

### **Small Group Exercise 3: CO<sub>2</sub> Emissions Information Flow and Registry System**

#### **Introduction:**

According to the draft Annex 16, Volume IV, States and aeroplane operators are requested to comply with the draft Annex provisions in accordance with the timeline as defined in Appendix 1 of the draft Annex. Appendix 1 of the draft Annex summarises the administrative roles and responsibilities of the different stakeholders involved in CORSIA implementation, and provides a list of activities and the associated dates by which the activities shall be completed.

#### **Instructions for Small Group Exercise 3:**

The Appendix of this exercise includes a CORSIA phased implementation diagram, where key actions and deadlines have been replaced by fillable blank boxes. A larger print-out of the exercise has also been distributed to the small group, and the facilitator of your small group will take lead of filling in the implementation diagram. You can use this hard copy to make notes for your own records.

In the small group, and based on the information provided during the previous presentation and practical demonstration, please:

- Fill in the blank boxes with the missing actions (horizontal boxes) and deadlines (vertical boxes) included in the implementation diagram.
- *Note:* the actions, and the related dates, associated with the “calculator icon” in years 2022 and 2023 will be discussed in the next session.
