

ICAO

SAFETY

2nd RPAS Symposium

Status of the ICAO Regulatory Framework

19 September 2017

Leslie Cary

ICAO RPAS Programme Manager

Unmanned aircraft are aircraft

Aircraft. *Any machine that can derive support in the atmosphere from the reactions of the air other than the reactions of the air against the earth's surface.*

The flying machine is an aircraft, not a system.

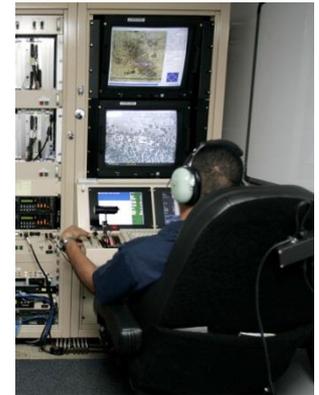

UA versus RPA

- Unmanned aircraft include:

- Free balloons
- Model aircraft
- Remotely piloted aircraft
 - Airspace/aerodrome integration requires control
 - Control, in real time, provided by a licensed remote pilot

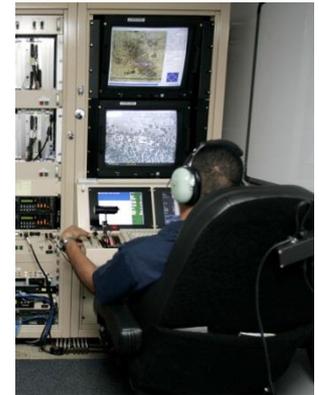

- Drones

UA versus RPA

- **Unmanned aircraft** include:

- Free balloons
- Model aircraft
- Remotely piloted aircraft
 - Airspace/aerodrome integration requires control
 - Control, in real time, provided by a licensed remote pilot

- Drones

UA versus RPA

- **Unmanned aircraft** include:

- **Free balloons**
- **Model aircraft**
- **Remotely piloted aircraft**

- Airspace/aerodrome integration requires control
- Control, in real time, provided by a licensed remote pilot

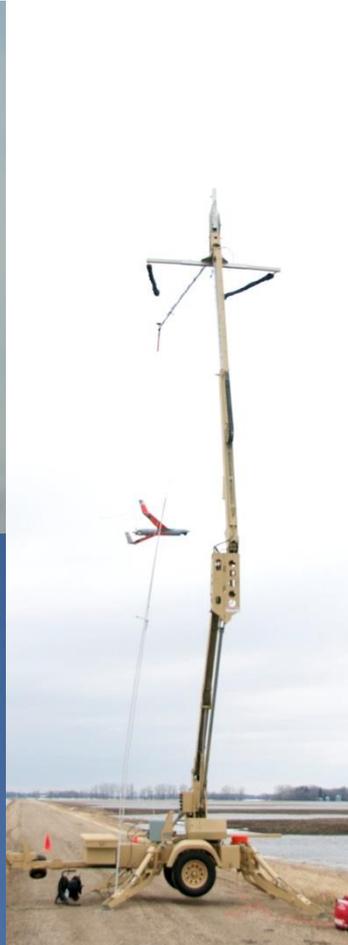

- **Drones**

SAFETY

Two Approaches – Two Streams of Work

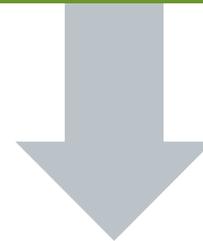

RPAS

Full aviation regulatory approach

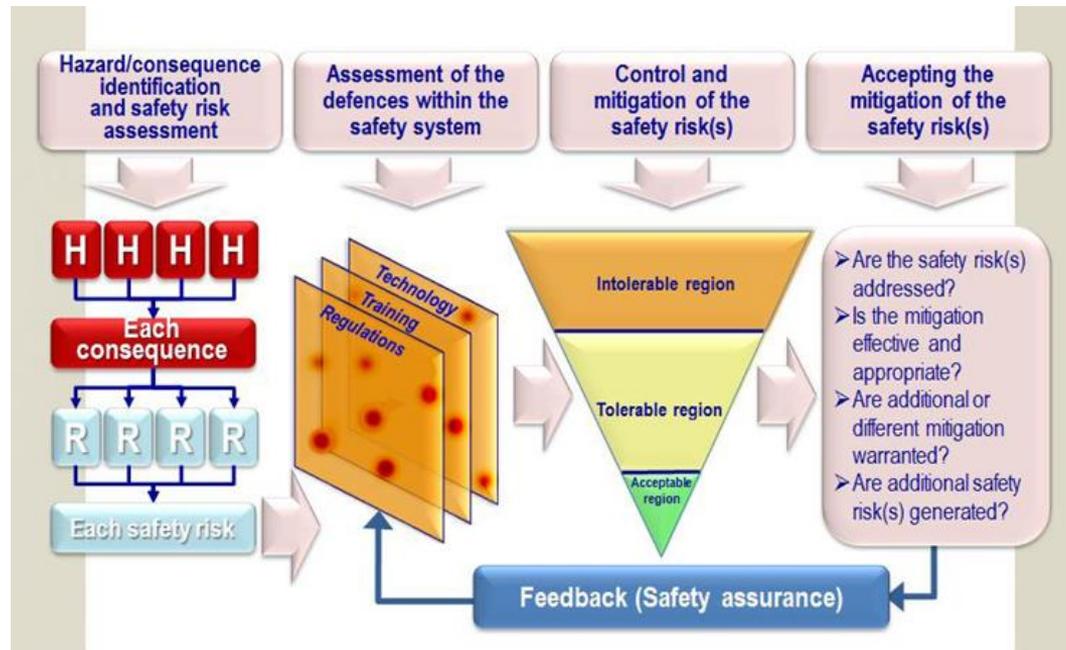

Other UAS

- UAS Toolkit
- UTM
- Registration
- Network deliveries

Operation-centric, risk-based approach

RPAS Workstream

Objective:

- RPA operate alongside manned aircraft, as a predictable, cooperative airspace user:
 - 18 of 19 Annexes affected

Annex 1 - Personnel Licensing

Annex 2 - Rules of the Air

Annex 3 - Meteorological Services

Annex 4 - Aeronautical Charts

Annex 5 - Units of Measurement

Annex 6 - Operation of Aircraft

Annex 7 - Aircraft Nationality and Registration Marks

Annex 8 - Airworthiness of Aircraft

Annex 9 - Facilitation

Annex 10 - Aeronautical Telecommunications

Annex 11 - Air Traffic Services

Annex 12 - Search and Rescue

Annex 13 - Aircraft Accident and Incident Investigation

Annex 14 - Aerodromes

Annex 15 - Aeronautical Information Services

Annex 16 - Environmental Protection

Annex 17 - Security

Annex 18 - The Safe Transportation of Dangerous Goods by Air

Annex 19 - Safety management

- **RPAS Panel**

- Developing the regulatory framework for RPAS to conduct IFR operations in controlled non-segregated airspace/aerodromes

- **Other ANC Panels supporting on technical matters**

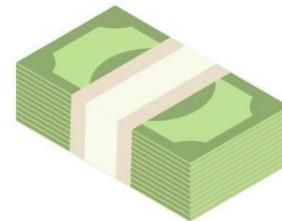

RPAS Panel deliverables

- **Licensing and training** – SARPs, PANS and guidance **2018**
- **Operations** – SARPs and guidance **2020**
- **Airworthiness + C2 Link** – SARPs and guidance **2020**
- **ATM** – SARPs and PANS **2020**
- **Detect and Avoid** (conflicting traffic, only) – SARPs and guidance **2020**

RPAS: Other work within ICAO

- Legal Committee
- Committee on Aviation Environmental Protection (CAEP)
- Aviation Security Panel (AVSECP)
- Air Navigation Services Economics Panel (ANSEP)
- Aerodrome Economics Panel (AEP)

Final thoughts

- Unmanned industry is rapidly evolving
- The complexity of unmanned aviation will challenge the traditional aviation regulatory system
- States are encouraged to establish and adopt performance-based regulations
