

# FIRST JOINT ICAO/INTERPOL PASSENGER DATA EXCHANGE FORUM

Montréal, Canada | 27 - 28 May 2021

---

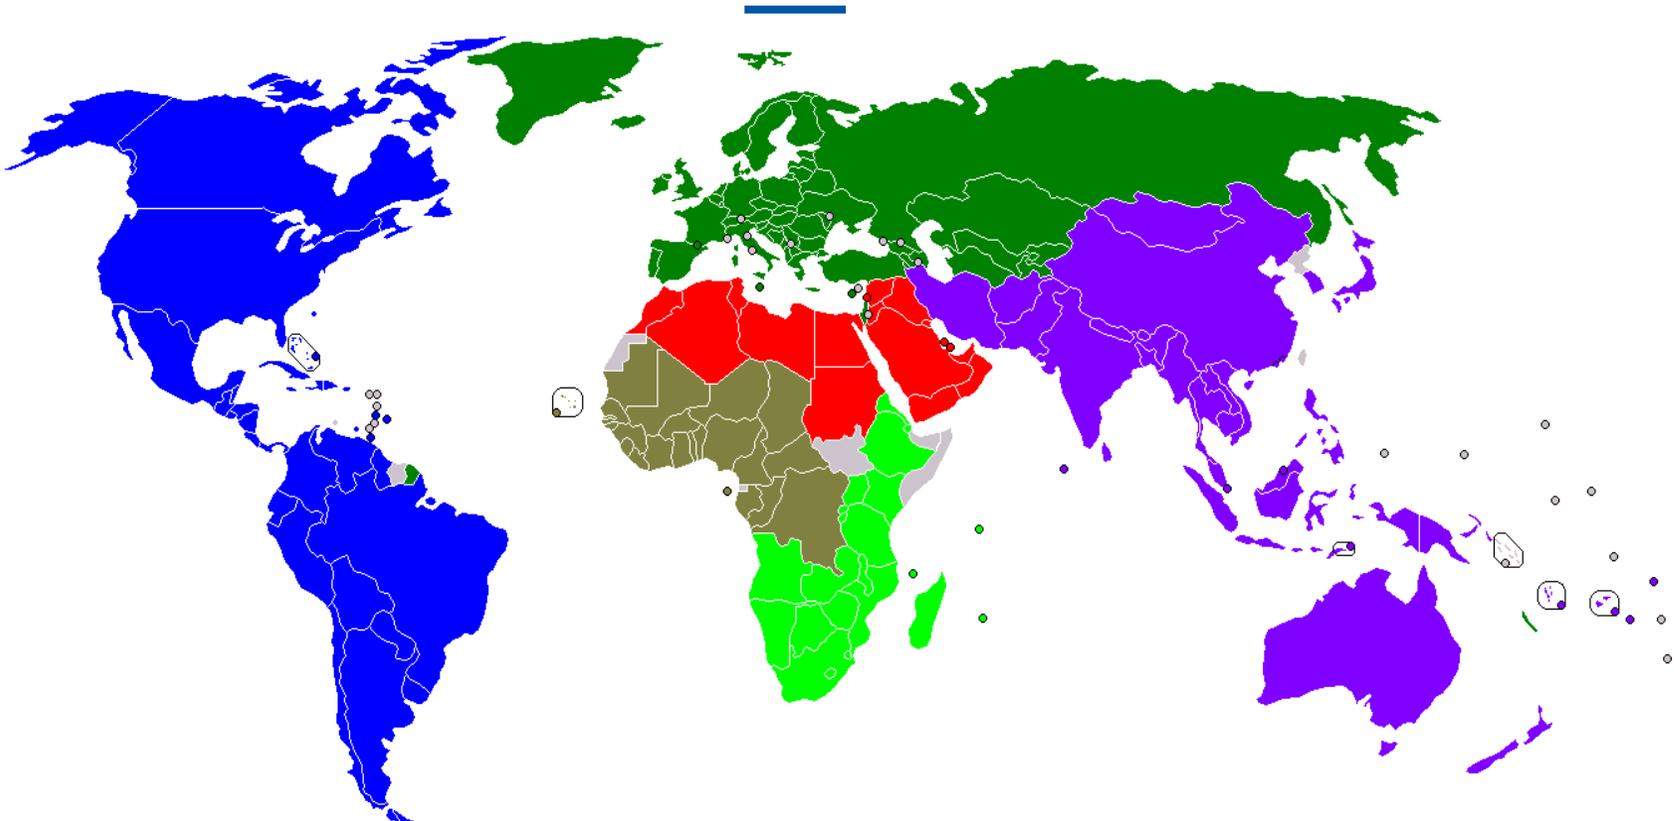

# Ms. Jatinder (Jin) Randhawa

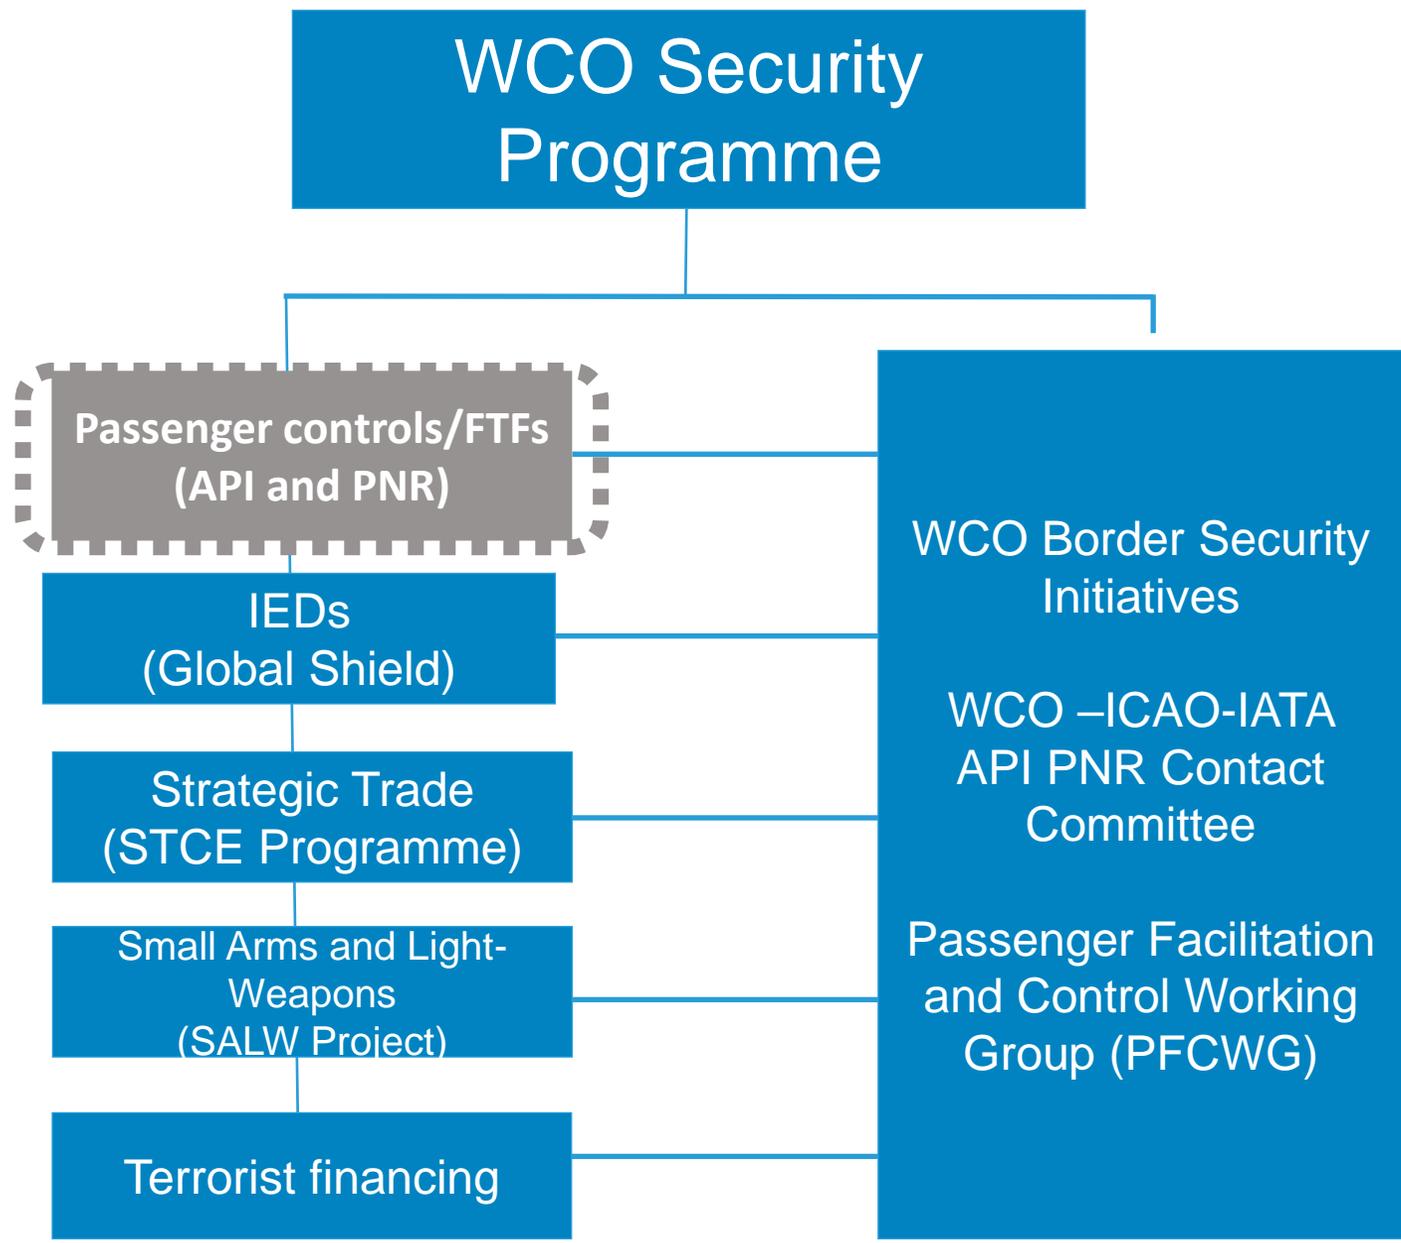

Technical Officer/Programme Manager  
Passenger Controls Security Programme  
**World Customs Organization**

# World Customs Organization

“Customs bolstering Recovery, Renewal and Resilience for a sustainable supply chain”

# Global Travel Assessment System (GTAS)

Risk assessment system to help officers identify passengers of interest in advance of arrival.

Created to help members become compliant with  
WCO Punta Cana Resolution December 2015  
&  
UN Security Resolutions (2178) (2396) (2482)

Designed in the interest of detection, interruption and interdiction of Foreign Terrorist Fighters (FTFs) amongst other bad actors

Working Group

Maritime – API  
PNR data set  
development  
with industry  
collaboration

# Members are guided to:

- Familiarize themselves with global standards
- Ensure legislation and regulations are in place for both **API and PNR**
- Establish inter-agency cooperation & single window parameters
- Include private stakeholders as soon as possible
- Determine sustainability of program and operational management
- If needed, approach foreign States and organizations for assistance

# How members get started

- Contact WCO & Complete GTAS Intake Questionnaire
- WCO accompanied by CBP technical support team conduct site visit to determine technical feasibility and operational readiness
- Determine pilot parameters
- Deployment of GTAS system (training for officers, and IT Services)
- Transition of knowledge to member country towards independent ownership of GTAS by end of pilot.
