

Brazil's text proposals in relation to the preamble, paragraph 17 and paragraph 19.

PPalt Whereas the UNFCCC provides for market-based mechanisms, such as the Clean Development Mechanism (CDM) and the market mechanism established by paragraph 4, Article 6 of the Paris Agreement, to contribute to the mitigation of GHG emissions and to support sustainable development, which benefit developing States in particular.

17bis Decides that emission units generated from mechanisms established under the UNFCCC are automatically eligible for CORSIA.

19alt Decides that the CORSIA will use emissions units that meet the Emissions Unit Criteria (EUC) in paragraph 17 above, requests the Council to promote the use of emissions units generated from mechanisms established under the UNFCCC that benefit developing States, and encourages States to develop domestic aviation-related projects.
