

ICAO Facilitation Regional Forum

Ulaanbaatar, Mongolia
7 to 8 July 2025

Hosted by:

FUTURE OF FACILITATION

ALTANGEREL Enkhtur

General Manager
Civil Aviation Authority of Mongolia

WHAT IS A FACILITATION ?

Facilitation aims to ensure the smooth, safe, and efficient movement of people and goods across borders, while upholding security, protecting public health, and respecting national sovereignty.

Safe, efficient, seamless cross-border movement

Balance between security, health, sovereignty, and passenger convenience

A NEW ERA IN FACILITATION

Post-COVID digital
expectations

Need for faster,
contactless,
personalized air travel

Agencies under
pressure for stronger
security and public
health controls

Goal: Digitally advanced, regionally integrated facilitation

Objective: Leadership role in regional collaboration

MONGOLIA'S STRATEGIC VISION

Mongolia is embracing innovation in air transport, not only to meet global standards, but to help shape the future of regional travel.

KEY NATIONAL INITIATIVES

- 01** NATFP (2010) – Multi-agency cooperation framework
- 02** API/PNR Systems – Risk-based, pre-arrival passenger screening
- 03** Biometric e-Gates – Contactless identity verification at Chinggis Khaan Airport
- 04** AI Integration – Smart border management & predictive analytics
- 05** Law on personal data protection /2022/ - Enabling digital transformation and data privacy

BENEFITS OF AI IN FACILITATION

Detect high-risk
travelers

Optimize
passenger flows

Enhance staffing
decisions

Enable
emergency
simulations

BENEFITS OF AI IN FACILITATION

Limited infrastructure in rural areas

Cybersecurity concerns

Workforce upskilling needs

Data privacy and consent issues

SUSTAINABLE FACILITATION

Thank You
