

**John Edward Tambi**

Senior Transport Advisor to the CEO & PICI Coordinator, New Partnership for Africa's Development (NEPAD)

Dr John E. Tambi is an Aviation and Transport Infrastructure Expert with more than 35 years of project management, planning, engineering, training, policy development, operations and economic analysis experience, with specialization in air, road, sea and rail transport modes. He is the Senior Advisor on Transport Infrastructure for the NEPAD Planning and Coordinating Agency, responsible for regional and continental transport programs and projects, as well as the Coordinator for the Presidential Infrastructure Champion Initiative. He served in senior and executive positions with one of the world's leaders in the Management of airports, ports, rail and transportation facilities – the Port Authority of New York and New Jersey, USA for ten years, and in major international consulting firms.

He has also served as an independent consultant to national governments, the United Nations and international lending institutions such as the African Development Bank. Dr Tambi was the Chairman and Transport Expert for the United Nations Monitoring Group for Somalia and the United Nations Panel of Experts for Somalia respectively (UN Security Council Resolutions: 1474, 1519 and 1558). He has a PhD and MSc in Transportation Planning and Engineering from the Polytechnic Institute of New York University, New York, USA, and an MBA and MAS (Master of Aeronautical Science) from Embry-Riddle Aeronautical University, Florida, USA, and a BSc in Aerospace Technology from the Indiana State University, Indiana, USA. Dr. Tambi also has operational experience as an airline pilot. He has a commercial pilot's license with instrument and multi-engine ratings, having received his training at the Oxford Air Training School, Oxford, England.

Dr. Tambi is a fellow of the African Scientific Institute (ASI) and a former Board member of the South African Airways (SAA). Dr. Tambi has over forty publications addressing Transportation and Aviation issues relating to Africa in several international journals and magazines. He is also a well sought-after speaker and Panel member at several international Aviation and Transportation conferences. He is an Expert on African Aviation and Transport Infrastructure development.
