

AVIATION CO₂ REDUCTIONS

STOCKTAKING SEMINAR

TECHNOLOGY · OPERATIONS · SUSTAINABLE AVIATION FUELS

Patrick Gandil

Director General of Civil Aviation –
France

Closing High-level
roundtable

Sustainable aviation fuels in France

- ❖ The French **national roadmap** for the deployment of sustainable aviation fuels
 - **2% in 2025** (based on the consumption of fuels on French airports)
 - **5% in 2030**
- ❖ The **national low-carbon strategy**
 - A long-term objective of **50% in 2050**
- ❖ **Ongoing projects :**
 - A **call for expression of interest** for production of **advanced biofuels and e-fuels** in France (14 projects submitted)

Technological research for “0 carbon aviation”

- Upstream research on **H2**
- Research on **electrical hybridization**
- Research on **ultra efficient turboreactors**

Thank You
