

Zhenxia Lv

Team Manager, Airbus Beijing Engineering Center Ltd

Zhenxia Lv joined Airbus Beijing Engineering Center on 8 May 2006.

Zhenxia's development went hand in hand with the growth of Airbus Beijing Engineering Center. Starting as a university graduate, Zhenxia has been involved in various stages of aircraft life, 6 years of A350 development, then contributing to research projects, serial production and daily repair of A320/A330/A380/A350.

Her experience includes different roles as designer, project design leader, project leader, design manager and team manager.

Zhenxia was born in 1983 in Shandong, China. She is a keen runner and received her master degree in Mechanical Engineering of Beijing University of Aeronautics and Astronautics.

Engaged by Airbus values and culture, Zhenxia continues to actively contribute to the company growth and globalization.
