Digital Solutions for Safely Reviving International Travel

Achieving Global Interoperability & Scalability

Importance of a Global Digital Solution

ICAO

WHAT
must
be
done

“The expressed ambition for G7 Ministers to work together in promoting international solutions and standards on COVID-19 certification for travel purposes”

(G7 Leaders Communique, June 2021)

“We acknowledge the relevance of shared standards to ensure seamless travel, including testing requirements and results, vaccination certificates and the interoperability and mutual recognition of digital applications....”

(G20 Leaders Declaration,

“Where digital certificates of COVID-19 status are used, interoperable solutions should be sought to allow for cross border verification”

(WHO Policy Considerations for Risk Based Travel, July 2021)

“We commit to... accelerate the adoption and acceptance of digital health certificates for testing and vaccination to facilitate international air travel...”

(ICAO High Level Conference on COVID-19 Ministerial Declaration, Oct 2021)

HOW
it can be
achieved

4 Policy & 4 Technical Recommendations

1 EU Digital COVID Certificate (EU DCC)
60+ countries

2 ICAO Visible Digital Seal (VDS-NC)
Australia

3 DIVOC
India, Philippines, Sri Lanka, Jamaica, Indonesia

4 SMART Health Cards
Canada, USA (States), Japan

Longer Term: Single Digital Health Certificate

Digital Travel Portals: Health, Security, Immigration

Digital Travel Portal

Complete **all** admissibility checks **pre-travel** & **off airport**
(no need to display paperwork during travel)

12 General & 5 Process Recommendations

Fully aligned with ICAO Annex 9 (Facilitation)

NEW: ICAO Recommended Practices (RP) from November 2022

- Contracting States requesting standardized health documents and/or health-related documentation should consider developing a **HEALTH DIGITAL PLATFORM** where passengers can apply for obtaining a **NOTIFICATION OF APPROVAL TO TRAVEL** by the States of destination and transit
- When Contracting States establish a **HEALTH DIGITAL PLATFORM**, aircraft operators should, where required, perform checks at the point of embarkation to ensure that each passenger has been granted **APPROVAL FOR TRAVEL** by the States of transit and destination
 - **ICAO Additional Note : In situations where States have interactive API (iAPI), the State could combine the portal with its response message (CUSRES) to the airline, providing an OK / NOT OK to board**

Examples: ArriveCAN

← Proof of vaccination

Upload your proof of vaccination

Upload a file/photo (JPG, JPEG, PNG, PDF), or use your phone's camera to take a photo of your vaccination receipt.

Important note on PDF uploads: Please ensure your uploaded file is not password-protected.

You can upload one image containing proof of 2 vaccine doses, or two images each containing a separate vaccine dose.

Bring a paper or electronic copy of your proof of vaccination when you travel and retain it throughout your quarantine period. Your vaccination status will be confirmed at the border by a Canada Border Services Officer.

The proof of vaccination must be in English, French, or a certified translation. If the proof of vaccination is not in English or French, upload the certified translation and bring the official document when you travel.
