# De La Rue as a transition partner

DeLaRue

- Supplier experience and track record in **managing transition:**
  - incumbent schemes, technical upgrade, MRP to ePassport, BAC to EAC, ID to eID, premises change, etc.
- Transition roadmap and upgrade plan
- Education and training
- Best practice
- Customer support throughout transition
- Local knowledge and on-ground support
- Tailored solutions whatever the size and scope

# United Kingdom

## ePassport

DeLaRue

**One of the world's largest and most prestigious identity systems, De La Rue delivers a complete solution for ePassport design, manufacture and personalisation.**

- An annual capacity of between 5 and 6 million books
- Just produced our 10 millionth book
- The highest levels of quality, accuracy, security and innovation
- Based on the theme “Scenic United Kingdom”
- Sophisticated layering of security features to combat specific threats and ensure the book's integrity
- MIDIS™ technology is the powerhouse behind the solution's advanced IT system and software infrastructure
- Provides end to end protective, logical and procedural controls for the entire manufacturing and personalisation process

# Cameroon

## ePassport Solution

DeLaRue

**De La Rue is implementing and supporting Cameroon's migration to ePassport, delivering an estimated half a million books over the next 3 years**

- The delivery of the new, fully ICAO compliant ePassport, is the next phase of the Cameroon Government's identity solutions roadmap
- Includes an upgrade of De La Rue's MIDIS™ issuance system
- To ensure a quick, secure and efficient migration from MRP to ePassport, a fully tailored project management and transition plan has been implemented
- Using De La Rue's local knowledge and global expertise, training and skill transfer to locally employed system operators are key components of this transition process
