

High-level roundtable: roadmaps towards zero emissions

John Holland-Kaye,
CEO – Heathrow Airport

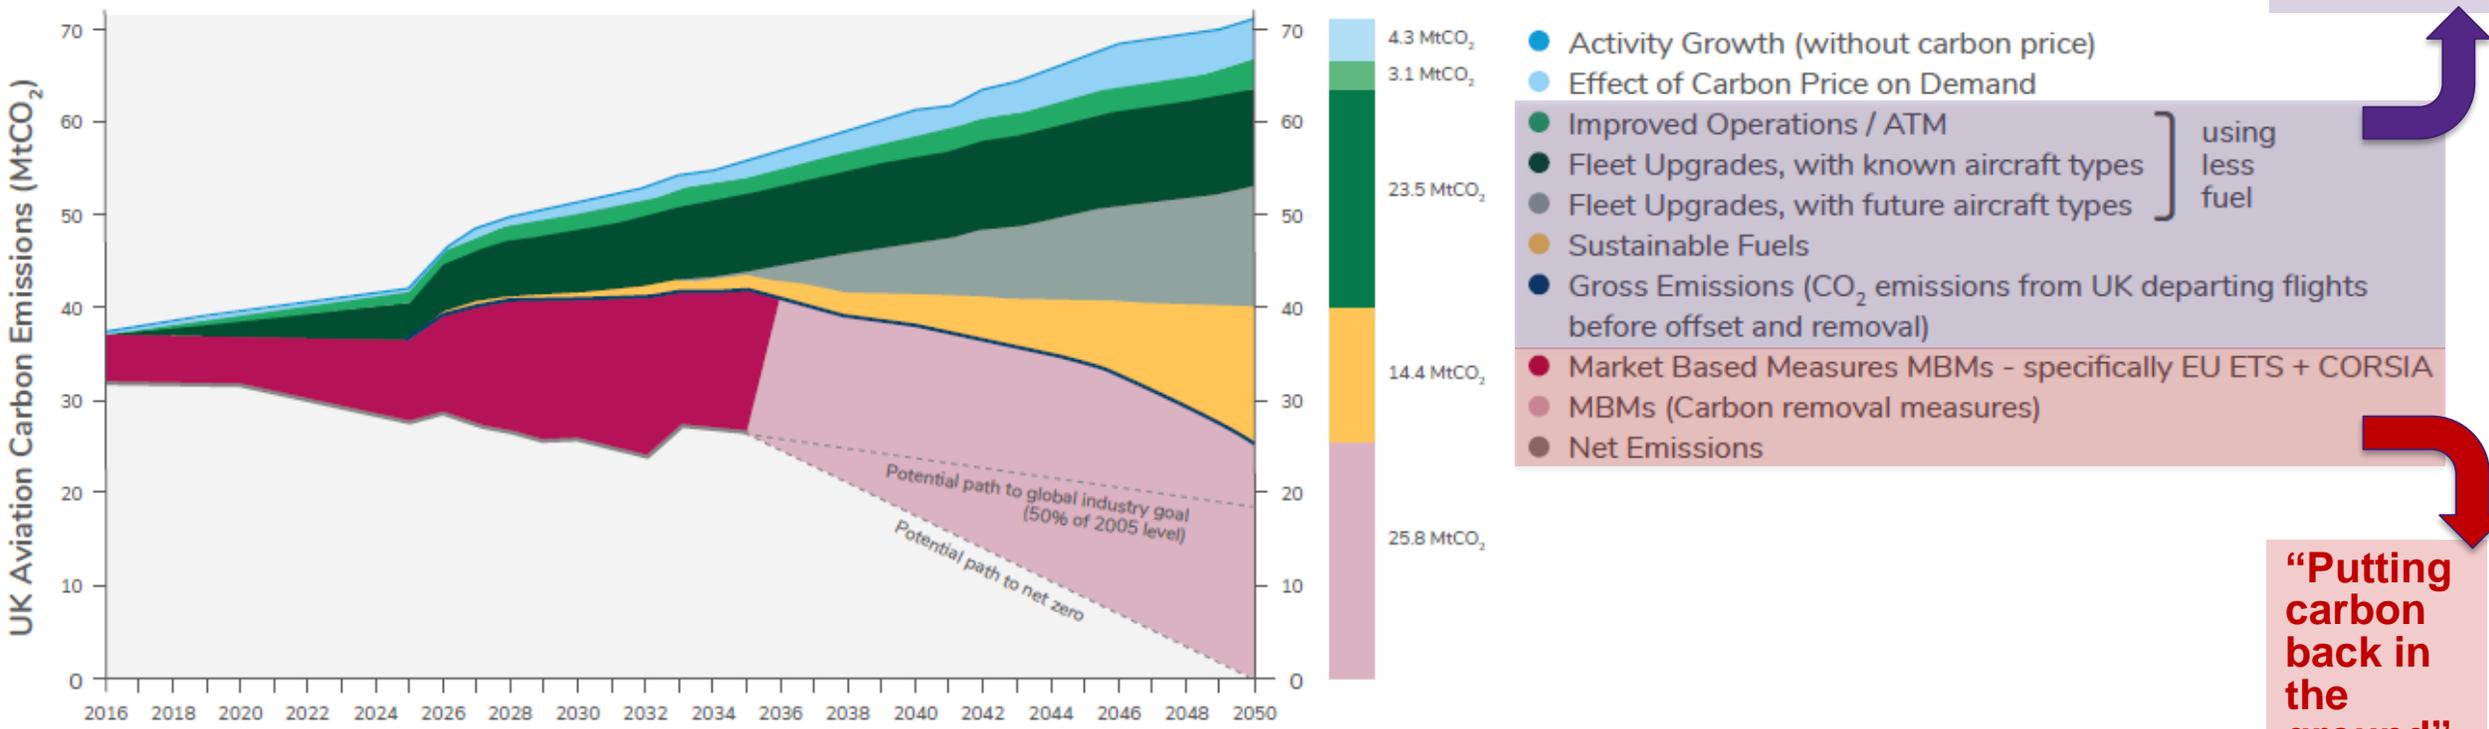

Climate remains *the* existential threat for aviation in the mid-term

The UK aviation sector has committed to net zero by 2050 and published a detailed pathway

“Taking carbon out of aviation”

“Putting carbon back in the ground”

“Decarbonisation Road-map: a Path to Net Zero”, February 2020
 Full 80 page report available at www.sustainableaviation.co.uk

Sustainable Aviation Fuel is the key to accelerating emissions cuts in the 20s
