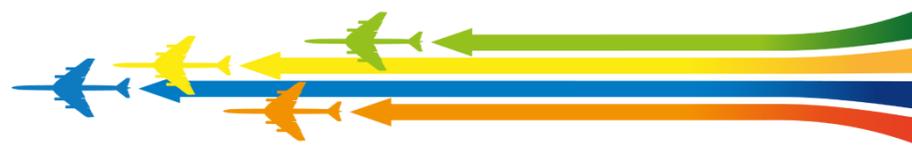

E-GAP

ICAO Global Aviation Partnerships on Emissions Reductions (E-GAP) Multiplying Environmental Action

Economic Community of Central African States

ECCAS

Background

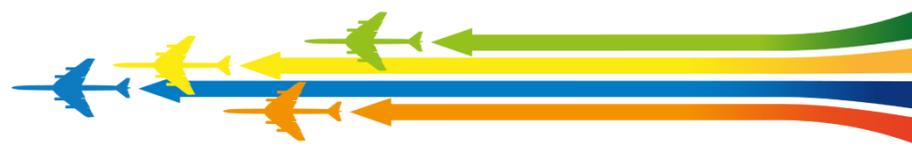

ICAO-EU Project in the ECCAS States

Project 'Kick-off Seminar'
Yaoundé, Cameroon 3-6 February 2015

Mission to the Republic of the Congo
16-19 March 2015

Aviation Environmental Systems

AES

Emissions monitoring

Development of tools

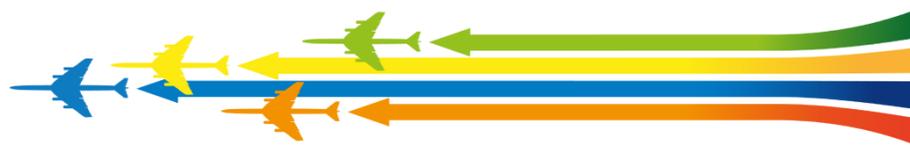

Provision of IT Equipment

IT Equipment for Equatorial Guinea

IT Equipment for Burundi

AES Training in Cameroon

ICAO-EU Project in the ECCAS States

- Exchange of information and best practices
- Network of focal points and experts for environmental protection
- Regional approach
- Involvement of regional actors: ASECNA, ECCAS, AFCAC
- No country left behind

ICAO

UNITING AVIATION

E-GAP

Moving Forward

-  Involvement of regional economic groups for financial support: ECCAS, African Development Bank, ASECNA
-  Implementation of mitigation measures for emissions reduction on a regional approach
-  Recipe to be replicated in other regions under the 'No Country Left Behind' scheme

What difference does the ICAO-EU Project make for the ECCAS States??

No country left behind

African countries assisted to comply ICAO GA Resolutions and best practices on Environmental Protection

Evolution from standard policy making to implementation phase

Action Plans developed by States with permanent support from ICAO through the implementation stage and to seek other financial partners

Enhanced awareness of stakeholders about the CO₂ emission issues in civil aviation and the necessity to take concrete actions

The project promotes ongoing discussions to incentive measures in the different States

What difference does the ICAO-EU Project make for the ECCAS States??

Consideration of the project framework as part of a national program

e.g.: Stakeholders are now undertaking initiative to include the project in their current ongoing activities

NAPT meeting in Gabon 29 January 2015

NAPT meeting in Sao Tome 26 August 2015

Creation of a common forum for discussions and joint actions amongst stakeholders

Enhanced collaboration amongst the relevant stakeholders

Contribution
to the dialogue
of stakeholders

NAPT meeting in Cameroon
3 August 2015

- ✿ Definition of a country strategy and detailed action log
- ✿ Coordination of various initiatives into a common strategy
- ✿ Common understanding of key aspects and concepts related to the reduction of CO₂ emissions in civil aviation
- ✿ Structured methodology for information sharing
