

Bio Information

Speaker's Name:

Mr. Erick Ferrandez

Affiliation/Company:

European Aviation Safety Agency (EASA)

Title/Position:

Manager Int'l Technical Cooperation

Brief Biography of Speaker:

Erick has more than 20 years of experience in civil aviation. Aeronautical engineer by formation (he holds a master degree from ENAC, the French National School for Civil Aviation), he spent half of his career in the Flight Operations domain where he specialised on aircraft performance and Flight Operation systems. He gained his operational experience from both a manufacturer perspective working for the Airbus Customer Services and also from an airline perspective as he worked for US Airways in the USA.

In the second part of his career, Erick worked on safety data management and finally joined EASA 7 years ago. He is today the head of the Technical Cooperation Section, managing the section in charge of implementing the Civil Aviation Cooperation projects led by EASA.
