

TRINIDAD AND TOBAGO

Meeting to Enhance State Coordination

Between

MET, AIM, and ATM Fields

(Mexico City, Mexico, 26 – 28 July 2016)

ANSP
Air Navigation
Service Provider

PRESENTED BY

Robert Rooplal, ATM Officer
Ricky Bissessar, AIM Officer

PIARCO FLIGHT INFORMATION REGION

This is all of the 750,000 sq. miles of airspace where Piarco provides Air Navigation Services excluding the Terminal Airspaces (TMA's)

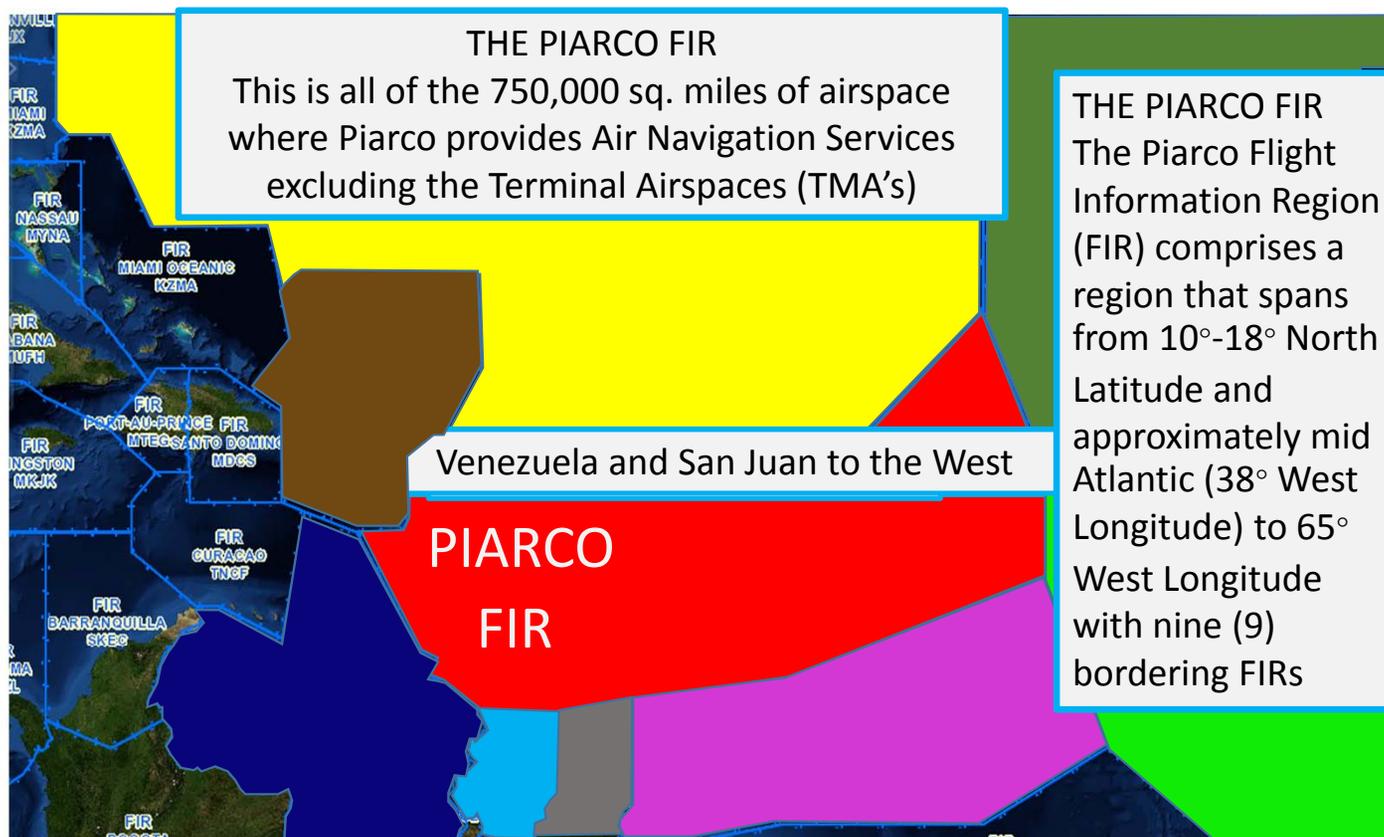

The Piarco Flight Information Region (FIR) comprises a region that spans from 10°-18° North Latitude and approximately mid Atlantic (38° West Longitude) to 65° West Longitude with nine (9) bordering FIRs

OPERATING FORUM

TRINIDAD AND TOBAGO AVIATION METEOROLOGY COMMITTEE

The Committee was formed to:

- Coordinating and ensure the execution of activities to meet the meteorological requirements necessary for civil air navigation in Trinidad and Tobago and delegated airspaces for which Trinidad and Tobago has responsibility.
- Coordinate Training between the TTCAA and TTMS with the objective of familiarizing personnel with the activities performed by both services

AIM -ATS

1. Collection and distribution of FPL data.
2. Provision of NOTAM data.
3. Use of AFTN/AMHS network for collection and transmission of ATS data.
4. Operations of the Flight Data Processing Unit for providing data to the ATM system.
5. Correction of erroneous FPL at the FDP unit.
6. Collection and distribution of Position reports and printed FPLs within the ACC.
7. Integration of SWIM for the ATFM system.

The screenshot displays the IDS Spatia software interface. The top navigation bar includes the IDS SPATIA logo, user information for 'Piarco Air Traffic Control Tower', and menu options for 'Central FLT(2)', 'Preferences', 'Help', and 'SignOut'. A sidebar on the left is titled 'NOTAM OFFICE' and lists four query types: 'Notam Query', 'Snowtam Query', 'Ashtam Query', and 'Birdtam Query'. The main map area shows a geographical view of West Africa with labels for 'Nouakchott', 'Saint-Louis', 'Louga', 'Dakar', 'Sénégal', 'The Gambia', 'Ziguinchor', 'Guinée-Bissau', 'Guinée', 'Conakry', and 'Sierra Leone'. A circular navigation control is visible on the left side of the map.

AIM - MET

Provision of the IDS Spatia software for promulgation and recording of Aviation MET data.

1. Use of the AFTN/AMHS network for distribution and collection of MET data.
2. Possibility of employing the Spatia software within the E/CAR states for promulgation of MET data.
3. Integration of Aviation MET data within the ATFM system.

Configuration of Spatia MET Parameters for 12 E/CAR States

The screenshot displays the IDS SPATIA web application interface. The browser address bar shows the URL 190.58.238.35/AIM/. The page title is "IDS SPATIA". The user is logged in as "TTCAA_Admin". The navigation menu includes "RejectNotam(1)", "RejectFlightPlan(1)", "AlertInbox (3)", "Preferences", "Help", and "SignOut".

The main content area is titled "Opmet Query". It features a "Query" section with a "Filter By:" dropdown and "Filter Results: 0" and "Print All" buttons. Below this is a "Criteria" section with two tabs, "Criteria 1" and "Criteria 2". The "Type" section contains a list of checkboxes for various meteorological report types:

- METAR
- SYNOPS
- SYNOPS SI
- WINTEN
- SPECI
- GAMET
- WS WRNG
- TAF FT
- TAF FC
- AIRMET
- FASA
- MARINE
- AD WRNG
- ARFOR
- SIGMET WC
- SIGMET WV
- SIGMET WS
- TCA
- AIRREP
- VAA
- CLIMATE
- CLIMATE TEMP
- UAR

The "Catalogue Status" section has two radio buttons: "Active" and "Expired", with "Expired" selected. Below the configuration is a table with columns: "Location", "Type", "Modifier", "Station", "Time", and "Transmission Status". The table is currently empty. To the right of the table is a "Details" section with buttons "Delete" and "Print".

The "Details" section contains the following information:

- Location ID: TTPP
- Report Station ID: TTPP
- Report Datetime: 2015-02-01 12:00:00
- Report Type: METAR
- Report Modifier:
- Transmission Status: TRANSMITTED
- Catalogue Status: ACTIVE
- Message Text: METAR TTPP 011200Z 0000KT 9999 FEW014 26/23 Q1016 NOSIG

The bottom of the page shows the date and time "Sun Feb 1 12:40:20 2015 UTC" and the copyright notice "Copyright © 2013 IDS Tech Inc. All rights reserved. Version: 7.6.7 (svn25439)".
