SITA Concession

WHY A CONCESSION MODEL

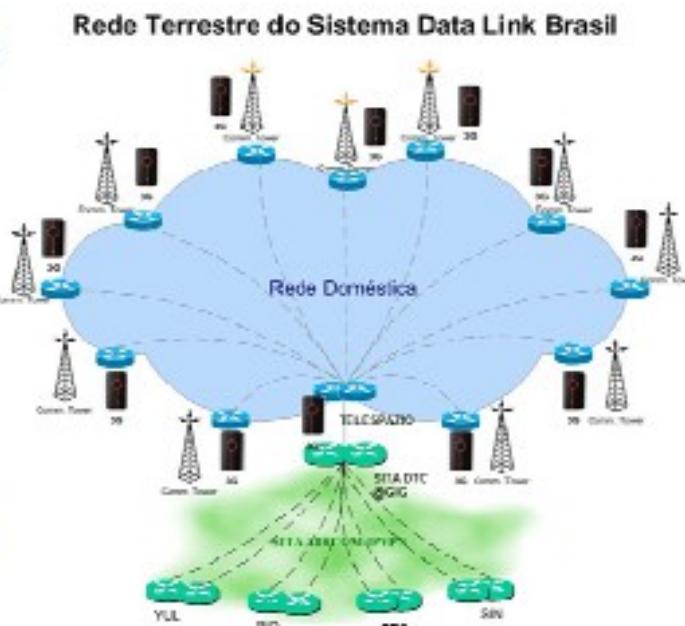

DECEA is responsible for aeronautical telecommunications in Brazil and was looking forward to select a CSP partner with well recognized experience on implementation and operation of data link infrastructure for long term investment and partnership.

CHALLENGES	SAFETY	EFFICIENCY
<ul style="list-style-type: none">To provide SIRIUS program with stat-of-art air ground data link communication technologyTo respond continued traffic growth in BrazilMajor step on SISCEAB modernization strategy to support big events (World soccer games in 2014 and Olimpycs in 2016)	<ul style="list-style-type: none">To enhance communication between ATC and aircraft users, by adding data to voiceTo ensure communication integrity, specially with foreign airline crews	<ul style="list-style-type: none">For both ATC and aircraft users:<ul style="list-style-type: none">To reduce ATCO and Crew workload by replacing voice by data on routine communication,To reduce the use of voice radio frequencies

SITA Concession

VHF CONCESSION OVERVIEW

- In 2010, after a public RFP process, SITA has been selected by DECEA to deploy a new VHF data link network in Brazil;
- The agreement model is a 20 years public concession where SITA operates and maintain the VHF network on behalf of DECEA;
- SITAONAIR became exclusive service provider in Brazil for AOC and keeps Internetworking with other DSP for ATS purpose;
- SITAONAIR replaced obsolete DECEA's data link network and Processor.
