## Questions for GLADs Dialogues

Theme of Dialogue 1: Developing a global MBM for International Aviation

Questions:

- 1) What are the most important considerations in the design of a global MBM for international aviation (name 3)?
- 2) What are practical ways of addressing differentiation (CBDR, SCRC) in the design of a global MBM scheme without impacting the non-discrimination principle in the Chicago Convention (name 3)?
- 3) What are the 3 things that would cause you to agree in 2016; what are the 3 things that would cause you to disagree?

Theme of Dialogue 2: Implementation challenges and Next Steps

Questions:

- 1) What are the most important features for implementing an MBM, for a State? for an operator? (name 3 each)?
- 2) What are the most important considerations for emissions units (name 3) ?
- 3) What additional information do you need now, bearing in mind that there will be another round of GLADs in 2016 (name 3)?
