RAISES THE LEVEL OF ACCEPTANCE
OF THE TRAVELL -DOCUMENTS
IN PARTICULAR.**

TOWARDS BETTER PRACTICE IN NATIONAL IDENTITY MANAGEMENT

WHAT IS THE MAIN THREAT

- An individual present a high secure (biometric) genuine passport that was issued on the basis of false breeder documentation

TOWARDS BETTER PRACTICE IN NATIONAL IDENTITY MANAGEMENT

3.3 The path forward must be an integral component of the larger spectrum of government direction, purpose, policy and need, consistent with the *ICAO Business Plan* as well as the just-introduced 2020 Vision Forum.

In summary, this path will seek:

- To address the global threat to travel document integrity caused by entitlement judgments that are affected by the weaknesses of the current reliability on breeder documentation;
- To focus broad international attention on the importance and magnitude of these threats with a view toward their mitigation and ultimate elimination; and,
- To create a forum and foundation for the development of the worldwide security enhancement of breeder documentation, in the spirit that Annex 9 focuses on TD.

TOWARDS BETTER PRACTICE IN NATIONAL IDENTITY MANAGEMENT

4. Actions Requested of TAG/MRTD

- 4.1 It is requested that the TAG acknowledge the importance of the breeder documentation issue and the necessity to undertake a review for enhancement and improvement; and
- 4.2 authorize the New Technology Work Group to engage in work directed to those ends and to develop approaches as outlined above with the view of returning to TAG for further clarification and sanction if and as when needed.
