

IATA's proposal on timing and modalities for voluntary participation in the MBM scheme:

**7(e) In order to facilitate implementation of the MRV system and other administrative considerations, States who decide to voluntarily participate in the scheme in accordance with paragraph 7(d) may only do so from 1 January in any given year and they shall notify the Council of their decision by no later than 30 June of the preceding year.**

We have suggested this as an additional paragraph 7(e) but recognise that this may be more appropriately included at some other point in the text.
