Employment

¹ In this study, women of color include Black, Latina, Asian, American Indian or Alaskan Native, Native Hawaiian, Pacific Islander, or mixed-race women. However, due to small sample sizes, reported findings on individual racial/ethnic groups are restricted to Black women, Latinas, and Asian women. ² Due to rounding, representation by race and gender may sum to 101 percent or 99 percent within some levels. ³ This represents percentage point change. ⁴ The small numbers at the executive level, combined with this study's methodology, which takes the average of companies, means that findings at the executive level are more sensitive to individual company variation.

Quick takeaways

INDUSTRY: Set gender diversity as strategy and review the status in annual report

SCHOOL: Market high-skilled careers to young female students

EVERYONE: Coach one female around you

Thank you
