2010 GSS

The ICAO/World Bank/Routes Global Strategy Summit (GSS) is a unique event where airline and airport Chairmen and CEOs come together in an informal setting to discuss the key issues currently affecting the air transport industry. There are no formal presentations, only focussed panel discussions.

This makes for vibrant and stimulating interchange between industry leaders. The aim is not to discuss the past but to try and explore the way forward. The GSS is a must for those planning for the future in a turbulent environment.

The 4th Global Strategy Summit will be co-located with World Routes, The 16h World Route Development Forum, Vancouver, Canada 19-21 September 2010.

For further information please contact Vera Watson on vera.watson@routedevgroup.com or visit [www.routesonline.com](http://www.routesonline.com) for further details.
