

# ICAO GASP Introduction

## SSP/SMS Implementation Workshop

*Mexico City, Mexico, 21-24 July 2014*

Eduardo Chacin

Regional Officer, Flight Safety

ICAO NACC Regional Office

# Global Aviation Safety Plan (GASP)

GASP prioritizes the implementation of a State safety oversight system as a prerequisite to the establishment of a SSP

# Global Aviation Safety Plan (GASP)

- **GASP target dates and broad objectives:**
  - Near-term (by 2017):
    - Implementation of an effective safety oversight system
  - Mid-term (by 2022):
    - Full implementation of the ICAO SSP framework
  - Long-term (by 2027):
    - Implementation of an advanced safety oversight system, including predictive risk management

# GASP Strategy

# Summary

- States and service providers have safety responsibilities
- ICAO SARPs require States to establish a SSP
- SSP is an integrated set of regulations and activities aimed at improving safety
- States are required to establish an ALoSP to be achieved
- Services providers are required to establish SMS

## Summary cont.

- Regional Aviation Safety Groups (RASGs) have been invited to identify activities, included required resources, to support the effective and continuing implementation of SMS and SSP provisions
- States, through their RASGs are strongly encouraged to report progress, regarding the implementation of SSP and SMS provisions, which is essential to guide the future development of safety management provisions (Phase 2 of Annex19)
- ICAO is providing implementation assistance:
  - Project RLA/09/801 (courses, workshops, SSP Go-Teams)
  - Technical Missions
