Public Key
Directory
(PKD)

What is the PKD and what is its role

- ❖ A central Repository that simplify and facilitates the sharing of PKI certificates required to authenticate ePassport.
- ❖ Minimizing the volume of certificate exchange:
 - Document Signer Certificates (DSCs)
 - Certificate Revocation Lists (CRLs)
 - Country Signing Certificate Authority (CSCA) Master List
 - Deviation List
- ❖ Ensuring timely uploads

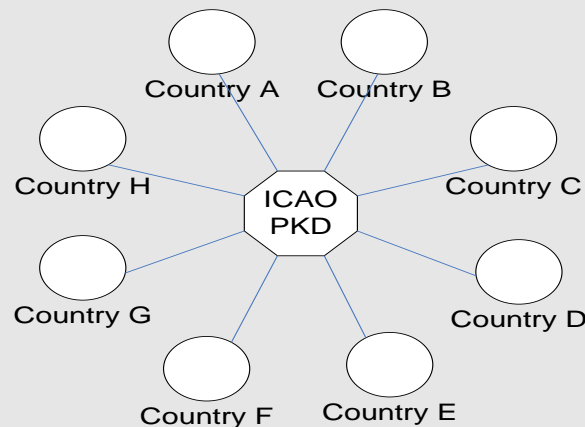

Distribution of Certificates and CRLs

via bilateral Exchange

via ICAO PKD

This example shows **8** States/non-States requiring **56** bilateral exchanges (left) or 2 exchanges with the PKD (right) to be up to date with DSCs and CRLs. In case of **191** ICAO States **36,290** bilateral exchanges would be necessary while there are still 2 exchanges with the PKD.

Why Join the PKD

Issuer Perspective:

Border authorities around the world can validate the ePassports that you issue.

ePassports that cannot be validated must essentially be considered and treated as a non-electronic travel document.

And you are not capitalizing and the investment made to implement ePassports

The ICAO PKD provides a means of distributing your information to other States that is efficient, reliable, and always accessible.

Border Authority Perspective:

performing ePassport validation (according to Doc 9303 7th Edition, Part 12) and accessing the information necessary to perform it, provides confidence that the travel document under inspection has been issued by the proper authorities and that the information recorded on the document has not been tampered with.

The ICAO PKD provides a means of accessing the necessary information published by other States in a cost efficient way that is always available.

Traveler Perspective:

Validation through the ICAO PKD, confirms the authenticity and integrity of the data on the chip, and in turn facilitates the fast and secure cross-border movement of citizens by the “frontline” entities.

The ICAO PKD is the most efficient and reliable means of both providing and accessing the information required for ePassport validation.

ANNEX 9: Recommended Practice 3.9.1, 3.9.2 and 3.35.5

The Standards and Recommended Practice of Annex 9 recommend the following:

3.9.1: “Contracting States issuing, or intending to issue eMRTDs should join the ICAO Public Key Directory (PKD) and upload their information to the PKD.”

3.9.2: “Contracting States implementing checks on eMRTDs at border controls should join the ICAO Public Key Directory (PKD) and use the information available from the PKD to validate eMRTDs at border controls.”

3.35.5: “Contracting States utilizing ABC systems should, pursuant to 3.9.2 and 3.10.1, use the information available from the PKD to validate eMRTDs....”

The steps to join the PKD

For a state or non-state entity:

1. Deposit a Notice of Participation with the Secretary General of ICAO.
2. Deposit a Notice of Registration with the Secretary General of ICAO.
3. Effect payment of the Registration Fee and Annual Fee to ICAO.
4. When ready, securely submit to ICAO, the Country Signing CA Certificate (CSCA).
5. Upload/Download to and from the PKD.

E-Mail:	CSCA@ema.gov.uto
Designation (eMRTD System):	Head of N-PKD

Participation fee

A. ICAO Registration Fee: **US \$15,900**

B. Estimated Annual Fee 2018 based on 55+ Active Participants:
US \$ 31,755 (Operator Fee US \$ 24,500 + ICAO Operator fee US \$ 7,255)

C. More Participants = reduction in Operators + ICAO Annual Fees

*ICAO prepares an annual operation budget every year which is divided over the total number of PKD participants. For 2018 the ICAO Operation Fees have been established at US \$7,255.00.

Active Participants	Operator Fees (US \$)	ICAO * Fees (US \$)
50 Participants	27,000.00	7,255.00
55 Participants	24,500.00	7,255.00
60 Participants	22,500.00	7,255.00
65 Participants	20,900.00	7,255.00

Active Participation PKD Integration

1. A PKD Participant should start active Participation (CSCA Import and PKD Upload) at the latest 15 months after paying The Registration Fee and becoming Effective participants.
2. Participant are required to have completed the testing of the PKD interface and successfully imported the CSCA into the HSM in Montreal.
3. The PKI Infrastructure between National and ICAO PKD should be implemented.

CSCA KEY CEREMONY

- the CSCA Certificate plays the main role as the anchor of trust in the validation process of the ePassports
- Each state participating in the ICAO PKD is required to securely submit its CSCA certificate to ICAO.
- The CSCA certificate, must be hand delivered by a State Representative to ICAO headquarter in Montreal where it is imported securely to the ICAO PKD (High Security Module, HSM) under the observation of the state's representatives and the ICAO security officials
- After the Key ceremony is complete, the DSCs and CRLs can be uploaded to the ICAO PKD. The authenticity of the DSCs and CRLs can now be verified using the public keys stored inside the CSCA certificates that are stored within the ICAO PKD.

It's not complicated : All you have to do is....

- Review national legislation:
 - Essential before introducing ePassport and joining the PKD
- Find out who is responsible:
 - Define roles and responsibilities of all those involved with the PKD (PKI, NPKD, etc...)
- Establish a budget line:
 - streamline the annual payment
- Address Technical Specifications:
 - ensure that the National PKD is technically compatible with the ICAO PKD
- Integrate the National PKD with the ICAO PKD:
 - This includes National PKDs uploading and downloading certificates (DSCs and MLs) and revocation lists to and from the ICAO PKD

Conclusion

- ICAO urges all ICAO Member States to **join and actively use the certificates** distributed by the ICAO PKD as a means to validate and authenticate ePassports at Border Controls.
