The Joint Undertaking

INTERPOL
and
Frontex

195 MEMBER COUNTRIES CONNECTED THROUGH A SECURE NETWORK

FIELDS

video

INTERPOL -> I-24/7 and databases

-> Border and document expertise

FIELDS

4

Cooperation Needs

INTERPOL
and
Frontex

- **Document Experts** are needed **to support** the Quick Check Card (QCC) production process in an active manner (where capability exists).
 - This is the requirement **to access** FIELDS content *and* a unique global network of experts.
- **Issuing Agencies** are needed **to gather** information about document versions.
 - In return, FIELDS global network of experts can provide useful information that benefits document design (e.g. to assess the security mix in document design).

5

Collaboration ICAO

INTERPOL
and
Frontex

Collaboration with ICAO to:

- **Facilitate the exchange of information** between Issuing Agencies and FIELDS Central Unit to improve data quality and information available.
- A possible revision of the **Guidance for Circulating Specimen Travel Document** by including FIELDS Central Unit as recipient.
- Once the system starts to be widely used, to consider **FIELDS integration** in the border management systems as a **Recommended Practice**.

5

Collaboration IOM

INTERPOL
and
Frontex

Collaboration with IOM to:

- **Facilitate collaboration** with additional document expert networks (cooperation & capacity building).
- Include QCC production sessions in the IOM/DESC **capabilities programmes**.
- Moderate **Regional Working Groups**.
- Integrate FIELDS B2B solution in the **Migration Information and data Analysis System (MIDAS)**.
- **Facilitate global expansion of FIELDS** by supporting countries in the integration of FIELDS B2B solution into their border management information systems.
