

AVIATION OPERATIONAL
MEASURES FOR FUEL AND
EMISSIONS REDUCTION
WORKSHOP

Implementation

Implementation
Ottawa, 5-6 November 2002

What Can Each of Us Do?

- Manufacturers
- Airports
- Operators
- Air Traffic Service Providers
- Government Regulators
- Other Stakeholders

Issues Related to Implementation

Priorities / Limitations

- Safety
- Legal/Regulatory
- Environmental Tradeoffs
- Flexibility to adapt to changed circumstance

Issues Related to Implementation

- Co-operation among stakeholders
- Political will
- \$\$\$\$
- Telling the “success story”
- Not a basis for regulatory action

Basis for Voluntary Agreements

- Operational Measures represent industry “best practices”
- Reductions are REAL
- Could be basis for voluntary agreements with regulators
- Credit for early action

Discussion

✈️ Panels:

- ✧ Aircraft
- ✧ Air Traffic Management
- ✧ Airline Planning
- ✧ Flight Operations
- ✧ Airport Airside
- ✧ Airport Groundside
